still the same even while modern peoples spin the same old practices as if it has been koshered It will be disheartening that many people will have to go to their graves believing what they believe a lie The biggest lies of them all a Heaven and a Hell Religious texts must be radically and truthfully interpreted as the Ages open up its hidden knowledge to Mankind Misinterpretation is one reason the pages seem lost on theistic ears already dejected listening to the words coming out of the mouth of a preacher who is struggling to make a story line out of the texts written thousands of years ago Millions of people have believed in teachings that were intended for disinformation They believed because in the eyes of the innocent the teachings appear to be convincing and true If you don't believe their teachings they convince you that there is a thing called faith When that fails they describe your culture and practices as paganism and Satanism They make you feel less of a human and even threaten your well being and life They are succeeding especially with the promise of Heaven or Hell in an afterlife as your only two choices Any attempt and indeed all the attempts to convince you and me one way or the other about a proof of a Heaven is disingenuous and will remain disingenuous There is no way as a material being that you could interpret the immaterial It is near impossible It is even crazy to try and think of it Whether they say it is by Near Death Experience NDE don't cut it It does not work that way Near death experiences is not death A near miss after shooting a game is not same as a kill Near death experiences are not the real transformation to another dimension If a bird dodged my catapult shot the bird was not near death The bird might not even know that it has been shot at Death is death not near death Near death experiences are like experiences between dreams and lives you don't know what dimension you were in in both experiences until you wake up *Alliteration in Spenser's Poetry* Virginia Eveline Spencer, 1898 [Lexical Concordance to the Poetical Works of Percy Bysshe Shelley](#) Frederick Startridge Ellis, 1892 **Depicting the Afterlife in Contemporary Film and Media** Angelique Nairn, 2025-08-19 What lies beyond death This book brings together a diverse collection of scholarly voices to explore how popular culture imagines and reimagines the afterlife Drawing from film television video games literature advertising and digital technologies this book examines how narratives about Heaven and Hell ghosts and gods memory and immortality shape contemporary understandings of morality death and what may come after From Pixar's *Coco* to *The Good Place* *Ghostbusters* *Upload* and *Westworld* these chapters interrogate the enduring power of afterlife narratives to provide existential comfort moral guidance and cultural critique Whether through the lens of theology philosophy or secular imagination contributors consider how popular media blurs the sacred and the profane challenging dogma reframing ethics and offering new possibilities for how we remember the dead and live among the living Spanning topics such as queer love in the afterlife Indigenous cosmologies digital resurrection and the theological implications of robots *Depicting the Afterlife in Contemporary Film and Media* Morality Religion and Death is a timely exploration of how the afterlife continues to haunt and inspire modern culture Essential reading for scholars of media studies religious studies cultural theory and anyone fascinated by humanity's oldest and most enduring question what happens when we die *The Atlantic Monthly*, 1923
