The Study of Islamic Origins Mette Bjerregaard Mortensen, Guillaume Dye, Isaac W. Oliver, Tommaso Tesei, 2021-11-08

The study of Islam's origins from a rigorous historical and social science perspective is still wanting. At the same time a renewed attention is being paid to the very plausible pre-canonical redactional and editorial stages of the Qur'an, a book whose core many contemporary scholars agree to be formed by various independent writings in which encrypted passages from the OT Pseudepigrapha, the NT Apocrypha and other ancient writings of Jewish Christian and Manichaean provenance may be found. Likewise the earliest Islamic community is presently regarded by many scholars as a somewhat undetermined monotheistic group that evolved from an original Jewish Christian milieu into a distinct Muslim group perhaps much later than commonly assumed and in a rather unclear way. The following volume gathers select studies that were originally shared at the Early Islamic Studies Seminar. These studies aim at exploring afresh the dawn and early history of Islam with the tools of biblical criticism as well as the approaches set forth in the study of Second Temple Judaism, Christian and Rabbinic origins, thereby contributing to the renewed interdisciplinary study of formative Islam as part and parcel of the complex processes of religious identity formation during Late Antiquity.

Muhammad Robert Spencer, 2024-09-10. Muhammad: What can we really know about him? We know a great deal about Muhammad or so it seems. Islamic tradition contains an astonishing wealth of information about the founding figure of the Islamic faith and most historians take for granted that this material is generally reliable. In his latest book, historian and Islamic scholar Robert Spencer shows that there is no agreement in the earliest Islamic sources about the most fundamental details of this towering figure's life. There are conflicting accounts of key details of his life including the circumstances and contents of the first revelation he claimed to have received from Allah, the year of his birth, the length of his prophetic career, the name of the angel who supposedly appeared to him, and even his own name. Muhammad: A Critical Biography takes a detailed look at the Islamic traditions regarding Muhammad and lays bare their contradictions, inconsistencies, and incoherence. Spencer continues the groundbreaking research he began in *The Truth About Muhammad* and *Did Muhammad Exist*, exposing the shocking reality of how shaky Islam's foundations really are. He meticulously explains why competing traditions may have been invented and definitively demonstrates that contrary to the complacency of establishment historians, the Muhammad of Islam is more legend than history, more fable than fact. Muhammad: A Critical Biography does the work that mainstream academics who are either bought by Saudi Arabia or Qatar or too afraid to depart from the herd should have done long ago. Not for the faint-hearted, this book will do nothing less than rock the Islamic world to its very core.

Michigan Ensign, 1995. *The Covenants of the Prophet Muhammad* Ibrahim Mohamed Zein, Ahmed El-Wakil, 2022-12-30. Through analysis of the Covenants of the Prophet Muhammad which pledge protection to diverse faith communities, this book makes a profoundly important contribution to research on early Islam by

determining the Covenants historicity and textual accuracy The authors focus on the Prophet Muhammad's relationship with other faith communities by conducting detailed textual and linguistic analysis of documents which have received little scholarly consideration before This not only includes decrees of the Prophet Muhammad Umar ibn al-Khattab Al-Abi al-Lib and Mu'awiya ibn Abi Sufyan but also of important Muslim rulers They present their findings in relation to contemporaneous historical writings historic testimonies official recognition archaeological evidence historic scribal conventions date matching calculations textual parallelisms and references in Muslim and non-Muslim sources They also provide new and revised translations of various Covenants issued by the Prophet Muhammad which were attested by Muslim authorities after him The authors argue that the claim of forgery is no longer tenable following the application of rigorous textual and historical analysis This book is essential reading for Muslims Christians Jews Samaritans and Zoroastrians as well as anyone interested in interfaith relations Islamophobia extremist ideologies security studies and the relationship between Orthodox and Oriental Christianity with Islam

Two Billion Caliphs Haroon Moghul, 2022-04-12 Explains the attraction of Muslims to their faith and discusses the challenges contemporary Islam confronts and how we might imagine an Islamic theology and identity ready to face tomorrow Islam is often associated with and limited to the worst of the world extremism obscurantism misogyny bigotry So why would so many people associate with such a fundamentalist faith Two Billion Caliphs advocates for a way of being Muslim in the world ready for today and prepared for tomorrow Unlike stale summaries which restrict themselves to facts and figures Haroon Moghul presents a deeply Muslim perspective on the world providing Islamic answers to universal questions Who are we What are we doing here What happens to us when we die And from description Moghul moves to prescription aspiring to something outrageous and audacious Two Billion Caliphs describes what Islam has been and what it is who its heroes are what its big ideas are but not only to tell you about the past or the present but to speak to the future Two Billion Caliphs finds that Islam was a religion of intimacy a faith rooted in and reaching for love and that it could be and should be again Fulfilling that destiny depends on the efforts of Muslims to reclaim their faith rebuild their strength and reimagine their future on their own terms Two Billion Caliphs offers Muslim thoughts for the age ahead to create an interpretation Islam of and for days to come the kind of religion the world's Muslims deserve with echoes of the confident faith Muslims once had The destiny of Islam then is not as so many prefer to argue a reformation It is a counter reformation A restoration of what

