The Palestinian-Arab Minority in Israel, 1948-2000 As'ad Ghanem, 2012-02-01 2001 CHOICE Outstanding Academic Title As'ad Ghanem provides a comprehensive description of the political development of the Palestinian Arab minority in Israel and also discusses their social cultural and economic experiences Covering two main aspects of politics the different manifestations of politics and the dilemmas created by these politics he presents the predicament of the Palestinian Arab minority in Israel which derives from the ethnic character of the State of Israel and their isolation from other Palestinians and proposes the Israeli Palestinian bi-national state as a suitable resolution not only for this problem but also for the main Palestinian Israeli conflict Country Profile, 1994 Routledge Handbook on Palestine Michael Dumper, Amneh Badran, 2024-12-30 This Handbook provides a broad overview of Palestinian history society politics and culture across different contexts and periods revealing the rich and varied dimensions of Palestine To capture the diversity of Palestinian scholarship and to introduce readers to a mix of approaches and perspectives both internationally established and emerging Palestinian scholars have contributed The Handbook attempts to avoid narrowly framing Palestine around the Israeli Palestinian conflict incorporating postcolonial approaches attentive to a broader range of hitherto overlooked actors While a significant proportion of the Handbook examines the contemporary period it is divided up into four sections that together provide a detailed overview of the main developments in the region A historical section that contextualizes the complex historical formation of contemporary Palestine perhaps best regarded as a country but not yet a state A section exploring the society geography economy and identity of Palestine A section on the political significance of Palestine covering the dynamics

between Jewish nationalism Zionism and Palestinian nationalism A final section on culture touching on architecture literature music cuisine education and contemporary art Providing a deep analysis of the Palestinian perspective the Handbook will prove valuable reading for anyone interested in the history politics and society of Palestine and the Middle East *Nuclear Energy in the Gulf* The Emirates Center for Strategic Studies and Research, 2009-10-05 The future heralds a potential crisis in power supply in view of growing global and domestic demand for fossil fuel energy particularly in supplying power for seawater desalination in the case of the Arabian Gulf region The possibility of fossil fuel depletion on the one hand and the increasing rate of development in the GCC countries on the other has prompted Arab Gulf states to consider the development of peaceful nuclear energy as an alternative source of power generation In order to provide a realistic strategic review of this topic as well as various strategies with which to guarantee its achievement and benefit from the experience of other countries the Emirates Center for Strategic Studies and Research ECSSR convened its 14th Annual Energy Conference under the title Nuclear Energy in the Gulf on November 24-26 2008 in Abu Dhabi hosting a group of distinguished energy experts from various academic professional and technical backgrounds This book comprises a valuable collection of the papers presented at the conference It identifies the motives behind the development of peaceful nuclear energy programs in the Gulf states as well as the local and regional implications of such programs and examines the role of nuclear energy in the context of Gulf energy security and climate change The inherent risks and opportunities of managing nuclear power are explored through a discussion of security infrastructure non proliferation standards and the role of international cooperation in the field of nuclear technology and long term development The book also analyzes factors pertaining to the economic viability of the nuclear energy option and its political and social implications drawing on international experiences of existing civilian nuclear programs in other parts of the world Examples presented in this volume include case studies of Japan and Germany and a comparative outlook assessing the respective programs of Iran Israel Pakistan and India **The Unseen Realm**
