Social Justice in Islam Deina Abdelkader, 2000-01-01 Western theoretical approaches of modernization development social progress and interaction have failed to understand the dynamics of the Islamic revival Deina Abdelkader in this seminal work argues that questions of social justice are indelibly tied to the phenomenon of contemporary Islamic resurgence as the quest for social justice is in fact motivated by the Shari ah hence an integral part of Islamic life and weltan shauung Using the two tools of maqasid and maslahah and through the examination of the dialectical link between fiqh and reality the author shows their indispensability as important methodological tools for the study of the social sciences and indeed of social phenomena **Mobilizing Islam** Carrie Rosefsky Wickham, 2002-12-06 The book explains how Islamist groups captured the hearts and minds of educated youth in Egypt It focuses on the first twelve years of Hosni Mubarak s presidency from 1981 to 1993 the period when participation in the movement reached its peak and before a wave of repression brought it to an abrupt end Modernizing Islam John L. Esposito, François Burgat, 2003 In recent years Islam has become a more visible force not only in North Africa the Middle East and Asia but also in Western Europe and the United States Greater attention to religious observance prayer fasting dress pilgrimage has accompanied the creation of new institutions mosques finance houses insurance companies schools clinics and hospitals Religiously inspired social and political movements have proliferated Only a few decades ago Muslims were virtually invisible in Europe and America Today increased immigration has changed the religious landscape of the West Mosques and Islamic centers are found in European and American cities and towns Muslims are visible in nearly every area of social and political life A list of major Islamic cities and populations today must include not only Cairo Tunis Damascus and Islamabad but also Paris London New York and Detroit This demographic and cultural shift requires that we speak not only of the relationship between the traditional Islamic world and the West but

also about Islam in the West It has also meant that Islam has been obliged to modernize to grapple with its status as a minority religion in some parts of the world and a majority one in others Modernizing Islam speaks to the significance origins influences and implications of Islam s changes and thus to the various ways in which this religion is becoming a truly global force shaping such realms as law politics education and ethics among many others **Radical Islam Rising** Quintan Wiktorowicz,2005-07-21 This unique book represents one of the first systematic attempts to explain why thousands of Westerners heed international calls to jihad and join radical Islamic groups Drawing on his unprecedented access to a radical Islamic group Quintan Wiktorowicz details the subtle process that can turn seemingly unreligious people into supporters of religious violence The author s extraordinary fieldwork forms the basis of a detailed case study of al Muhajiroun a transnational movement based in London that supports Bin Laden and other Islamic terrorists Through its rich empirical detail the case study explains the larger question of why ordinary people join extremist movements *Dynamism in Islamic Activism* ,2006 Though the media frequently cover tensions surrounding radical Muslim communities within Western countries coverage and understanding of similar tensions within Muslim nations themselves are far more limited This study of the Netherlands Scientific Council for Government Policy analyzes developments in Islamic beliefs political activism society and law in twelve Islamic countries since the 1970s *Dynamism in Islamic Activism* is a penetrating timely study that helps citizens and policy makers look beyond simplistic stereotypical understandings of Islamic societies Egypt Islam And Democracy:Critical Essays Saad Eddin Ibrahim,2002 These essays by one of Egypt s most influential intellectuals provide a fascinating perspective on the political religious economic and social issues of contemporary Egypt Written over a period of fifteen years the essays cover a range of topics including civil society and the prospects for democratization in Egypt and the region the urban sociology of Cairo the development of Egypt s landed bourgeoisie structural adjustment and the processes of economic liberalization and the complexities of ethnic conflicts and minorities in the Arab world A number of essays address different aspects of Islamic activism in Egypt the formation membership and activities of activist groups and their philosophies political and social roles and ideological relations with the West Written at various points in the modern history of Islamic activism democratic reform and economic and social liberalization these essays reflect the processes of change and continuity in the sociopolitical development of present day Egypt while a new postscript written by the author in 2001 brings the story into perspective at the beginning of the twenty first century **Answering the Call** Abdullah A. Al-Arian,2014 When revolutionary hero Gamal Abdel Nasser dismantled and suppressed Egypt s largest social movement organization during the 1950s few could have imagined that the Muslim Brotherhood would not only reemerge but could one day compete for the presidency in the nation s first ever democratic election While there is no shortage of analyses of the Muslim Brotherhood s recent political successes and failures no study has investigated the organization s triumphant return from the dustbin of history *Answering the Call* examines the means by which the Muslim Brotherhood was reconstituted during Anwar

