Islands In Transition The Past Present Future Of Hawaii's Economy:

Islands in Transition Thomas Kemper Hitch, 1992-01-01 Why has Hawaii from the times of Polynesian antiquity to the present enjoyed the highest material standard of living in Oceania How did changes in the social structure of pre Cook Hawaii affect that standard What happened to the islands economy as western dominance took place as land ownership was created as technology was imported as plantation workers immigrated as World War II broke the social mold of the islands These are some of the basic questions raised by Thomas Hitch in *Islands in Transition* the first book length economic history of Hawaii to be printed in a generation The book is divided into two sections The first *From the Record* traces the development of Hawaii's economy from the moneyless sharing tribute and barter system of the native culture to a plantation economy controlled from Honolulu and dominated by the Big Five In the second section *As I Saw it* Dr Hitch describes the further development of Hawaii into a high tech service economy heavily based on tourism and military expenditures increasingly involved in the multi national global economy He appraises the recent past and projects the future from the vantage point of his long career at Honolulu business community first as director of research for the Hawaii Employers Council and then as Senior Vice President for Research at First Hawaiian Bank until his death in August 1989 This volume is written for the general reader but appendices address questions of particular interest to economists and business analysts These include measuring the cost of living in Hawaii estimating the growth rate of the state economy and appraising its sensitivity to the national business cycle

Racial Harmony Is Achievable Michael Haas, 2016-07-15 Racial and social relations can become harmonious and serene in every country of the world Racism can be eliminated The Kingdom of Hawaii during the nineteenth century reveals a history of responsive politicians economic progress environmental preservation and serene race relations because of a cultural lifestyle that can be emulated But not everything was rosy Severe challenges emerged after the discovery of the Islands in 1778 The leaders and the people responded to various intrusions in an exemplary manner while the same problems have provoked endless conflict and social disintegration that plague the world today Using analytical methods this book recounts how the people of the Islands overcame civil wars decimating diseases ecosystem despoliation religious conflicts the uprooting of feudalism worker exploitation imperialist threats coups and a massive influx of new residents who quickly became acculturated But the Kingdom of Hawaii ended because of a flagrant violation of international law that calls out to be reversed The world needs to know how a society of Caucasians Chinese Japanese Mexicans Native Hawaiians and others worked together to solve problems that seem intractable elsewhere Until the secret is revealed the world seems doomed to constant turbulence Presenting a plan for social transformation this book will be of key interest in the fields of political science public affairs sociology and Hawaiian studies

Empire in Waves Scott Laderman, 2014-03-03 Surfing today evokes many things thundering waves warm beaches bikinis and lifeguards and carefree pleasure But is the story of surfing really as simple as popular culture suggests In this first international political

history of the sport Scott Laderman shows that while wave riding is indeed capable of stimulating tremendous pleasure its globalization went hand in hand with the blood and repression of the long twentieth century Emerging as an imperial instrument in post annexation Hawaii spawning a form of tourism that conquered the littoral Third World tracing the struggle against South African apartheid and employed as a diplomatic weapon in America s Cold War arsenal the saga of modern surfing is only partially captured by Gidget the Beach Boys and the film Blue Crush From nineteenth century American empire building in the Pacific to the low wage labor of the surf industry today Laderman argues that surfing in fact closely mirrored American foreign relations Yet despite its less than golden past the sport continues to captivate people worldwide Whether in El Salvador or Indonesia or points between the modern history of this cherished pastime is hardly an uncomplicated story of beachside bliss Sometimes messy occasionally contentious but never dull surfing offers us a whole new way of viewing our globalized world

Pathways to the Present Mansel G. Blackford, 2018-03-31 Ranging from the Hawaiian Archipelago to the Aleutian Islands from Silicon Valley to Guam *Pathways to the Present* is a thoroughly researched and concisely argued account of economic and environmental change in the postwar American Pacific Following a brief survey of the history of the Pacific the author takes the Hawaiian Islands as the center of American activities in the region and looks at interactions among native Hawaiian developmental military and environmental issues in the archipelago after World War II He then turns to land and water use problems that have intersected with more nebulous quality of life concerns to generate policy controversies in the Seattle region and the San Francisco Bay area especially Silicon Valley Economic expansion and environmentalism in Alaska are examined through the lens of changes occurring along the Aleutians From there the study considers Hiroshima after its destruction by the atomic bomb in 1945 looking at residents desire to combine urban planning concepts The author investigates the effort to remake Hiroshima as a high tech city in the 1990s an attempt inspired by the perceived success of Silicon Valley and postwar planning on Okinawa where American influences were particularly strong The final chapter takes into account issues raised on Guam regarding the growth of tourism and the use of the island for military purposes and links these to developments in the Philippines to the west and American S moa to the south

