Cancer Nursing Jessica Corner, Christopher D. Bailey, 2009-03-16 The needs of cancer patients and their families are complex Yet still more complex are the powerful social and cultural forces that shape the delivery of cancer care and the way in which it is experienced Cancer Nursing Care in Context addresses this by adopting a unique approach that situates cancer care in the context of society's attitudes to the disease and the broader everyday needs of both patients and their carers By combining evidenced based information a critical view of care and treatment and first hand accounts of having cancer and caring for people with cancer the book provides a new perspective how best to deliver the care that patients truly require This second edition includes new chapters on prevention diagnosis symptoms self help and self management and living with cancer long term It also addresses significant changes in cancer care including expansion of nursing roles the establishment of cancer networks and

cancer collaborative projects Considers NICE guidance on Supportive and Palliative care Incorporates material on prevention and early detection Includes evidence tables based on relevant literature Cancer Nursing Care in Context is an invaluable resource for all those involved in the provision of cancer care and support to patients and their families Issues of Cancer Survivorship Debra Kantor, 2015-08-10 Issues of Cancer Survivorship addresses the issues of experiencing life with cancer from diagnosis to living with and beyond cancer It focuses on the psychological impact of cancer including psychological distress the uncertainty the short term and long term side effects of treatments body image issues spirituality religious issues impact of the disease on finances impact on family relationships and social support In addition the book covers cancer in children and secondary cancers as a result of the treatment they received which is increasingly an issue as patients are living longer Cancer Survivorship Patricia A. Ganz, 2007-07-28 This book provides the necessary information about not only the clinical aspects of caring for cancer survivors but also the psychosocial impacts There are multiple resources available to serve as oncology textbooks but nothing to provide the necessary information on patient care for the non MD members of the cancer patient management team In the post treatment phase the management team must go beyond the realm of conventional follow up helping the patient to intellectually understand and emotionally grasp the path ahead Cancer Survivorship will prove a vital tool to physicians nurses clinical social workers and mental health professionals **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965 70 **Oxford Textbook of Palliative Medicine** Geoffrey W. C. Hanks, 2011-07-21 Emphasising the multi disciplinary nature of palliative care the fourth edition of this text also looks at the individual professional roles that contribute to the best quality palliative care

Contemporary Issues in Lung Cancer Marilyn Haas, 2010-10-25 In the United States lung cancer is the second most commonly diagnosed cancer and the leading cause of cancer death Even more devastating is its five year survival rate of only 15 8% Despite these dismal facts lung cancer receives little national attention and research and funding for lung cancer lags behind other cancers The intent of Contemporary Issues in Lung Cancer A Nursing Perspective Second Edition is to provide oncology nurses and healthcare professionals with in depth information on the issues that surround this disease so that they might impact both education and research and provide better care for their patients **Cancer Treatment Reports**, 1986
