Modernist Mysteries: Persephone Tamara Levitz, 2012-08-15 Modernist Mysteries Pers phone is a landmark study that will move the field of musicology in important new directions The book presents a microhistorical analysis of the premiere of the melodrama Pers phone at the Paris Opera on April 30th 1934 engaging with the collaborative transnational nature of the production Author Tamara Levitz demonstrates how these collaborators Igor Stravinsky Andr Gide Jacques Copeau and Ida Rubinstein among others used the myth of Persephone to perform and articulate their most deeply held beliefs about four topics significant to modernism religion sexuality death and historical memory in art In investigating the aesthetic and political consequences of the artists diverging perspectives and the fall out of their titanic clash on the theater stage Levitz dismantles myths about neoclassicism as a musical style The result is a revisionary account of modernism in music in the 1930s As a result of its focus on the collaborative performance this book differs from traditional accounts of musical modernism and neoclassicism in several ways First and foremost it centers on the performance of modernism highlighting the theatrical performative and sensual Levitz places Christianity in the center of the discussion and questions the national distinctions common in modernist research by involving a transnational team of collaborators She further breaks new ground in shifting the focus from history to memory by emphasizing the commemorative nature of neoclassic listening rituals over the historicist stylization of its scores and contends that modernists captured on stage and in philosophical argument their simultaneous need and inability to mourn the past The book as a whole counters the common criticism that neoclassicism was a reactionary musical style by suggesting a more pluralistic ambivalent and sometimes even progressive politics and reconnects musical neoclassicism with a queer classicist tradition extending from Winckelmann through Walter Pater to Gide Modernist Mysteries concludes that 1930s modernists understood neoclassicism not as formalist compositional approaches but rather as a vitalist art haunted by ghosts of the past and promissory visions of the future

**In Stravinsky's Orbit** Klara Moricz, 2020-08-04 The Bolsheviks 1917 political coup caused a seismic disruption in Russian culture Carried by the first wave of emigrants Russian culture migrated West transforming itself as it interacted with the new cultural environment and clashed with exported Soviet trends In this book Klara Moricz explores the transnational emigrant space of Russian composers Igor Stravinsky Vladimir Dukelsky Sergey Prokofiev Nicolas Nabokov and Arthur Louri in interwar Paris Their music

reflected the conflict between a modernist narrative demanding innovation and a narrative of exile wedded to the preservation of prerevolutionary Russian culture. The emigrants and the Bolsheviks contrasting visions of Russia and its past collided frequently in the French capital where the Soviets displayed their political and artistic products. Russian composers in Paris also had to reckon with Stravinsky's disproportionate influence if they succumbed to fashions dictated by their famous compatriot; they risked becoming epigones if they kept to their old ways; they quickly became irrelevant. Although Stravinsky's neoclassicism provided a seemingly neutral middle ground between innovation and nostalgia, it was also marked by the exilic experience. M. Ricz offers this unexplored context for Stravinsky's neoclassicism, shedding new light on this infinitely elusive term.

*Stravinsky's Piano* Graham Griffiths, 2013-02-21 Stravinsky's reinvention in the early 1920s as both neoclassical composer and concert pianist is here placed at the centre of a fundamental reconsideration of his whole output viewed from the unprecedented perspective of his relationship with the piano. Graham Griffiths assesses Stravinsky's musical upbringing in St Petersburg with emphasis on his education at the hands of two extraordinary teachers whom he later either ignored or denounced: Leokadiya Kashperova for piano and Rimsky-Korsakov for instrumentation. Their message, Griffiths argues, enabled Stravinsky to formulate from that intensely Russian experience an internationalist brand of neoclassicism founded upon the premises of objectivity and craft. Drawing directly on the composer's manuscripts, Griffiths addresses Stravinsky's lifelong fascination with counterpoint and with pianism's constructive processes. Stravinsky's Piano presents both of these as recurring features of the compositional attitudes that Stravinsky consistently applied to his works, whether Russian neoclassical or serial, and regardless of idiom and genre.
