Identity In Northern Ireland Communities Politics And Change:

Identity in Northern Ireland C. McCall, 1999-02-24 By focusing on the possibilities for change created by the dynamics of European integration and the Anglo Irish political process this book provides a refreshing account of communal identity in Northern Ireland The book argues that such a shift in conditions has major implications for Northern Irish Nationalist and Ulster Unionist identities

International Intervention, Identity and Conflict Transformation Tímea Spitzka, 2015-12-22 This book addresses the challenges of international intervention in violent conflicts and its impact on groups in conflict When the international community intervenes in a violent internal conflict intervening powers may harden divisions constructing walls between groups or they may foster transformation soften barriers and build bridges between conflicting groups This book examines the different types of external processes and their respective contributions to softening or hardening divisions between conflicting groups It also analyses the types of conflict resolution strategies including integration accommodation and partitioning and investigates the conditions under which the international community decides to pursue a particular strategy and how the different strategies contribute to solidification or transformation of group identities The author uses three case studies Bosnia and Herzegovina BiH Northern Ireland and Israel Palestine to reveal how different types of external interventions impact on the identities of conflicting groups The volume seeks to address how states and international organizations ought to intervene in order to stimulate the building of bridges rather than walls between conflicting groups In doing so the book sheds light on some of the pitfalls in international interventions and highlights the importance of united external process and inclusive identity strategies that promote transformation and bridge differences between conflicting groups This book will be of much interest to students of intervention peace and conflict studies ethnic conflict security studies and IR

Religion, Identity and Politics in Northern Ireland Ms Claire Mitchell, 2013-05-28 Has conflict in Northern Ireland kept political dimensions of religion alive and has religion played a role in fuelling conflict Conflict in Northern Ireland is not and never will be a holy war Yet religion is more socially and politically significant than many commentators presume In fact religion has remained a central feature of social identity and politics throughout conflict as well as recent change There has been an acceleration of interest in the relationship between religion identity and politics in modern societies Building on this debate Claire Mitchell presents a challenging analysis of religion in contemporary Northern Ireland arguing that religion is not merely a marker of ethnicity and that it continues to provide many of the meanings of identity community and politics In light of the multifaceted nature of the conflict in Northern Ireland Mitchell explains that for Catholics religion is primarily important in its social and institutional forms whereas for many Protestants its theological and ideological dimensions are more pressing Even those who no longer go to church tend to reproduce religious stereotypes of them and us Drawing on a range of unique interview material this book traces how individuals and groups in Northern Ireland have absorbed religious types of cultural knowledge belonging and morality and how they reproduce these

as they go about their daily lives Despite recent religious and political changes the author concludes that perceptions of religious difference help keep communities in Northern Ireland socially separate and often in conflict with one another A

Political History of the Two Irelands B. Walker, 2012-01-17 This ground breaking political history of the two Irish States provides unique new insights into the Troubles and the peace process It examines the impact of the fraught dynamics between the competing identities of the Nationalist Catholic Irish Community on the one hand and the Unionist Protestant British community on the other

The Europeanization of Party Politics in Ireland, North and South Katy Hayward, Mary Murphy, 2013-10-31 Ireland's relationship with the European Union has been determined by the behaviour actions and discourse of political parties This book examines this impact through an in depth analysis of the Europeanization of party politics in the Republic of Ireland and Northern Ireland First it presents original research on cross cutting issues that have featured in political debates about European integration including referendum campaigns on EU treaties Irish neutrality and party policy positions on the EU Secondly it is the first book of its kind to examine in detail how each of the main parties on the island of Ireland has adapted to EU membership In doing so it both tests the thesis of Europeanization and deepens understanding of the impact that EU membership can have on national and sub national party politics What this study reveals is that while Europeanization is clearly evident in all parties in Ireland including those most critical of European integration its influence has been strictly curtailed We argue that the effects of Europeanization in Irish party politics have been limited by enduring resistance to and conditions placed upon EU influence in particular policy areas the importance of pragmatism and sub national priorities in shaping parties approaches to European integration and the fact that engagement with the EU continues to be a predominantly elite led process This book was published as a special issue of Irish Political Studies

The Oxford Handbook of British Politics Matthew Flinders, Andrew Gamble, Colin Hay, Michael Kenny, 2009-07-16 The study of British politics has been reinvigorated in recent years as a generation of new scholars seeks to build upon a distinct disciplinary heritage while also exploring new empirical territory and finds much support and encouragement from previous generations in forging new grounds in relation to theory and methods It is in this context that The Oxford Handbook of British Politics has been conceived The central ambition of the Handbook is not just to illustrate both the breadth and depth of scholarship that is to be found within the field It also seeks to demonstrate the vibrancy and critical self reflection that has cultivated a much sharper and engaging and notably less insular approach to the terrain it seeks to explore and understand In this emphasis on critical engagement disciplinary evolution and a commitment to shaping rather than re stating the discipline The Oxford Handbook of British Politics is consciously distinctive In showcasing the diversity now found in the analysis of British politics the Handbook is built upon three foundations The first principle that underpins the volume is a broad understanding of the political It covers a much broader range of topics themes and issues than would commonly be found within a book on British politics This emphasis on an inclusive approach also characterises the second principle that

has shaped this collection namely diversity in relation to commissioned authors The final principle focuses on the distinctiveness of the study of British politics Each chapter seeks to reflect on what is distinctive both in terms of the empirical nature of the issue of concern and the theories and methods that have been deployed to unravel the nature and causes of the debate The result is a unique volume that draws upon the intellectual strengths of the study of British politics reflects the innate diversity and inclusiveness of the discipline isolates certain distinctive issues and then reflects on their broader international relevance and finally looks to the future by pointing towards emerging or overlooked areas of research

