Isocrates Isocrates, 1929 Greek text parallel English translation Vol 3 with an English translation by Larue Van Hook Includes index v 3 p 487 523 Bibliography v 1 p xlvii li **Fifty Years of Rhetoric Society Quarterly** Joshua Gunn, Diane Davis, 2018-05-15 Fifty Years of Rhetoric Society Quarterly Selected Readings 1968 2018 celebrates the semicentennial of Rhetoric Society Quarterly bringing together the most influential essays included in the journal over the past fifty years Assessed by members of the Rhetoric Society of America this collection provides advanced undergraduate and graduate students with a balanced perspective on rhetorical theory and practice from scholars in both communication studies and rhetoric and writing studies The volume covers a range of themes from the history of rhetorical studies writing and speaking pedagogy and feminism to the work of Kenneth Burke the rhetoric of science and rhetorical agency **Political Theory between Philosophy and Rhetoric** Giuseppe Ballacci, 2017-11-28 This book explores the significance of rhetoric from the perspective of its complex relationship with philosophy It demonstrates how this relationship gives expression to a basic tension at the core of politics that between the contingency of its happening and the transcendence toward which it strives The first part of the study proposes a reassessment of the ancient quarrel between philosophy and rhetoric as it was discussed by Plato Aristotle and above all Cicero and Quintilian who ambitiously attempted to bring them together creating an ideal that is at the roots of the humanist tradition It then moves to twentieth century political theory and shows how the questions that emerge from that quarrel still strongly resonate in the works of key thinkers such as H Arendt L Strauss and R Rorty The volume thus offers an original contribution that locates itself at the intersection of politics rhetoric and philosophy *Purpose, Practice, and Pedagogy in Rhetorical Criticism* Jim A. Kuypers, 2014-02-07 This edited volume fills a void in the literature concerning the purpose practice and pedagogy associated with performing rhetorical criticism Literature regarding these issues predominantly purpose exists primarily as scattered journal articles and as sections within chapters of textbooks on rhetorical criticism This book brings together 15 established rhetorical critics each of whom offers well thought out and argued opinion pieces that stress the more personal nature of criticism The purpose of this book is to serve as a disciplinary resource and as a teaching and learning aid Accessibility across areas of expertise and experience is stressed in this book Critics range from junior faculty to emeritus and represent a broad spectrum of views on criticism In this sense the book offers a snapshot of the views of a wide swath of successfully practicing contemporary rhetorical critics The Present State of Scholarship in the History of Rhetoric Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works

addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric The Present State of Scholarship in the History of Rhetoric doesn't simply update but rather recasts study in the history of rhetoric The authors experienced and well known scholars in their respective fields redefine existing strands of rhetorical study within the periods expand the scope of rhetorical engagement and include additional figures and their works The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods As programs incorporating rhetorical studies continue to expand at the university level students and researchers are in need of up to date bibliographical resources No other work matches the scope and approach of The Present State of Scholarship in the History of Rhetoric which carries scholarship on rhetoric into the twenty first century

The Young Against the Old L.L. Welborn, 2018-03-07 The so called First Epistle of Clement has long intrigued historians of early Christianity It responds to a crisis in the Corinthian church by enjoining an ethic of subordination especially to the presbyteroi and episkopoi but the exact nature of that conflict has eluded scholars L L Welborn sets out a clear methodology for reconstructing the historical situation behind the letter then examines the conventions of its deliberative rhetoric its blending of citations from the Old Testament and Paul's letters and its reliance on topoi from Greco Roman civic discourse He then presents a compelling argument for the letter's occasion First Clement assails a revolt among the youth against their elders invoking epithets and characterizations that were as Welborn demonstrates at length common in political discourse supporting the status quo At length Welborn proposes two possible scenarios for the precise nature of the revolt in Corinth a revolt possibly inspired by memories of the apostle Paul and details the replacement of a Pauline ethic with a strict code of subordination

Women in Athenian Law and Life Roger Just, 2008-03-07 This book provides a comprehensive account of the Athenians' conception of women during the classical period of the fifth and fourth centuries BC Though nothing remains that represents the authentic voice of the women themselves there is a wealth of evidence showing how men sought to define women By working through a range of material from the provisions of Athenian law through to the representations of tragedy and comedy the author builds up in the manner of an anthropological ethnography a coherent and integrated picture of the Athenians' notion of woman