al Sadat's presidency Through analysis of structural ideological and social developments during this period in the history of the Islamic movement a more accurate picture of the so called Islamic resurgence develops one that represents the rebirth of an old idea in a new setting The Muslim Brotherhood's success in rebuilding its organization rested in large part on its ability to attract a new generation of Islamic activists that had come to transform Egypt's colleges and universities into a hub for religious contention against the state Led by groups such as al Gama'ah al Islamiyyah The Islamic Society the student movement exhibited a dynamic and vibrant culture of activism that found inspiration in a multitude of intellectual and organizational sources of which the Muslim Brotherhood was only one By the close of the 1970s however internal divisions over ideology and strategy led to the rise of factionalism within the student movement A majority of student leaders opted to expand the scope of their activist mission by joining the Muslim Brotherhood rejuvenating the struggling organization and launching a new phase in its history Answering the Call is an original study of the history of this dynamic and vibrant period of modern Egyptian history giving readers a fresh understanding of one of Egypt's most pivotal eras **The New Political Islam** Emmanuel Karagiannis, 2018-01-02 Islamist political parties and groups are on the rise throughout the Muslim world constituting a new political Islam that is global in scope and yet local in action Emmanuel Karagiannis explains how various Islamists have endorsed human rights democracy and justice to gain influence and mobilize supporters Shaping the Current Islamic Reformation B.A. Roberson, 2004-08-02 The essays that comprise this study eschew stereotypical representations of a politicized Islam in the Mediterranean Region The contributors consider the reality that lies behind current issues in the area and the role that an embedded Islam has played or may play in the region *Islam and the Liberal State* Stephen H. Jones, 2020-11-26 National identity and liberal democracy are recurrent themes in debates about Muslim minorities in the West Britain is no exception with politicians responding to claims about Muslims lack of integration by mandating the promotion of fundamental British values including democracy and individual liberty This book engages with both these themes addressing the lack of understanding about the character of British Islam and its relationship to the liberal state It charts a gradual but decisive shift in British institutions concerned with Islamic education Islamic law and Muslim representation since Muslims settled in the UK in large numbers in the 1950s Based on empirical research including interviews undertaken over a ten year period with Muslims and analysis of public events organized by Islamic institutions Stephen Jones challenges claims about the isolation of British Islamic organizations and shows that they have decisively shaped themselves around British public and institutional norms He argues that this amounts to the building of a distinctive British Islam Using this narrative the book makes the case for a variety of liberalism that is open to the expression of religious arguments in public and to associations between religious groups and the state It also offers a powerful challenge to claims about the insularity of British Islamic institutions by showing how the national orientation of Islam called for by British policymakers is in fact already happening Religion, Education and Governance in the Middle East Sai Felicia

Krishna-Hensel,2016-04-08 The Middle East is a key geopolitical strategic region in the international system but its distinctive cultural and political divisions present a mosaic of states that do not lend themselves to simplistic interpretations A thoughtful analysis of the Middle East requires an understanding of the synergism between tradition and modernity in the region as it adapts to a globalizing world Religious education and activism continue to remain a significant factor in the modernization process and the development of modern governance in the states of the Middle East This interdisciplinary book explores the historical and contemporary role of religious tradition and education on political elites and governing agencies in several major states as well as generally in the region The relationship between democracy and authority is examined to provide a better understanding of the complexity underlying the emergence of new power configurations As the region continues to respond to the forces of change in the international system it remains an important and intriguing area for analysts

The Muslim Brotherhood and its Quest for Hegemony in Egypt Annette Ranko,2014-12-26 Annette Ranko analyses the Muslim Brotherhood s challenging of the Mubarak regime and the ensuing struggle between the two from 1981 to 2011 She furthermore traces how the group evolved throughout the process of that struggle She studies how the Brotherhood s portrayal of itself as an attractive alternative to the regime provoked the Mubarak regime to level anti Brotherhood propaganda in the state run media in order to contain the group s appeal amongst the public The author shows how the regime s portrayal of the Brotherhood and the Brotherhood s engagement with it have evolved over time and how this ideational interplay has combined with structural institutional aspects in shaping the group s behaviour and ideology

Salafism in Lebanon Robert Rabil,2014-10-24 Salafism comprised of fundamentalist Islamic movements whose adherents consider themselves the only saved sect of Islam has been little studied remains shrouded in misconceptions and has provoked new interest as Salafists have recently staked a claim to power in some Arab states while spearheading battles against infidel Arab regimes during recent rebellions in the Arab world Robert G Rabil examines the emergence and development of Salafism into a prominent religious movement in Lebanon including the ideological and sociopolitical foundation that led to the three different schools of Salafism in Lebanon quietist Salafists Haraki active Salafists and Salafi Jihadists Emphasizing their manhaj methodology toward politics the author surveys Salafists ideological transformation from opponents to supporters of political engagement Their antagonism to Hezbollah which they denounce as the party of Satan has risen exponentially following the party s seizure of Beirut in 2008 and support of the tyrannical Syrian regime Salafism in Lebanon also demonstrates how activists and jihadi Salafists in response to the political weakness of Sunni leadership have threatened regional and international security by endorsing violence and jihad Drawing on field research trips personal interviews and Arabic primary sources the book explores the relationship between the ideologies of the various schools of Salafism and their praxis in relation to Lebanese politics The book should interest students and scholars of Islamic movements international affairs politics and religion and radical groups and terrorism
