Stumpf, Mary Anne Watson, 1998-05-21 The workplace is the ideal environment for tying together management theory and practice and yet classes in many regular management development programs are conducted away from the work site and class sizes are so large that individual instruction is difficult to achieve In this book the authors seek effective ways to merge theory with workplace practice and advocate the modular preceptor method whereby participants work together in dyads and triads with a preceptor acting as advisor and instructor Unlike traditional management development programs which do not usually lead to behavior changes the modular preceptor model has behavior change as the basic aim Participants can remain at work while experiencing individualized learning developing problem solving skills and acquiring new knowledge which can be immediately applied to work situations Various ways of learning such as passive lecture case study discussion

and experiential role playing games sensitivity training are examined No single mode of learning can be comprehensive and adequate for all situations The authors contend however that experiential learning is most effective for increasing the will and competence to learn and for using what is learned to change manager behavior The purpose of the modular preceptor approach is not to present answers to specific managerial or organizational problems but to help the participant acquire new problem definition and problem solving skills and the confidence to apply them on the job This book also analyzes the contribution of the behavioral sciences to the philosophies and techniques behind management instruction and examines the role of the university in management development and the future direction of MBA programs For anyone concerned with meaningful and effective management development this book is an invaluable resource *Diverse Contemporary Issues Facing Business Management Education* Khan, Mohammad Ayub, 2014-09-30 In today's society it is not only desirable but essential for a business to take on a global edge The best way to ensure a successful future is to educate business students about global policies currently at play *Diverse Contemporary Issues Facing Business Management Education* discusses the issues that are facing both large and small corporations and the students who are seeking employment there Questioning not only what changes globalization has brought to the business world but what ways our education system will have to change to keep up this book is an essential reference source for business owners educators students or anyone interested in the future globalization of the business market Cases in Operations Management Robert D. Klassen, 2006 The Ivey Casebook Series is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario Due to their popularity in more than 60 countries approximately 200 new cases are added to the Ivey School of Business library each year Each of the casebooks comes equipped with instructor's resources on CD ROM These affordable collections will not only help students connect to real world situations but will benefit corporations seeking continued education in the field as well *Cases in Operations Management Building Customer Value Through World Class Operations* is unique in its strong grounding in real world decisions The cases are structured into six chapters each of which offers an overview of key concepts Given that most managers will need to function effectively in an international context the cases draw from challenges faced by experienced managers in such varied settings as China France India Italy Japan the Netherlands Trinidad Vietnam and others in addition to the United States and Canada These cases continue to illustrate basic concepts while expanding students' understanding of economic political and cultural concerns that must be interwoven into such key areas as process design quality and supply chain management The following are represented in this casebook Strong decision orientation of real world cases Clear development of the link between business processes and customer value Diversity of international case settings Mixture of cases simulations and in-class exercises Includes Instructors Resources on CD ROM with detailed 6-10 page casenotes for each case preparation questions for students to review before class discussion questions and suggested further readings The IVEY Casebook Series *Cases in Business Ethics Cases in Entrepreneurship*
