Ingrian Laments:

Studies in Ingrian Laments Aili Nenola, 1982 *Ingrian laments* Aili Nenola, 2002 The laments of Ingria represent a Balto-Finnic women's tradition whose other branches include the laments of the Karelian Vepsian and Setu peoples. Women have composed and performed laments in connections with death rites and wedding ceremonies. Laments were also used to bid farewell to boys conscripted into the army during the Czarist era. This volume contains nearly 700 lament texts recorded mostly in writing between 1841 and 1975 here presented in their original language with English translations and commentary. The book also includes samples of lament melodies.

The Ritual Lament in Greek Tradition Margaret Alexiou, 2002 The only generic and diachronic study of learned and popular lament and its socio-cultural contexts throughout Greek tradition in which a great diversity of sources are integrated to offer a comprehensive and penetrating synthesis.

The Routledge Handbook of Language and Emotion Sonya Pritzker, Janina Fenigsen, James Wilce, 2019-12-06 The Routledge Handbook of Language and Emotion offers a variety of critical theoretical and methodological perspectives that interrogate the ways in which ideas about and experiences of emotion are shaped by linguistic encounters and vice versa. Taking an interdisciplinary approach which incorporates disciplines such as linguistic anthropology, sociolinguistics, applied linguistics, psychology, communication studies, education, sociology, folklore, religious studies, and literature, this book explores and illustrates the relationship between language and emotion in the five key areas of language socialisation, culture, translation and transformation, poetry, pragmatics, and power. The affective body, self, and emotion communities situate our present-day thinking about language and emotion by providing a historical and cultural overview of distinctions and moral values that have traditionally dominated Western thought relating to emotions and their management. It provides a unique insight into the multiple ways in which language incites emotion and vice versa, especially in the context of culture. With contributions from an international range of leading and emerging scholars in their fields, *The Routledge Handbook of Language and Emotion* is an indispensable resource for students and researchers who are interested in incorporating interdisciplinary perspectives on language and emotion into their work.

Mythic Discourses Frog, Anna-Leena Siikala, Eila Stepanova, 2012-12-31 Mythic discourses in the present day show how vernacular heritage continues to function and be valuable through emergent interpretations and revaluations. At the same time, continuities in mythic images, motifs, myths, and genres reveal the long duration of mythologies and their transformations. The eighteen articles of *Mythic Discourses* address the many facets of myth in Uralic cultures from the Finnish and Karelian world creation to Nenets shamans, offering multidisciplinary perspectives from twenty eastern and western scholars. The mythologies of Uralic peoples differ so considerably that mythology is approached here in a broad sense, including myths, proper religious beliefs, and associated rituals. Traditions are addressed individually, typologically, and in historical perspective. The range and breadth of the articles, presenting diverse living mythologies, their histories, and relationships to traditions of other cultures such as Germanic and

Slavic all come together to offer a far richer and more developed perspective on Uralic traditions than any one article could do alone
