Ideology And The Rise Of Labor Theory In America:

Ideology and the Rise of Labor Theory in America John A. DeBrizzi, 1978

Relations Paul Blyton, Edmund Heery, Nicolas Bacon, Jack Fiorito, 2008-09-12 This handbook is an indispensable teaching research and reference guide for anyone interested in issues of labour and employment The editors have assembled a top flight group of authors and the end product is an encompassing state of the art review of the industrial relations field Professor Bruce E Kaufman AYSPS Georgia State University This Handbook will quickly become the standard reference in industrial relations research It provides the most comprehensive and challenging presentation of the key theoretical debates and topics of research that will shape our field well into the 21st century All who wish to contribute to this field will need to read this volume and then build on what these authors have to say Professor Thomas A Kochan MIT Institute for Work and Employment Research This authoritative panorama of the field demonstrates the contemporary vitality breadth and critical depth of industrial relations scholarship and research Thirty four stimulating essays by an international blend of leading academics expertly review the analytical and empirical state of play across all aspects of industrial relations enquiry In doing so a rich agenda for further scholarly endeavour emerges Paul Marginson University of Warwick Over the last two decades a number of factors have converged to produce a major rethink about the field of Industrial Relations Globalization the decline of trade unions the spread of high performance work systems and the emergence of a more feminized flexible work force have opened new avenues of inquiry The SAGE Handbook of Industrial Relations charts these changes and analyzes them It provides a systematic comprehensive survey of the field The book is organized into four interrelated sections Theorizing Industrial Relations The changing institutions that shape employment practice The processes used by governments employers and unions Income inequality employee wellbeing business performance and national comparative advantages The result is a work of unprecedented scope and unparalleled ambition It offers a complete guide to the central debates new developments and emerging themes in the field It will quickly be recognized as the indispensable reference for Teachers Students and Researchers It is relevant to economists lawyers sociologists business and management researchers and Industrial Relations specialists

The Great Industrial War Troy Rondinone, 2009-11-12 The Great Industrial War a comprehensive assessment of how class has been interpreted by the media in American history documents the rise and fall of a frightening concept industrial war Moving beyond the standard account of labor conflict as struggles between workers and management Troy Rondinone asks why Americans viewed big strikes as battles in irrepressible conflict between the armies of capital and labor a terrifying clash between workers strikebreakers police and soldiers Examining how the mainstream press along with the writings of a select group of influential reformers and politicians framed strike news Rondinone argues that the Civil War coming on the cusp of a revolution in industrial productivity offered a gruesome indelible model for national conflict He follows the heated discourse on class war through the nineteenth century until its general dissipation in

the mid twentieth century Incorporating labor history cultural studies linguistic anthropology and sociology The Great Industrial War explores the influence of historical experience on popular perceptions of social order and class conflict and provides a reinterpretation of the origins and meaning of the Taft Hartley Act and the industrial relations regime it supported

Advances in Industrial and Labor Relations David Lewin, Donna Sockell, 2016-06-30 Advances in Industrial and Labor Relations Volume 6 presents papers that tackle concerns in industrial and labor relations The book is comprised of eight chapters each chapter reviews a study that discusses issues in industrial and labor relations The first two chapters discuss the development of models of industrial and labor relations that are not bound by characteristics processes and practices Chapter 3 compares the innovations in work organization compensation and employee participation in decision making Chapter 4 examines the cause and effects of technological change at the workplace level of analysis Chapter 5 discusses the effects of seniority based layoffs on survivors Chapters 6 and 7 cover the lump sum payment system Chapter 8 talks about the publishing performance of industrial relations academics The text will be of interest to readers who are concerned with the development of industrial and labor relations

