Conolly, 2004-11-30 Post Colonial Literatures in English together with English Literature and American Literature form one of the three major groupings of literature in English and as such are widely studied around the world Their significance derives from the richness and variety of experience which they reflect In three volumes this Encyclopedia documents the history and development of this body of work and includes original research relating to the literatures of some 50 countries and territories In more than 1 600 entries written by more than 600 internationally recognized scholars it explores the effect of the colonial and post colonial experience on literatures in English worldwide      Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education Miloslav Rechcigl Jr., 2021-11-02 As pointed out in my last two publications no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Whereas in the two mentioned monographs the emphasis has been on scholars and social and natural scientists and men and women in medicine applied sciences and engineering respectively the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters and in education With respect to women although most professional fields were closed to them through much of the nineteenth century the area of arts and letters was opened to them as noted earlier and as this compendium authenticates      Away Amitava Kumar, 2013-01-11 For more than a generation Indian writers in English have won praise in the West The roll call of Indian born writers is startling Rushdie Mukerjee Mehta Ghosh Naipaul Kureishi Narayan Mistry among many others Amitava Kumar himself an Indian writer now away in America is editing a broad anthology of work by Indian writers whose lives and literary identities have been formed by their experiences in some form of exile Spanning writing from the 1920s to the present Away contains work by the writers mentioned above alongside earlier pieces by Gandhi Nehru and Tagore and a wide range of writers over the last half century

*Intermarriage throughout History* Luminița Dumănescu, Marius Eppel, Daniela Mârza, 2014-06-02 Going beyond classical theoretical approaches Intermarriage throughout History provides a rich and unique collection of twenty five essays which shed light on various models of family formation through non homogamic marriage from an historical and multi disciplinary perspective The volume originated from an international conference held at Babes Bolyai University of Cluj Romania in early summer 2013 with a large international participation drawn mostly from Europe Russia North and South America The book also has its roots in the long academic tradition of family and demographic historical and ethnographic studies in Transylvania where scholars have been particularly active in these fields during recent decades at the international level Given the strong pressures towards endogamy people in the past who had a mixed marriage deserve researchers full attention How did they overcome the obstacles put in their path by church family state and community Can scholars disclose

the reasons for their remarkable choice of partner And what were the implications of their mixed marriage for their daily lives and those of their children Mixed marriages offer a window on the tensions between societal norms and social control on the one hand and individual variation and individual choice or agency on the other

**America through Foreign Eyes** Jorge G. Castañeda, 2020-05-30 Do Americans care what foreigners think about the United States This book makes the case that they should In these pages Jorge Castañeda writes from his unique vantage point as a former Foreign Minister of Mexico who has lived studied and worked in America He offers an impressionistic analytical and intuitive review of his experience in the country over the last half century and shows how foreigners can provide perspective on the United States true nature Castañeda brings a different viewpoint to issues ranging from purported American exceptionalism uniformity race and religion culture immigration and the death penalty Visitors and analysts from Dickens to Naipaul have generally asked the right questions and described America's most salient features and mysteries But they have not always followed through with answers and explanations Castañeda draws from his work with American civil society and government authorities to provide both insight and context Americans have long seen their country as exceptional standing outside of history but by comparing its contemporary politics and culture with those of other countries Castañeda shows how increasing nationalism and nostalgia are actually making the US more like other countries Castañeda admits that most Americans have never cared much about what a foreigner thinks about their country but the dynamic is shifting The outside world means more to the US than ever before and Americans should care about what foreigners think since they are now so sensitive to what foreigners do Since Trump's election in 2016 American politics increasingly resemble those of Europe Latin America and parts of Asia such that pining for a lost and glorious past is as American as it is British Mexican Chinese or Italian Now the questions that serious knowledgeable and sympathetic foreigners address to Americans may be the ones Americans ask or should ask for themselves

**Cities of Others** Xiaojing Zhou, 2014-12-01 Asian American literature abounds with complex depictions of American cities as spaces that reinforce racial segregation and prevent interactions across boundaries of race culture class and gender However in *Cities of Others* Xiaojing Zhou uncovers a much different narrative providing the most comprehensive examination to date of how Asian American writers both celebrated and overlooked depict urban settings Zhou goes beyond examining popular portrayals of Chinatowns by paying equal attention to life in other parts of the city Her innovative and wide ranging approach sheds new light on the works of Chinese Filipino Indian Japanese Korean and Vietnamese American writers who bear witness to a variety of urban experiences and reimagine the American city as other than a segregated nation space Drawing on critical theories on space from urban geography ecocriticism and postcolonial studies Zhou shows how spatial organization shapes identity in the works of Sui Sin Far Bienvenido Santos Meena Alexander Frank Chin Chang-rae Lee Karen Tei Yamashita and others She also shows how the everyday practices of Asian American communities challenge racial segregation reshape urban spaces and redefine the identity of the American city From a

reimagining of the nineteenth century flaneur figure in an Asian American context to providing a framework that allows readers to see ethnic enclaves and American cities as mutually constitutive and transformative Zhou gives us a provocative new way to understand some of the most important works of Asian American literature
