Implementing a global health programme Susan Heydon, 2025-02-18. Worldwide eradication of the devastating viral disease of smallpox was devised as a distant global policy but success depended on implementing a global vaccination programme within nation states. How this was achieved remains relevant and topical for responding to today's global communicable disease challenges. The small and poor Himalayan kingdom of Nepal faced enormous geographical and infrastructure challenges if it was going to succeed in a nationwide vaccination programme. This book acknowledges the key role of the WHO but disrupts the top-down, centre-led standard narrative. Against a background of widespread internal political and social change, Nepal's programme was expanded effectively, decentralised, and a vaccination strategy introduced that aligned with people's beliefs. Few foreign personnel were involved. *Role of Gorkhas in Consolidation of British Rule in the North-East Frontiers* Anjalee Muktan Shangpliang, 2022-01-01. This book is based on extensive research work conducted by the author in National and State Archives, Government Record Rooms, Government Reports as well as Private and Unpublished Papers. The author traces the role played by the Gorkha soldiers in collaboration with local recruits in the task of consolidation and perpetuation of British rule in the North-East Frontiers. It was with the help of the superior military power that the British could expel the Burmese from the trouble-torn Brahmaputra Valley, subdue the turbulent hill tribes of the North-East and unite the whole region into one single administrative unit called the Province of Assam. This book will be helpful to students of history and scholars interested in research works. *Routledge Handbook of South Asian Politics* Paul R. Brass, 2010-04-30.