Strangers, Migrants, Exiles Frauke Reitemeier, 2012 *Inequality, Identity, and the Politics of Northern Ireland* Curtis C. Holland, 2022-07-26 *Inequality Identity and the Politics of Northern Ireland* examines how the politics of threat and resentment undergirded by persistent poverty and class and gender inequalities across Catholic and Protestant communities shape dynamics of political conflict while simultaneously giving way to critical subjectivities at the community level through which more transformative visions of peace may emerge **John Hume and the revision of Irish nationalism** P. J. McLoughlin, 2013-01-18 The book available at last in paperback explores the politics of the most important Irish nationalist leader of his generation and one of the most influential figures of twentieth century Ireland the Nobel Peace Prize winner John Hume Given his central role in the reformulation of Irish nationalist ideology and the vital part which he played in drawing violent republicanism into democratic politics the book shows Hume to be one of the chief architects of the Northern Ireland peace process and a key figure in the making of the 1998 Good Friday Agreement At the same time it considers Hume's failure in what he stated to be his foremost political objective the conciliation of the two communities in Northern Ireland The book is essential reading for specialists on Irish history and politics but will also be of interest to academics and practitioners working in other regions of political and ethnic conflict In addition it will appeal to readers seeking to understand the crucial role played by Hume in modernising Irish nationalist thinking and bringing peace to Northern Ireland

A Farewell to Arms? Michael Cox, Adrian Guelke, Fiona Stephen, 2006-04-18 This comprehensive and original study is the first to explain in detail how the Good Friday Agreement ran into trouble why we are still some way from a final settlement but why a return to war is most unlikely even in an age where global terror now threatens world order more seriously than at any time in the past This new edition of an established authoritative text will be essential reading for students researchers and academics of Irish politics conflict and peace studies and international relations **Lullabies and Battle Cries** Jaime Rollins, 2018-08-17 Set against a volatile political landscape Irish republican culture has struggled to maintain continuity with the past affirm legitimacy in the present and generate a sense of community for the future *Lullabies and Battle Cries* explores the relationship between music emotion memory and identity in republican parading bands with a focus on how this music continues to be utilized in a post conflict climate As author Jaime Rollins shows rebel parade music provides a foundational idiom of national and republican expression acting as a critical medium for shaping new political

identities within continually shifting dynamics of republican culture

Identity, Rights and Constitutional

Transformation Patrick J. Hanafin, Melissa S Williams, 2018-12-21 First published in 1999 this book provides an analysis of the role of constitutional governance from an international and interdisciplinary perspective The range of disciplines represented in the collection of papers aims to open new perspectives on topics that are frequently left to the expert hands of political scientists and lawyers alone It reveals scope for the further study of historical cultural and rhetorical approaches in tandem with traditional approaches The blend of cross national experience and comparisons and the fertilisation of one discipline by another should appeal to a wide interdisciplinary audience

Geopolitics of European Union Enlargement

Warwick Armstrong, James Anderson, 2007-04-24 Offers an integral picture of the EU's internal and external borders to reveal the processes of re bordering and social change currently taking place exploring issues such as security immigration economic development and changing social and political attitudes

Politics of Identity in Post-Conflict States Éamonn

Ó Ciardha, Gabriela Vojvoda, 2015-12-14 Ireland and the Balkans have come to represent divided and re united communities They both provide effective microcosms of national ethnic political military religious ideological and cultural conflicts in their respective regions and as a result they demonstrate real and imaginary divisions This book will specifically focus on the history politics and literature of Bosnia Herzegovina and Northern Ireland while making comparative reference to some of Europe's other disputed and divided regions Using case studies such as Kosovo and Serbia Lithuania Germany Poland Russia and Belarus Greece and Macedonia it examines space place and border discourse the topography of war and violence post war settlement and reconciliation and the location and negotiation of national ethnic religious political and cultural identities The book will be of particular interest to scholars and students of cultural studies history politics Irish studies Slavonic studies area studies and literary studies

