Rossman, Sharon F. Rallis, 2012 The popular text that helped readers better understand and practice qualitative research has been completely updated and revised To help readers better visualize and grasp the concepts issues and complexities of qualitative inquiry the authors introduce each chapter with discussions among three characters students whose research projects demonstrate the challenges and excitement of qualitative research Woven into the chapters and the characters stories are three themes that make up the tapestry of qualitative research First research is a learning process Second research can and should be useful Finally a researcher needs to have a clear vision of the audience and purpose of a study *The SAGE Handbook of Interview Research* Jaber F. Gubrium, 2012-02-14 The complete handbook on interviewing the Second Edition deals with conceptual and methodological challenges to interviewing in addition to the nuts and bolts of

the interview process **Cross-Cultural Interviewing** Gabriele Griffin,2015-11-19 Interviewing is one of the most common techniques used to conduct qualitative research in the social sciences and humanities As a result of globalization researchers increasingly conduct interviews cross inter and intra nationally This raises important questions about how differences and sameness are understood and negotiated within the interview situation as well as the power structures at play within qualitative research and the role that reflexivity plays in mediating these What does it mean to interview Black women as a Black woman How is ethnicity negotiated across various qualitative research encounters How are differences bridged or asserted in feminist interviewing These are just some of the questions explored in the chapters in this volume Drawing on their recent research the contributors detail their experiences of engaging in qualitative interviewing and examine how they negotiated the various dilemmas they encountered The contributions challenge some of the assumptions made in early feminist work on interviewing providing nuanced accounts of actual research experiences This volume explores the practice and implications of conducting cross inter and intra cultural interviewing bringing together researchers from a range of disciplines and countries to describe and analyse both its vicissitudes and its advantages **Research Methods in Education** Louis Cohen, Lawrence Manion, Keith Morrison,2007-05-07 This fully updated sixth edition of the international bestseller *Research Methods in Education* covers the whole range of methods currently employed by educational research at all stages It is divided into five main parts the context of educational research planning educational research styles of educational research strategies for data collection and researching and data analysis The book also contains references to a comprehensive dedicated website of accompanying materials The sixth edition includes new material on complexity theory ethics sampling and sensitive educational research experimental research questionnaire design and administration with practical guidance qualitative and quantitative data analysis with practical examples internet based research *Research Methods in Education* is essential reading for the professional researcher and continues to be the standard text for students and lecturers in educational research To access the dedicated website of accompanying materials please visit www.routledge.com/textbooks/9780415368780 *Multidisciplinary Approaches to Educational Research* Sadaf Rizvi,2013-06-17 This book provides an original perspective on a range of controversial issues in educational and social research through case studies of multi disciplinary and mixed method research involving children teachers schools and communities in Europe and the developing world These case studies from researchers across continents and across disciplines explore a range of interesting issues including the relevance of research approaches to very different national settings and to the kinds of questions being asked the barriers of language and culture between researcher and researched articulating the thinking and feelings of very young children the challenges of dealing with partiality of data issues of identity subjectivity and reflexivity and transferring research approaches from one national setting to the problems posed in another *Emotion and Discourse in L2 Narrative Research* Matthew T. Prior,2015-10-22 This book examines the interactional management of emotionality in second language

autobiographical interview research Advancing a discursive constructionist approach it offers a timely methodological and reflexive perspective that brings into focus the dynamic and dilemmatic aspects of interviewee and interviewer identities and experiences and it makes visible the often unexpected and unseen consequences for the research project and beyond The author weaves together critical discussion and empirical analysis based on longitudinal narrative based research with adult immigrants from Southeast Asia living in the US and Canada This interdisciplinary book will be compelling reading for students researchers and others interested in emotion narrative discourse identity interaction interviews and qualitative research

Interviewing: The Basics Mark Holton,2024-10-01 This text outlines the relative merits of qualitative interviewing to new and emerging scholars in an accessible way This is achieved not by providing an exhaustive how to guide but in introducing researchers to the interview technique and using examples of best practice from across the social sciences To ensure the book is both accessible and inclusive efforts have been made to include case studies from a diverse range of authors including those from different ethnic and social backgrounds from outside Western Europe North America and from non academic sources This book will therefore introduce the reader to the key themes surrounding interview design implementation analysis and presentation using examples and case studies from research across the social sciences Crucially the book will not provide exhaustive guidance on how to conduct the techniques Instead each chapter includes a range of interview design activities for readers to try which might help them engage with the chapter topics as well as a Summary box which comprises a short annotated reading list of key texts relating to each of the chapter topics and a checklist of things to consider relating to the chapter topics

Gender Identity and Research Relationships Michael R. M Ward,2016-05-20 In recent years researchers have begun to reflect on gender identity and how this impacts on the creation of successful qualitative research In this volume contributors explore these issues by reflecting on their own studies and research careers and address how important or unimportant gender has been in building research relationships

Handbook of Constructionist Research James A. Holstein,Jaber F. Gubrium,2013-10-21 Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

The Critical Turn in Tourism Studies Irena Ateljevic,Annette Pritchard,Nigel Morgan,2007-03-15 New

approaches to tourism study demonstrate a notable critical turn a shift in thought that emphasises interpretative and critical modes of tourism inquiry The chapters in this volume reflect this emerging critical school of tourism studies and represent a coordinated effort of tourism scholars whose work engages innovative research methodologies Since such work has been dispersed across a variety of tourism related and other research fields this book responds to a pressing need to consolidate recent advances in a single text Adopting a broad definition of criticality the contributors seek to find fresh ways of theorising tourism by locating the phenomenon in its wider political economic cultural and social contexts The collection addresses the power relations underpinning the production of academic knowledge presents a range of qualitative data collection methods which confront the field's dominant post positivist approaches foregrounds the emotional dynamics of research relations and explores the personal the political and the situated nature of research journeys The book has been divided into two parts with the essays in the first part establishing a context specific framework for engaging philosophical and theoretical debates in contemporary tourism enquiry The second set of essays then present discuss and critique specific methodologies research techniques methods of interpretation and writing strategies all of which are in some sense illustrative of critical tourism research Contributors range from postgraduate students to established academics and are drawn from both the geopolitical margins and the powerbases of the tourism academy Their various relationships with the English speaking academy thus range from relative outsider to well positioned insider and as a result their essays are reflective of a range of locations within the complexly spun web of academic power relations and social divisions

The Research Interview S. Mann, 2016-04-29 Research and Qualitative Interviews brings into focus the decisions that the interviewer faces by taking a data led approach in order to open up choices and decisions in the process of planning for managing analysing and representing interviews The chapters concentrate on the real time moment by moment nature of interview management and interaction A key feature of the book is the inclusion of reflexive vignettes that foreground the voices and experience of qualitative researchers both novices and more expert practitioners The vignettes demonstrate the importance of reflecting on and learning from interactional experience In addition the book provides an overview of different types of interviews commenting on the orientation and make up of each type Overall this book encourages reflective thinking about the use of research interviews It distinguishes between reflection reflective practice and reflexivity All the chapters focus on recurring choices dilemmas and puzzles offering advice in opening out and engaging with these aspects of the research interview