Partial Visions Richard M. Merelman, 1991 A pathbreaking study of political culture in the United States Britain and Canada Partial Visions demonstrates how popular culture expressed through television soap operas and comedies civics and history textbooks magazine advertisements and corporate publications and recruitment leaflets subtly deflects and suppresses democratic political action Richard Merelman argues that political messages embedded in popular culture weaken the division between public and private and between society and the individual These partial visions of democracy are idealized yet inequitable revelatory yet distorted As a result issues that might galvanize useful group conflict do not emerge and the full potential for public participation in a liberal democracy remains unrealized Britain Canada and the United States share a liberal political culture but differ in their historical evolution and in the structure of their institutions Each country Merelman suggests has developed a distinctive popular culture that shapes public opinion and stifles political debate in nationally specific ways Different rhetorical devices and metaphors operate in each nation he points out in Britain for example the monarchy and party system serve as symbols of political reconciliation between the individual and the collectivity Characterizing the United States as a culture of institutionalized individualism and Canada as a culture of emotionally tepid group conflict Merelman finds Britain's culture of group based political debate the most successful in encouraging democratic participation Drawing on symbolic anthropology poststructuralist literary theory and positivistic analyses of attitudes and media influence Merelman conducts a controlled comparison of media representations political discourse and public opinion using rich complex sets of quantitative and qualitative data He concludes that culture is not reducible to institutional interests but is intelligible as a whole structure furthermore culture can and sometimes does change the contours of political conflict

The Embarrassment of Slavery Michael Salman, 2003-12 This book examines the salience of slavery and abolition in the history of American colonialism and

Philippine nationalism The author explains the link between the globalization of nationalism and the spread of antislavery as a hegemonic ideology in the modern world book jacket **Employment Research and State Traditions** Carola Frege,2007-09-06 Frege explores the evolution of employment research showing how the field of study we know today grew out of industrial and democratic transformations in the 19th century She traces the influence of distinct state traditions and draws out the implications for contemporary and future research **The Long Gilded Age** Leon Fink,2014-12-10 From the end of the nineteenth century through the first decades of the twentieth the United States experienced unprecedented structural change Advances in communication and manufacturing technology brought about a revolution for major industries such as railroads coal and steel The still growing nation established economic political and cultural entanglements with forces overseas Local strikes in manufacturing urban transit and construction placed labor issues front and center in political campaigns legislative corridors church pulpits and newspapers of the era The Long Gilded Age considers the interlocking roles of politics labor and internationalism in the ideologies and institutions that emerged at the turn of the twentieth century Presenting a new twist on central themes of American labor and working class history Leon Fink examines how the American conceptualization of free labor played out in iconic industrial strikes and how freedom in the workplace became overwhelmingly tilted toward individual property rights at the expense of larger community standards He investigates the legal and intellectual centers of progressive thought situating American policy actions within an international context In particular he traces the development of American socialism which appealed to a young generation by virtue of its very un American roots and influences The Long Gilded Age offers both a transnational and comparative look at a formative era in American political development placing this tumultuous period within a worldwide confrontation between the capitalist marketplace and social transformation *Welcome to Middle Age!* Richard A. Shweder,1998-08-03 This pathology of midlife has even recently begun to be exported to all territories in the contemporary world system people around the world are being invited to change the way they think about mature adulthood and to adopt the middle class American version of middle age

The Cumulative Book Index ,1983 A world list of books in the English language Manufacturing the Employee Roy Jacques,1995-12-21 Contemporary thinking about management is still frequently presented as a set of universal eternal verities In this fascinating book Roy Jacques presents a discursive history of industrial work relationships in the United States which powerfully demonstrates that they are not A central concern is to show that current common sense in management forms an historically and culturally specific way of thinking about work and society which is often inappropriate for managing for the twenty first century The author is equally interested in revealing the cultural basis for American management ideas currently exported round the world as an objective science disconnected from its cultural and historical roots Roy Jacques considers the Federalist world of the U S c 1800 1870 and the traces of 19th century pre management notions continuing in 20th century management and industrial discourse the emergence and development of industrial

organization and big business the profound remapping of the boundaries of social life which occurred with the creation of jobs and wages and the evolving construction of the employee as increasingly a disciplinary subject of psychological personnel and general management knowledge He also looks at several major current management and organizational topics such as motivation leadership and power in organizations productivity and efficiency work and the family ideas about Total Quality Management Business Process Re engineering knowledge work and so on
