and artworks the essays in this volume delineate a new portrait of Juana of Austria Contributors not only highlight her multiple facets princess of Portugal regent of Castile and the only female Jesuit in history but also show her as a discerning art patron and collector who pursued an active role of patronage through which she constructed her own art collection and used it to articulate a visual statement of her lineage power and religious convictions Her role as an art promoter culminated with the foundation of the Descalzas Reales and the works of art she collected and displayed within its walls The Making of Juana of Austria offers a new perspective on female rule and patronage exploring the achievements of a crucial figure in the history of art court and gender in early modern Europe