once was Islamic Politics, Politics of love and fraternity ,2007 Dome of the Rock and its Umayyad Mosaic Inscriptions
Milwright Marcus Milwright,2019-04-01 Located on the Temple Mount in Jerusalem the Dome of the Rock was constructed at the end of the seventh century by order of caliph Abd al Malik This seminal structure has been much studied but no definitive interpretation yet exists of the meanings conveyed by the Dome at the time of its completion The recovery of meaning is complicated by the paucity of primary written sources relating to the construction phases of the building and the motivations of its patron This book concentrates on the most important surviving primary text the long mosaic inscription running around the interior Comprising a dedication and date 72 691 92 and material of a religious nature the mosaic inscription provides vital evidence for the reconstruction of the meanings and functions of the Dome of the Rock The detailed study of the mosaics helps to place them in the context of Late Antique monumental writing particularly in Greek The book makes use of contemporary Islamic coins graffiti and other inscribed objects in order to examine the Dome of the Rock in the relation to the ideological concerns of the Umayyad elite during and after the second Civil War **Routledge Handbook of Islam in the West** Roberto Tottoli,2014-09-19 Islam has long been a part of the West in terms of religion culture politics and society Discussing this interaction from al Andalus to the present this Handbook explores the influence Islam has had and continues to exert particularly its impact on host societies culture and politics Highlighting specific themes and topics in history and culture chapters cover European paradigms Muslims in the Americas Cultural interactions Islamic cultural contributions to the Western world Western contributions to Islam Providing a sound historical background from which a nuanced overview of Islam and Western society can be built the Routledge Handbook of Islam in the West brings to the fore specific themes and topics that have generated both reciprocal influence and conflict Presenting readers with a range of perspectives from scholars based in Europe the US and the Middle East this Handbook challenges perceptions on both western and Muslim sides and will be an invaluable resource for policymakers and academics with an interest in the History of Islam Religion and the contemporary relationship between Islam and the West *Moving In and Out of Islam* Karin van Nieuwkerk,2018-12-05 Embracing a new religion or leaving one s faith usually constitutes a significant milestone in a person s life While a number of scholars have examined the reasons why people convert to Islam few have investigated why people leave the faith and what the consequences are for doing so Taking a holistic approach to conversion and deconversion *Moving In and Out of Islam* explores the experiences of people who have come into the faith along with those who have chosen to leave it including some individuals who have both moved into and out of Islam over the course of their lives Sixteen empirical case studies trace the processes of moving in or out of Islam in Western and Central Europe the United States Canada and the Middle East Going beyond fixed notions of conversion or apostasy the contributors focus on the ambiguity doubts and nonlinear trajectories of both moving in and out of Islam They show how people shifting in either direction have to learn or unlearn habits and change their styles of clothing dietary restrictions and ways of interacting with their communities They also look

at how communities react to both converts to the religion and converts out of it including controversies over the death penalty for apostates The contributors cover the political aspects of conversion as well including debates on radicalization in the era of the war on terror and the role of moderate Islam in conversions

Political Islam in the Gulf Region Khalid Al-Jaber, Kristian Coates Ulrichsen, 2021-12-31 This book explores the phenomenon of political Islam in the Gulf region Existing scholarship on this topic is mostly dedicated to the varied religious groups position on violence and democracy This book expands on the topic and investigates the complexities of the relationship of individuals to religion the state and societies and the organization of their lives and spiritual affairs in the Middle East with particular emphasis on the unique environment of the Gulf Given the importance of the political Islamic context to the politics regional interventions economics and society of the Gulf states this book will be an essential tool in giving policy makers practitioners and the larger public a detailed view of a complicated but essential topic

Islam in Urban America Garbi Schmidt, 2004 In recent years world events have trained a harsh spotlight on the Muslim religion and its adherents The misunderstanding and bias against Muslims in the United States not only persists but has deepened In this detailed study of an immigrant community in Chicago Garbi Schmidt considers the formation and meaning of an American Islam This vivid portrait of the people and the institutions that draw them together contributes to the academic literature on ethnic and religious identity at the same time as it depicts an immigrant community's struggle against bias and forces that threaten its cohesion Chicago has long been home to Muslim immigrants from numerous countries in the Middle East and South Asia For some members of these groups religion carries more weight than ethnic identity in the American context and enables them to form and participate in a broad spectrum of institutions that support their religious and social interests Schmidt offers her observations of the schools and student associations that serve young Muslims as well as the social religious and political organizations that serve adults By looking at the ways in which children adolescents and adults come together in these institutions she is able to show the dynamic process in which a variegated American Muslim identity takes shape Readers will come away from this book with a better understanding of the ideological and cultural differences among Muslims and a greater appreciation of their struggles in becoming Americans Author note Garbi Schmidt is a senior researcher and coordinator of the ethnic minorities initiative at the Danish National Institute of Social Research Copenhagen