Identity, Reconciliation and Transitional Justice Nevin T. Aiken, 2013-04-15

Building upon an interdisciplinary synthesis of recent literature from the fields of transitional justice and conflict transformation this book introduces a groundbreaking theoretical framework that highlights the critical importance of identity in the relationship between transitional justice and reconciliation in deeply divided societies Using this framework Aiken argues that transitional justice interventions will be successful in promoting reconciliation and sustainable peace to the extent that they can help to catalyze those crucial processes of social learning needed to transform the antagonistic relationships and identifications that divide post conflict societies even after the signing of formal peace agreements Combining original field research and an extensive series of expert interviews Aiken applies this social learning model in a comprehensive examination of both the South African Truth and Reconciliation Commission and the uniquely decentralized approach to transitional justice that has emerged in Northern Ireland By offering new insight into the experiences of these countries Aiken provides compelling firsthand evidence to suggest that transitional justice interventions can best contribute to post conflict reconciliation if they not only provide truth and justice for past human rights abuses but also help to promote

contact dialogue and the amelioration of structural and material inequalities between former antagonists Identity Reconciliation and Transitional Justice makes a timely contribution to debates about how to best understand and address past human rights violations in post conflict societies and it offers a valuable resource to students scholars practitioners and policymakers dealing with these difficult issues

Accommodating National Identity Stephen Tierney, 2021-10-18 This collection of essays brings together international lawyers with their perspectives on how the international community has coped with contemporary cases of nationalist crisis and constitutional lawyers from states which are attempting to facilitate the political expression of national identity through developments in federalism devolution and the protection of minority rights The aim is to explore to what extent existing legal mechanisms permit a flexible engagement with and accommodation of the aspirations of national and ethnic groups It would appear that a heightened level of fluidity in the interaction and exchange of normative standards now exists in the relationship between international and domestic law as both types of system confront the challenge which national identity continues to constitute As this process marks a renewed preparedness on the part of legal systems to expand imaginatively to meet current problems it is hoped that this collection will highlight opportunities for an ongoing process of development in this complex and troubled area

Language, Power and Identity Politics Máiréad Nic Craith, 2007-10-23 Dominance identity and resistance are key themes in this examination of language in global virtual and local settings It focuses on world languages linguistic rights and minority protection Case studies explore the social strategies employed by migrants speaking non indigenous tongues and the effect of religion in sensitive political contexts

Evangelicalism and National Identity in Ulster, 1921-1998 Patrick Mitchel, 2003-10-30 Evangelical Protestantism in Ulster is the most influential and historically significant sector of Christianity in Northern Ireland This innovative and controversial book explores different Evangelical responses to the declining fate of Ulster Unionism during the period from Partition in 1921 to the 1998 Good Friday Agreement Focusing on how religious belief has interacted with national identity in a context of political conflict it eschews a reductionist or purely historical approach to interpreting religion Rather using a combination of historical and theological material Patrick Mitchel offers a critical assessment of how Evangelical identities in Ulster have embodied the religious beliefs and values to which they subscribe Evangelical Protestantism is often associated only with the Orange Order and with the controversial figure of Ian Paisley This book's fresh analysis of a spectrum of Evangelical opinion including the frequently overlooked moderate Evangelicals provides a more rounded picture that shows why and how Evangelical Christians in Ulster are deeply divided over politics national identity and the current Peace Process Patrick Mitchel concludes with a critical assessment of the political and theological challenges facing different Evangelical identities in the context of identity conflict in Northern Ireland This is an invaluable guide to understanding both the past and contemporary mindset of Ulster Protestantism

Identity and Institutions Neal G. Jesse, Kristen P. Williams, 2012-02-01 How can conflicts between various nationalist ethnic groups be reduced Combining theory with case studies of Spain and

Ireland Neal G Jesse and Kristen P Williams develop an argument favoring a solution that links resolving issues of identity and perceptions of inequality to the establishment of cross national democratic institutions These institutions can affect deeply held attitudes by promoting overlapping identities and pooling sovereignty Overlapping identities reduce tension by creating an atmosphere where different ethnic groups lose their strict definitions of Self and Other Pooling sovereignty across a number of international and national representative bodies leads to increased access to governmental policymaking for all parties involved with each nationalist ethnic group having a stake in government Increased access moreover reduces threat perceptions and ethnic security dilemmas and increases trust all of which play an important role in overcoming such conflicts

Secessionism and Terrorism Glen Duerr, 2018-07-20 This book examines secessionist terrorism in a comparative context across Europe and Eurasia The volume seeks to uncover comparative linkages between terrorism and secessionism specifically examining terrorist organizations that also have a political goal of independence It examines a wide range of case studies including the IRA in Northern Ireland ETA in the Basque Country FLNC in Corsica and ARD in Brittany KLA in Kosovo PKK and TAK in Turkish Kurdistan and IK in Chechnya In doing so the book shows the linkages in terrorist tactics and demands as well as when and how ceasefires come into place Ultimately none of the terrorist organizations studied here has obtained their maximalist goal of gaining independence but each has caused significant bloodshed and has contributed to the debate on the future of governance in Europe and Eurasia The major strength of this format is to glean wider lessons on ethno nationalism as well as the causes and outcomes of terrorist actions Each case study also updates the literature on the individual cases to provide the most recent account of events in these countries This book will be of much interest to students of terrorism and political violence ethnic conflict nationalism European politics and International Relations in general
