Sinha, 2013 Self portrayal has become an integral part of modern culture and India equally shares this universal mood A large number of Indians have committed themselves to the writing of their autobiographies in English as well as in the regional languages It is exciting to know that those in English have been

produced by some of the finest minds of the country such as Raja Rammohun Roy Lal Behari Day Surendra Nath Banerjee Bipin Chandra Pal Lala Lajpat Rai Mahatma Gandhi Rabindranath Tagore Jawaharlal Nehru Subhash Chandra Bose P C Roy S Radhakrishnan Sachchidanand Sinha and Nirad C Chaudhury It is highly fascinating to read their testimony in the shaping of modern Indian history Even more exciting are the glimpses into their private lives and the interrelation between the portrait and the man This study is the first comprehensive attempt to critically evaluate these works and shows how in modern times Indians begin to get over the proverbial Indian inhibition in talking of private affairs hesitatingly first and then with a devastating even embarrassing frankness This study in passing also tries to dispel the impression that no autobiographical tradition existed in ancient and medieval India

Oxford in English Literature John Dougill, 1998 As the English Athens Oxford has long been seen as central to England's intellectual life For over six centuries the city has been lauded slighted and cited in the pages of English literature While it has been hailed as the embodiment of excellence beauty and truth on the one hand it has also been attacked for its elitism insularity and traditionalism on the other Oxford in English Literature provides for the first time an overview of these literary representations ranging from Chaucer's account of medieval students to modern day detective stories set in the city The book begins with the early university possibly founded by an eighth century princess named Frideswide The volume moves on through the Middle Ages with Chaucer's clerks and Foxe's martyrs Oxford in English Literature touches on more recent centuries with Lewis Carroll and Alice in Wonderland Matthew Arnold Max Beerbohm and Evelyn Waugh and the Infamous St Oscar Following the rise of the colleges the literature becomes characterized by a sense of insulation for the closed collegiate structure led to elitism and eccentricity The notion of the university as a paradise of youth beauty and intelligence led to the so called Oxford myth and the backlash against it after World War II The underlying argument of John Dougill's work is that the defining symbol of Oxford is not so much the dreaming spire as the college wall In Oxford literature the college is depicted as a world of its own secluded conservative and

eccentric driven by its own rituals Idealized it becomes a cloistered utopia an Athenian city state a fantasy wonderland or an Arcadian idyll Exclusivity led to resentment from those on the outside as is evident in Thomas Hardy s Jude the Obscure With the advent of democratic and egalitarian values in the twentieth century the privilege and elitism of the university has come under increasing attack as has the whole notion of the English Athens Oxford in English Literature is aimed at the general reader interested in the literature and history of a very unusual town Its familiar subject and the inclusion of numerous rare and specially commissioned illustrations and photographs make this a compelling book John Dougill is Associate Professor of English Literature Ryukoku University Kyoto Japan He is an Oxford graduate and author of The Writers of English Literature