A Culture of Ambiguity Thomas Bauer, 2021-06-08 In the Western imagination Islamic cultures are dominated by dogmatic religious norms that permit no nuance Those fighting such stereotypes have countered with a portrait of Islam's medieval Golden Age marked by rationality tolerance and even proto secularism How can we understand Islamic history culture and thought beyond this dichotomy In this magisterial cultural and intellectual history Thomas Bauer reconsiders classical and modern Islam by tracing differing attitudes toward ambiguity Over a span of many centuries he explores the tension between one strand that aspires to annihilate all uncertainties and establish absolute uncontestable truths and another competing tendency that looks for ways to live with ambiguity and

accept complexity Bauer ranges across cultural and linguistic ambiguities considering premodern Islamic textual and cultural forms from law to Quranic exegesis to literary genres alongside attitudes toward religious minorities and foreigners He emphasizes the relative absence of conflict between religious and secular discourses in classical Islamic culture which stands in striking contrast to both present day fundamentalism and much of European history Bauer shows how Islam's encounter with the modern West and its demand for certainty helped bring about both Islamicist and secular liberal ideologies that in their own ways rejected ambiguity and therefore also their own cultural traditions Awarded the prestigious Leibniz Prize A Culture of Ambiguity not only reframes a vast range of Islamic history but also offers an interdisciplinary model for investigating the tolerance of ambiguity across cultures and eras *Where Pigeons Don't Fly* Yousef Al-Mohaimed, 2014-12-04 *Where Pigeons Don't Fly* follows the story of Fahd a young boy growing up in Saudi Arabia Fahd's childhood is overshadowed by his father's involvement in the attack on the Grand Mosque in Mecca Now an artist and critic the adult Fahd finds that both in work and in love he is at loggerheads with repressive cultural and religious norms When he and his girlfriend are detained by the virtue police Fahd contemplates a life of self imposed exile in a remote corner of Britain rather than remaining somewhere he doesn't feel he belongs [Routledge Handbook on Early Islam](#) Herbert Berg, 2017-08-10 The formative period of Islam remains highly contested From the beginning of modern scholarship on this formative period scholars have questioned traditional Muslim accounts on early Islam The scholarly fixation is mirrored by sectarian groups and movements within Islam most of which trace their origins to this period Moreover contemporary movements from Salafists to modernists continue to point to Islam's origins to justify their positions This Handbook provides a definitive overview of early Islam and how this period was understood and deployed by later Muslims It is split into four main parts the first of which explores the debates and positions on the critical texts and figures of early Islam The second part turns to the communities that identified their origins with the Qur'an and Muhammad In addition to the development of Muslim identities and politics of particular focus is the relationship with groups outside or movements inside of the umma the collective community of Muslims The third part looks beyond what happened from the 7th to the 9th centuries CE and explores what that period the events figures and texts have meant for Muslims in the past and what they mean for Muslims today Not all Muslims or scholars are willing to merely reinterpret early Islam and its sources though some are willing to jettison parts or even all of the edifice that has been constructed over almost a millennium and a half The Handbook therefore concludes with discussions of reimaginings and revisions of early Islam and its sources Almost every major debate in the study of Islam and among Muslims looks to the formative period of Islam The wide range of contributions from many of the leading academic experts on the subject therefore means that this book will be a valuable resource for all students and scholars of Islamic studies as well as for anyone with an interest in early Islam **Islam in Southeast Asia** K. S. Nathan, Mohammad Hashim Kamali, 2005 Examines the role relevance and challenges as well as the political and strategic

dimensions of Islam in contemporary Southeast Asia

The Qur'an in Christian-Muslim Dialogue Corrie

Block, 2013-10-08 Offering an analysis of Christian Muslim dialogue across four centuries this book highlights those voices of ecumenical tone which have more often used the Qur'an for drawing the two faiths together rather than pushing them apart and amplifies the voice of the Qur'an itself Finding that there is tremendous ecumenical ground between Christianity and Islam in the voices of their own scholars this book ranges from a period of declining ecumenism during the first three centuries of Islam to a period of resurging ecumenism during the most recent century until now Among the ecumenical voices in the Christian Muslim dialogue this book points out that the Qur'an itself is possibly the strongest of those voices These findings are cause for and evidence of hope for the Christian Muslim relationship that although agreement may never be reached dialogue has led at times to very real mutual understanding and appreciation of the religious other Providing a tool for those pursuing understanding and mutual appreciation between the Islamic and Christian faiths this book will be of interest to scholars and students of Islam the Qur'an and the history of Christian Muslim relations
