It Ends With Magic:

Magic's Translations Margaret J. Wiener, 2025-04-04 Do you believe in magic This familiar question suggests magic is easily recognized but unreal In *Magic's Translations* Margaret J Wiener argues that such views are shaped by historical power struggles especially in Europe's relations with the wider world Focusing on nineteenth and twentieth century Dutch interactions with Indonesians Wiener reveals how colonial agents framed unfamiliar practices practitioners and objects as magic rendering distinct phenomena fundamentally alike and advancing colonizing projects that deemed magic antithetical to reason and reality While colonial authorities including ethnologists mobilized the concept of magic to differentiate Europeans from Indonesians nature from culture reason from superstition and fact from fetish their efforts produced unexpected outcomes Some Indonesian artifacts and acts not only retained their power but invaded European experiences As anthropologists were among the key translators of magic throughout the world Wiener intersperses accounts of magic's translations in the Indies with reflections on anthropology's ongoing engagement with the concept She demonstrates that magic became an object of expert knowledge political control and popular fascination rather than a self evident category or relic of naïve belief

without becoming a part of it **Arc Of The Mercenary** Christian Stewart,2021-09-10 In a universe where magic exists the natural societal progression of various species has been radically altered Humanity has split into two main factions The Arc Alliance uses a type of energy developed from magic to power all sorts of technological marvels Then there is the Holy Empire of the Eternal Light which relies on the power of their god and the miracles that it allows them to perform The two factions are currently at war with each other and have been so for three hundred years However both sides have agreed to specific rules so fighting is contained in a contained area known as the War Belt It is on an Alliance controlled planet within the War Belt where the main character lives Mordred is a young woman in her early twenties who works as a mercenary As she was abandoned as a child and forced to live on the streets along with the planet she is on Outlier is a very impoverished planet There was little other work she could do She also has another reason for being a mercenary finding her father who disappeared seventeen years ago After a complicated mission Mordred finds herself entangled in the schemes of forces much larger and more powerful than she could possibly imagine She encounters many allies along the way but the lines between friend and foe start to blend as things are not exactly what they seem Mordred is faced with many challenges and will be forced to confront herself along with the reality she resides within As the drums of war grow louder and tensions start to rise Mordred will be forced to decide that will affect everything she knows **Grimoire** T A Newman,2015-01-06 My name is Jon Wayward and I was one of the most unremarkable guys you probably never met But then I was hired to find a mysterious pack of tarot cards and that changed my life forever Now I have inherited my grandfathers occult collectors shop his friends customers and ancestors Book of Shadows called the Wayward Grimoire making me the newest member of the worlds secret magical community hidden in plain sight People now tell me I am remarkable even famous as the heir to the Wayward Grimoire But the only thing I seem to be remarkable at is running from reptilian hit men running to a man that looks like mole and holding onto a rare and extremely important pack of tarot cards that have the power to control whom ever you want them to whenever you want them to They say you have to play the cards youre dealt I say its not the cards you have its how you play them But what do I know **The Magic Wand and Magical Review** ,1921 [Mage's Odyssey 4](#) Ethan Starborne,2024-07-11 **The Shattered City** Lisa Maxwell,2022-12-06 Leigh Bardugo s Six of Crows meets Alexandra Bracken s Passenger in this spellbinding conclusion to the vivid and compelling BCCB New York Times bestselling Last Magician series Unite the Stones Free the City Remake the World Once Esta believed that she could change the fate of magic She traveled to the past and stopped the Magician from destroying a mystical book that held the key to freeing her people from the Brink an energy barrier that traps all Mageus who cross it But the Book was more than she bargained for So was the Magician she was tasked to steal it from Hunted by an ancient evil Esta and Harte have raced through time and across a continent to track down the powerful artifacts they need to bind the Book s devastating power They ve lost family betrayed friends and done what they d both vowed never to do fallen in love with the one person who could truly destroy them Now

