positivistic philosophical premises and reemploy these sciences within a systematic epistemological framework based on divine revelation conferring honor upon all forms of knowledge as having been bestowed upon man by their Creator

S. Al-Shaikh-Ali, Yusuf Talal DeLorenzo, 2003 Usul Al Fiqh is a science which is deeply embedded in the Islamic experience and one which thanks to its methods and concerns helped generate an empirical trend in Muslim culture in turn benefiting western thinking Itself a creation of influences from within and without Al Usul often called The Philosophy of Islam invites both reason and revelation to work for the harmony and well being of human society Although the science of Al Usul is mainly concerned with legal matters its range and the arsenal of tools it uses makes it attractive to students of Islamic Jurisprudence as well as to other scholars of Islamic Knowledge and culture The difficulties it poses are inevitable This book however attempts to simplify this Most important method of research ever devised by Islamic thought during its most creative period and bring it to the understanding and appreciation of the modern learner while underscoring its importance and relevance to the world of Islam today **Training Guide for Islamic**

**Applying Ibn Khaldūn** Syed Farid Alatas, 2014-06-05 The writings of Ibn Khaldūn particularly the Muqaddimah Prolegomenon have rightly been regarded as being sociological in nature For this reason Ibn Khaldūn has been widely regarded as the founder of sociology or at least a precursor of modern sociology While he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East The continuing presence of Eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non Western sources of theories and concepts This book provides an overview of Ibn Khaldūn and his sociology discusses reasons for his marginality and suggests ways to bring Ibn Khaldūn into the mainstream through the systematic application of his theory It moves beyond works that simply state that Ibn Khaldūn was a founder of sociology or provide descriptive accounts of his works Instead it systematically applies Khaldūn's theoretical perspective to specific historical aspects of Muslim societies in North Africa and the Middle East successfully integrating concepts and frameworks from Khaldūnian sociology into modern social science theories Applying Ibn Khaldūn will be of interest to students and scholars of sociology and social theory

**Revisiting Islamic Economics** Nabil El Maghrebi, Abbas Mirakhor, Tarık Akın, Zamir Iqbal, 2023-12-20 This book discusses the need for a paradigm shift from Islamic economics universe of discourse to Iqtisād a socio economic system that is entirely independent from other economic doctrines and systems of thought It

provides an overview of critiques of the science and dogma of mainstream orthodox neoclassical or simply Economics with its axioms of rationality scarcity and unlimited wants There is also a critical analysis of Islamic economics and its failures to set its own policy agenda and development objectives Our contention in this book is that Iqtis d the Qur an s vision of how the economy is to be arranged provides such a paradigm with a radically different philosophical foundation from that of Economics to the point that makes grafting one onto the other Impossible Iqtis d offers a genuine and authentic Islamic paradigm with unique etymological and philosophical foundations It is a unique system that derives its organizing principles from the principal source of the Quran rather than Economics The logical coherence of its immutable system of rules compliance institutional structures and risk sharing relations provides the foundations for economic dynamism financial stability and shared prosperity It ensures that resources are efficiently managed poverty is eradicated income and wealth mal distributions are corrected and the internal sources of economic injustices gripping human societies are eliminated The Impossibility Theorem proposed in this book implies that metaphysically ontologically epistemologically axiologically and teleologically the two polar cases of Iqtis d and Economics are so radically different to rule out any grafting of one onto the other in order to present an intermediate paradigm with a synthetic discipline called Islamic economics Given its multidisciplinary contents this book will be of interest to a wide audience including economists policymakers philosophers theologians and jurists and can guide also free thinking readers to a clarity of understanding about the conditions of humanity and the imperative of change with a sincerity of purpose and coherence in knowledge
