Developing Narrative Structure Allyssa McCabe,Carole Peterson,1991 Effective narration the telling of stories or recounting of personal experiences is an art

requiring skills that appear crucial for children's language development and literacy acquisition. This volume serves an important purpose because it pulls together the widely scattered literature in the field exploring the ways in which oral narrative structure develops in children and how it may be facilitated. It presents new empirical studies on genres of narrative, the role narrative structure plays in emergent literacy, the relationship between narrative language and autobiographical memory, and ways in which teachers and parents facilitate or hinder children's narrative development. The empirical research presented here draws from diverse groups including Hispanic, African American, and Anglo American children from rural and urban America and Canada.

Investigating Grammar in Autism Spectrum Disorders Anna Gavarró, Stephanie Durrleman, 2018-08-21

Autism Spectrum Disorder (ASD) hereafter is a neurodevelopmental condition characterized by deficits in communicative and social skills. The vast majority of research on language in ASD has focused on pragmatic difficulties while less is known about structural aspects of language in this population. Work on syntax and phonology is not only sparse but the heterogeneity in these grammatical domains has moreover led to conflicting reports that they are either intact or impaired. More remains to be understood about variations in grammatical profiles in ASD as well as the relation of grammar to other cognitive abilities. The body of research gathered here increases our understanding of the grammatical strengths and weaknesses in ASD. The contributions carefully elucidate the relations between grammar and other areas of cognition as well as unveil the similarities and differences of grammar in ASD compared to other conditions. The result is a volume that provides new ways to think about language and communication in ASD and beyond which should be of interest to both linguists and clinicians.

Therapeutically Applied Role-Playing Games Elizabeth D. Kilmer, Adam D. Davis, Jared N. Kilmer, Adam R. Johns, 2023-04-05

Therapeutically Applied Role Playing Games provides a comprehensive approach to implementing therapeutically applied role playing game (TA RPG) groups for mental health practitioners. When facilitated by a trained professional, TA RPGs are a powerful tool for insight, growth, and change for individuals and communities. The Game to Grow Method of Therapeutically Applied Role Playing Games is a transdiagnostic, trans-theoretical group intervention developed over a decade of practice using Dungeons & Dragons and other popular tabletop role playing game systems as well as leveraging therapeutic factors from acceptance and commitment therapy, marriage and family therapy, drama therapy, and interpersonal process groups. TA RPGs are conceptualized as a gaming system layered on top of established intervention techniques. They can accommodate a multitude of game systems and align with theoretical mechanisms for change found across therapeutic orientations. This work serves as a comprehensive training manual for TA RPGs, providing a valuable resource for mental health professionals interested in incorporating TA RPGs into their practice.

The Texture of Discourse Jan Renkema, 2009-09-30

The aim of this monograph is to give impetus to research into one of the central questions in discourse studies: what makes a sequence of sentences or utterances a discourse? The theoretical framework for describing the possibilities of discourse continuation is delineated by two principles: the discursive and the

dialogic principle The chord of discourse is unfolded in a tripartite wire Conjunction Adjunction and Interjunction each containing three aspects leading to a Connectivity Model This new three by three taxonomy of discourse relations incorporates findings from several theories and approaches that have evolved over the last three decades including Systemic Functional Linguistics and Rhetorical Structure Theory In comparing this model to other models this book presents a state of the art of discourse relation analysis combined with detailed accounts of many examples This monograph furthermore proposes a new way of presenting discourse structures in connectivity graphs followed by eleven commandments for the segmentation and labeling of discourse and three procedures for disambiguation if more labels are applicable This study can provide a base for corpus linguistic analysis on discourse structures computational approaches to discourse generation and cognitive experimental research of discourse competence Handbook of Children's Literacy Terezinha Nunes, Peter Bryant, 2013-03-09 PETER BRYANT TEREZINHA NUNES The time that it takes children to learn to read varies greatly between different orthographies as the chapter by Sprenger Charolles clearly shows and so do the difficulties that they encounter in learning about their own orthography Nevertheless most people who have the chance to learn to read do in the end read well enough even though a large number experience some significant difficulties on the way Most of them eventually become reasonably efficient spellers too even though they go on make spelling mistakes at any rate if they are English speakers for the rest of their lives So the majority of humans plainly does have intellectual resources that are needed for reading and writing but it does not always find these resources easy to marshal What are these resources Do any of them have to be acquired Do different orthographies make quite different demands on the intellect Do people differ significantly from each other in the strength and accessibility of these resources If they do are these differences an important factor in determining children's success in learning to read and write These are the main questions that the different chapters in this section on Basic Processes set out to answer Paul Insel, Don Ross, Kimberley McMahon, Melissa Bernstein, 2010-04-07 5 Stars Doody's Review Service Nutrition Fourth Edition is an accessible introduction to nutritional concepts guidelines and functions It brings scientifically based accurate information to students about topics and issues that concern them a balanced diet weight management and more and encourages them to think about the material they're reading and how it relates to their own lives Covering important biological and physiological phenomena including glucose regulation digestion and absorption and fetal development as well as familiar topics such as nutritional supplements and exercise Nutrition Fourth Edition provides a balanced presentation of behavioral change and the science of nutrition Discourse Analysis Alexandra Georgakopoulou, 2019-07-30 No detailed description available for Discourse Analysis **Advances in Vision Research, Volume IV** Gyan Prakash, Takeshi Iwata, 2024-06-03 This fourth volume in the series Advances in Vision Research describes importance advancements in basics to translational research including new therapeutics for genetic eye diseases Recent US FDA approval of the first gene therapy for an inherited retinal disease due to a mutation in the RPE65 gene has led to an

upsurge in translational eye research The coverage in this volume includes corneal diseases myopia cataract glaucoma inherited retinal diseases inherited optic neuropathy and other genetic eye diseases New developments such as the application of artificial intelligence in translational eye research are also discussed All chapters are written by leading researchers working on eye genetics from the fields of Human Genetics Ophthalmology Molecular Biology Biochemistry Sensory Sciences and Clinical Research Advances in Vision Research Volume IV will be a major resource for all researchers clinicians clinical researchers and allied eye health professionals with an interest in eye diseases around the globe The first two volumes in the series described the state of the art in genetic eye research in Asia and the Pacific while the third focused on progress in Europe and the United States *Executive Skills and Reading Comprehension* Kelly B.
