Inheritance And Wealth In America

James Ciment

Inheritance And Wealth In America:

Inheritance and Wealth in America Robert K. Miller Jr., Stephen J. McNamee, 1997-11-30 *Inheritance and Wealth in America* is a superb collection of original essays written in nontechnical language by experts in sociology economics anthropology history law and other disciplines Notable chapters provide an outstanding interpretative history of inheritance in American legal thought a critical review of the literature on the economics of inheritance at the household and societal levels a superb history of Federal taxation of wealth transfers and a sociological examination of inheritance and its role in class reproduction and stratification This groundbreaking work is of value to any researcher dealing with the transmission of wealth and privilege across generations

Inheriting Wealth in America Edward N. Wolff, 2015 Inheritances are often regarded as a great evil enabling great fortunes to be passed from one generation to another exacerbating wealth inequality and reducing wealth mobility Using data from the Survey of Consumer Finances the Panel Study of Income Dynamics and a simulation model over years 1989 to 2010 the author reports six major findings

Inheritance in Contemporary America Jacqueline L. Angel, 2008-01-28 Publisher Description

Family Life in England and America, 1690-1820, vol 4 Rachel Cope, Amy Harris, Jane Hinckley, 2021-11-18 This four volume collection of primarily newly transcribed manuscript material brings together sources from both sides of the Atlantic and from a wide variety of regional archives It is the first collection of its kind allowing comparisons between the development of the family in England and America during a time of significant change Volume 4 Managing Families II In this final volume documents are focused on some of the more negative aspects of family life Sections focus on authority power and discontent violence and conflict and death and mourning Topics include estate disputes contested marriages spousal abuse deaths wills and memorials

Socialism in America John L. Bowman, 2004-03-15 In 1835 Alexis de Tocqueville predicted a species of oppression with which democratic nations are menaced unlike anything which ever before existed in the world It was a despotism that would be more extensive and would degrade men without tormenting them It would be a force that compresses enervates extinguishes and stupefies a people till each is reduced to be nothing better than a flock of timid animals of which the government is the shepherd Tocqueville was predicting socialism in America a new form of oppression that did not exist in his time He could not name it at the time because the word socialism had not yet appeared in the English language and Karl Marx had not yet published his Communist Manifesto America has become a socialist state and Socialism in America is about what socialism is doing to America today Socialism is an oppression that has caused America to discard the rule of law forsake justice limit freedom attenuate individuality create dependence degrade social norms attack sources of wealth and divide the culture This form of despotic totalitarianism has irreversibly commenced the destruction of American culture and nation Socialism in America offers the reader the perspective of how and why this is happening It explains the history of socialism and in particular the history of socialism in America It discusses the roles of socialism s foremost vectors which are primarily the unions and

Democratic Party It critically dissects the philosophy of socialism itself and examines other countries struggles to survive under the heavy socialist boot Every freedom loving American should read **Socialism in America** **How Rich Is Too Rich?** Herbert Inhaber, Sidney Carroll, 1992-01-30 Suggests some practical solutions to the problem of excessive wealth outlines a way to deal with the too rich that would also create a healthier economy The authors create a framework with which to evaluate proposals to redistribute great wealth and income The Meritocracy Myth Stephen J. McNamee, Robert K. Miller, 2009 The Meritocracy Myth challenges the widely held American belief in meritocracy that people get out of the system what they put into it based on individual merit Fully revised and updated throughout the second edition includes compelling new case studies such as the impact of social and cultural capital in the cases of George W Bush and Barack Obama and new material on current topics such as the impact of the financial and credit crisis intergenerational mobility and the impact of racism and sexism The Meritocracy Myth examines talent attitude work ethic and character as elements of merit and evaluates the effect of non merit factors such as social status race heritage and wealth on meritocracy A compelling book on an often overlooked topic the first edition was highly regarded and proved a useful examination of this classic American ideal **African Americans in the U.S. Economy** Cecilia Conrad, 2005 Over the last several decades academic discourse on racial inequality has focused primarily on political and social issues with significantly less attention on the complex interplay between race and economics African Americans in the U S Economy represents a contribution to recent scholarship that seeks to lessen this imbalance This book builds upon and significantly extends the principles terminology and methods of standard economics and black political economy Influenced by path breaking studies presented in several scholarly economic journals this volume is designed to provide a political economic analysis of the past and present economic status of African Americans The chapters in this volume represent the work of some of the nation s most distinguished scholars on the various topics presented The individual chapters cover several well defined areas including black employment and unemployment labor market discrimination black entrepreneurship racial economic inequality urban revitalization and black economic development The book is written in a style free of the technical jargon that characterizes most economics textbooks While the book is methodologically sophisticated it is accessible to a wide range of students and the general public and will appeal to academicians and practitioners alike *Meritocracy and Americans' Views on Distributive Justice* Richard T. Longoria, 2009-01-01 This book focuses on public opinion on issues related to the theory of meritocracy It employs survey data from a variety of sources in an attempt to understand public sentiments highlighting the contradictory nature of American public opinion and questioning the belief that Americans fully embrace the meritocratic ethos The Family in America Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity

When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change

Social Issues in America James Ciment,2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia North American Review ,1897