Beyond the Gates of Fire Philip de Souza, 2013-05-19 The Battle of Thermopylae in 480 BC is one of the most famous battles in history The heroism of the 300

Spartans who opted to remain behind to face the full might of the Persian host while their Greek allies made good their escape has become the stuff of legend. The story still inspires novelists and film makers today. Frank Miller's fanciful 300 was a huge hit in 2007 and the film rights to Steven Pressfield's more historical novel *Gates of Fire* were bought by George Clooney; the film expected to finally surface in 2011 or 2012. But what is the truth behind the legends and why was this bloody defeat immediately accorded a halo of glory that has endured for nearly two and a half millennia? *Beyond the Gates of Fire* brings together experts on the classical period from Australia, New Zealand and the United States to take a fresh look at various aspects of the battle. A substantial introductory section by the editors outlines the background to the conflict as well as the arms, armor and fighting styles of the opposing sides. The following chapters 9 of them then discuss such questions as whether the defense of the pass really was a suicide mission, the exact topography of the battlefield itself in 480 BC using the latest geological research and core samples, the impact of the battle on the Greek psyche, commemoration of the war dead, the impact of the original battle on the conduct of later battles in the pass right up to the German invasion of 1941. For the classical scholar or the general reader whose interest has been piqued by the popular books and films, this book is sure to shed refreshing new light on the most famous last stand in history.

Transforming Boasting of Self into Boasting in the Lord Marcin Kowalski, 2013-07-12. This book uses rhetorical analysis to illuminate one of the most fascinating and complicated speeches by Saint Paul, 2 Cor 10:13. The main problem of the speech regards Paul's claim to be a true servant of Christ and to have the right to boast about it. Paul proves he is strong enough to be the leader of Corinth and paradoxically demonstrates that weakness should belong to the identity of an apostle. Another issue regards the legitimacy of his boasting. The egocentric boast based on the comparison with his opponents is the one that Paul calls foolish, but he is forced nevertheless to undertake it. The tool that ultimately enables him to transform self-aggrandizing speech into speech that is focused on Christ is his paradoxical boasting of weakness. The careful crafting of his discourse based on Christological principles ultimately speaks for qualifying it as a self-praise speech, *periautologia*, with a pedagogical not defensive purpose.

Three Political Voices from the Age of Justinian Agapetus (diacono.), 2009-01-01. This one-volume translation with commentary and introduction brings together three important works. All three texts cast great if generally neglected light on politics and ideology in early Byzantium. Agapetus wrote c. 527-30 CE from a position sympathetic to Justinian when he had still to consolidate his authority. He sets out what an emperor must do to acquire legitimacy in terms of government's being the imitation of God. Read in context, his work is much more than a list of pious commonplaces. The Dialogue, written anonymously towards the end of the same reign, comprises fragments from Books 4-5 of a philosophically sophisticated lost longer work setting out requirements for the ideal polity based on a similar concept of imperial rule, with extensive comment on matters of current political salience but from an implicitly hostile standpoint. Not only does the text reflect the nature of Neoplatonic political philosophy but it also penetrates with its ideas deep into the inner realities of the time into the political

problems of Constantinople during the first half of the sixth century The third text was written by Paul the Silentiary to mark the rededication of the basilica Hagia Sophia built thirty years earlier under the orders of Emperor Justinian I Together the translations provide an important insight into the early Byzantine period

Halpern,2017-03-13 According to traditional accounts the history of tragedy is itself tragic following a miraculous birth in fifth century Athens and a brilliant resurgence in the early modern period tragic drama then falls into a marked decline While disputing the notion that tragedy has died this wide ranging study argues that it faces an unprecedented challenge in modern times from an unexpected quarter political economy Since Aristotle tragedy has been seen as uniquely exhibiting the importance of action for human happiness Beginning with Adam Smith however political economy has claimed that the source of happiness is primarily production Eclipse of Action examines the tense relations between action and production doing and making in playwrights from Aeschylus Marlowe Shakespeare and Milton to Beckett Arthur Miller and Sarah Kane Richard Halpern places these figures in conversation with works by Aristotle Smith Hegel Marx Hannah Arendt Georges Bataille and others in order to trace the long history of the ways in which economic thought and tragic drama interact