Business 〇〇〇〇〇〇〇〇〇〇, 2003 *Contemporary Immigration in America* Kathleen R. Arnold, 2015-02-03 State and local immigration issues and policies for all 50 states are thoroughly examined in this unique up to date and accessibly written encyclopedia Immigration continues to be a timely and often controversial subject particularly regarding legislation at the state level While many books cover U S immigration both historical and contemporary few if any reference works examine the role of contemporary immigration in individual states This two volume encyclopedia fills that gap Chapters address legal social political and cultural issues of immigrant groups on a state by state basis and explore immigration trends and issues faced by individual ethnic populations The encyclopedia will enable students to research the impact contributions and issues of immigration for each state to make comparisons between states and regions of the United States and to

understand state versus national policies By combining the history of immigration policy with current information the work shows readers that many of the issues making news today are the same as those the nation dealt with in past decades Studying state and local dynamics provide a unique perspective on this history *Intercultural Alliances* Mary Jane Collier, 2003 The 25th volume of the International and Intercultural Communication Annual offers a variety of perspectives on culture identity and the formation of personal and political alliances

The Foodways of Hawai'i Hi'ilei Julia Hobart, 2019-10-23 Offering diverse perspectives on Hawai'i's food system this book addresses themes of place and identity across time From early Western contact to the present day the way in which people in Hawai'i grow import and consume their food has shifted in response to the pressures of colonialism migration new technologies and globalization Because of Hawai'i's history of agricultural abundance its geographic isolation in the Pacific Ocean and its heavy reliance on imported foods today it offers a rich case study for understanding how food systems develop in place In so doing the contributors implicitly and explicitly complicate the narrative of the local which has until recently dominated much of the existing scholarship on Hawai'i's foodways With topics spanning GMO activism agricultural land use trends customary access and fishing rights poi production and the dairy industry this volume reveals how local food is emplaced through dynamic and complex articulations of history politics and economic change This book was originally published as a special issue of *Food Culture and Society*

Insatiable Appetite Richard P. Tucker, 2000-11 Yankee investors and plantation managers mobilized engineers agronomists and loggers to undertake what they called the Conquest of the Tropics claiming to bring civilization to benighted peoples and cultivation to unproductive nature In competitive cooperation with local landed and political elites they not only cleared natural forests but also displaced multicropped tribal and peasant lands with monocrop export plantations rooted in private property regimes

Food and Power in Hawai'i Aya Hirata Kimura, Krisnawati Suryanata, 2016-09-30 In *Food and Power in Hawai'i* island scholars and writers from backgrounds in academia farming and community organizations discuss new ways of looking at food policy and practices in terms of social justice and sustainability Each of the nine essays describes Hawai'i's foodscapes and collectively makes the case that food is a focal point for public policy making social activism and cultural mobilization With its rich case studies the volume aims to further debate on the agrofood system and extends the discussion of food problems in Hawai'i Given the island geography high dependency on imported food has often been portrayed as the primary challenge in Hawai'i and the traditional response has been localized food production The book argues however that aspects such as differentiated access the history of colonization and the neoliberalized nature of the economy also need to be considered for the right transformation of our food system The essays point out the diversity of food challenges that Hawai'i faces They include controversies over land use policies a gendered and racialized farming population benefits and costs of biotechnology stratified access to nutritious foods as well as ensuring the economic viability of farms Defying the reductive approach that looks only at calories or tonnage of food produced and consumed as indicators of a

sound food system Food and Power in Hawai i shows how food problems are necessarily layered with other sociocultural and economic problems and uses food democracy as the guiding framework By linking the debate on food explicitly to the issues of power and democracy each contributor seeks to reframe a discourse previously focused on increasing the volume of locally grown food or protecting farms into the broader objectives of social justice ecological sustainability and economic viability