Studies in American Social Conditions ,1908 *The Perennials* Mauro F. Guillén,2023-08-22 Get the best from accelerating social change with the new book from the bestselling author of 2030 and acclaimed thought leader Kirkus Mauro Guillén Adam Grant praises how the book invites us to rethink our careers our families and our future plans Find out why business leaders and bestselling authors around the world are calling the book sharply relevant and necessary William P. Lauder insightful and deeply researched Richard Florida and A must read Mohammed A. El-Erian In today's world the acceleration of megatrends increasing longevity and the explosion of technology among many others are transforming life as we now know it In *The Perennials* bestselling author of 2030 Mauro Guillén unpacks a sweeping societal shift triggered by demographic and technological transformation Guillén argues that outmoded terms like Boomers Gen X Millennials and Gen Z have long been used to pigeonhole us into rigid categories and life stages artificially preventing people from reaching their full potential A new postgenerational workforce known as perennials individuals who are not pitted against each other either by their age or experience makes it possible to liberate scores of people from the constraints of the sequential model of life and level the playing field so that everyone has a chance at living a rewarding life Guillén unveils how this generational revolution will impact young people just entering the workforce as well as those who are living and working longer This multigenerational revolution is already happening and Mauro Guillén identifies the specific cultural organizational and policy changes that need to be made in order to switch to a new template and usher in a new era of innovation powered by the perennials *The American Monthly Review of Reviews* ,1897

America's Unholy Ghosts Joel Edward Goza,2019-03-22 America's Unholy Ghosts examines the DNA of the ideologies that shape our nation ideologies that are as American as apple pie but that too often justify and perpetuate racist ideas and racial inequalities MLK challenged us to investigate the ideational roots of race hate and Ghosts does just that by examining a philosophical trinity Thomas Hobbes John Locke and Adam Smith whose works collectively helped to institutionalize imagine and ingrain racist ideologies into the hearts and minds of the American people As time passed America's racial imagination evolved to form people incapable of recognizing their addiction to racist ideas Thus Ghosts comes to a close with the brilliant faith and politics of Martin Luther King Jr who sought to write the conscience

of the Prophetic Black Church onto American hearts minds and laws If our nation s racist instincts still haunt our land so too do our hopes and desires for a faith and politics marked by mercy justice and equity and there is no better guide to that land than the Prophetic Black Church and the one who saw such a land from the mountaintop **The Promise of American**

Life Herbert David Croly,2019-11-20 In *The Promise of American Life* Herbert David Croly presents a compelling analysis of the American identity and its potential for progress Written during the early 20th century this work is characterized by its progressive literary style weaving together historical context with a forward looking vision Croly advocates for a synthesis of liberty and community arguing that the American promise lies not in individualism alone but in the collective welfare making it a pivotal text during a time of national introspection and reform His ideas were influenced by the sociopolitical landscape of the Gilded Age exploring the tensions between capitalism and social equity Herbert David Croly a prominent political theorist and journalist co founded the *New Republic* and was deeply engaged in the Progressive movement His experiences as a reformer shaped his thoughts on American society and governance Influenced by thinkers like John Dewey and the evolution of the American political landscape Croly sought to articulate a vision that transcended traditional notions of democracy emphasizing a balanced approach for the betterment of society *The Promise of American Life* is essential for any reader interested in the roots of contemporary American political thought It offers invaluable insights into the evolving nature of democracy and the intricate interplay between individual rights and collective responsibilities making it a must read for students scholars and anyone invested in understanding the American ethos **Controversies in Tax Law**

Anthony C. Infanti,2016-03-03 This volume presents a new approach to today s tax controversies reflecting that debates about taxation often turn on the differing worldviews of the debate participants For instance a central tension in academic tax literature which is filtering into everyday discussions of tax law exists between mainstream and critical tax theorists This tension results from a clash of perspectives Is taxation primarily a matter of social science or of social justice Should tax policy debates be grounded in economics or in critical race feminist queer and other outsider perspectives To capture and interrogate what often seems like a chasm between the different sides of tax debates this collection comprises a series of pairs of essays Each pair approaches a single area of controversy from two different perspectives with one essay usually taking a mainstream perspective and the other a critical perspective In writing their contributions the authors read and incorporated reactions to each other s essays and paid specific attention to the influence of perspective on both the area of controversy and their contribution to the debate With contributions from leading mainstream and critical tax scholars this volume takes the first step toward bridging the gap between these differing perspectives on tax law and policy States Without Nations Jacqueline Stevens,2009-11-17 As citizens we hold certain truths to be self evident that the rights to own land marry inherit property and especially to assume birthright citizenship should be guaranteed by the state The laws promoting these rights appear not only to preserve our liberty but to guarantee society remains just Yet considering how

much violence and inequality results from these legal mandates Jacqueline Stevens asks whether we might be making the wrong assumptions Would a world without such laws be more just Arguing that the core laws of the nation state are more about a fear of death than a desire for freedom Jacqueline Stevens imagines a world in which birthright citizenship family inheritance state sanctioned marriage and private land ownership are eliminated Would chaos be the result Drawing on political theory and history and incorporating contemporary social and economic data she brilliantly critiques our sentimental attachments to birthright citizenship inheritance and marriage and highlights their harmful outcomes including war global apartheid destitution family misery and environmental damage It might be hard to imagine countries without the rules of membership and ownership that have come to define them but as Stevens shows conjuring new ways of reconciling our laws with the condition of mortality reveals the flaws of our present institutions and inspires hope for moving beyond them

Getting Real About Race Stephanie M. McClure, Cherise A. Harris, 2021-11-06 Getting Real About Race is an edited collection of short essays that address the most common stereotypes and misconceptions about race held by students and by many in the United States in general Key Features Each essay concludes with suggested sources including videos websites books and or articles that instructors can choose to assign as additional readings on a topic Essays also end with questions for discussion that allow students to move from the what knowledge to the so what implications of race in their own lives In this spirit the authors include suggested Reaching Across the Color Line activities at the end of each essay allowing students to apply their new knowledge on the topic in a unique or creative way Current topics students want to discuss are brought up through the text making it easier for the instructor to deal with these topics in an open classroom environment