with only one artifact left their search has brought them back to New York the city where it all began But nothing in Manhattan is as they left it Their friends have scattered their enemies have grown more powerful and as the deadly Brink beckons their time is running out If they can't find a way to end the threat they've created then the very heart of magic will die and it will take the world down with it The Magic Wand, 1911 *Sociology of Religion* Roberto Cipriani, 2017-09-08 Sociology of Religion represents a documented introduction to the history of sociological thought as applied to religious phenomena It examines both the substantive and functional definitions of religion that are more open pluralistic and not inscribed in a single explanatory horizon or within a single confessional perspective The contributors' concerns are carefully written to show all sides of the argument Roberto Cipriani argues for the simple definition that the sociology of religion is an application of sociological theories and methods to religious phenomena Historically close ties between sociology and the sociology of religion exist The slow and uneven development of theory and methods affects the sociology of religion's development but the latter has also benefited from increasing precision and scientific validity Other sociological writers agree and disagree about different approaches Some assume it is a militantly confessional or anti-confessional others remain neutral within their work *The Athenaeum*, 1911 **Debt of Bones** Terry Goodkind, 2018-01-30 A milestone of storytelling set in the world of the Sword of Truth Debt of Bones is the tale of young Abby's struggle to win the aid of the wizard Zedd Zorander the most important man alive The basis for the TV show Legend of the Seeker Abby is trapped not only between both sides of the war but in a mortal conflict between two powerful men For Zedd who commands power most men can only imagine granting Abby's request would mean forsaking his sacred duty With the storm of the final battle about to break both Abby and Zedd are caught in a desperate fight to save the life of a child but neither can escape the shadow of an ancient betrayal With time running out their only choice may be a debt of bones The world for Zedd for Abby for everyone will never again be the same Discover why millions of readers the world over have elevated Terry Goodkind to the ranks of legend At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Sociogony Mark P. Worrell, 2018-11-26 The Sociogony re-examines the social ontology of what Durkheim calls social facts in the light of critical and progressive hostilities to the facticity of facts and the necessity of moral absolutes in the shift from bourgeois liberalism to a neoliberal global order The introduction offers a wide-ranging rumination on the concept of the absolute after its apparent downfall the chapter on facts turns the problem of external authority on its head and the chapter dealing with the sociogony situates facts in a process of generation rule and decay Drawing heavily on the works of

Hegel Marx Weber and Durkheim the resulting synthesis is what the author refers to as a Marxheimian Social Theory that offers a new map and a stable ontology for the homeless mind

Social Anthropology Clifford Wilcox, 2011-12-31

Robert Redfield is remembered today primarily as an anthropologist but during his lifetime Redfield's cross disciplinary activity reflected a strong interest in infusing anthropological practice with sociological theory Like a handful of other anthropologists including A R Radcliffe Brown and Bronislaw Malinowski who shared his interests during the 1920s through 1930s his works came to define a new subfield known as social anthropology Redfield was distinct in being one of the first Americans to devote himself seriously to social anthropology a field dominated initially by British scholars He spent his career at the University of Chicago and his anthropology bore the distinct mark of sociology as developed and practiced at that institution Indeed Redfield played a major role in defining what has been called the second Chicago school of sociology This volume brings together Redfield's most important contributions to social anthropology During the 1920s sociology and anthropology constituted a single department at the University of Chicago Although most students concentrated on sociology or anthropology Redfield chose to pursue both fields with equal intensity He adopted as his central interest the leading problematic of the 1920s the study of social change Chicago School sociologists approached social change by examining zones of rapid transition within the city for example areas populated by recently arrived immigrants with the goal of elucidating general principles or dynamics of social transition Redfield's work can be seen as falling into three distinct theoretical categories 1 the study of social change or modernization 2 peasant studies and 3 the comparative study of civilizations Drawing from articles book excerpts and unpublished papers and letters this work presents Redfield's central contributions in each of these areas Seen as a whole this volume traces Redfield's seminal contributions to the early development of modernization theory and the interdisciplinary fields of peasant and comparative civilizations studies This is a monumental book on a highly influential figure
