Expert Witness And His Evidence:

The Expert Witness in Construction Robert Horne, John Mullen, 2013-08-26 The role of the expert witness has long been important in the resolution of construction disputes The specialist opinion brought by the expert can aid understanding and interpretation of the facts of the dispute and may be influential in deciding the outcome The variety of dispute resolution procedures and the requirement for the expert witness to be independent places a heavy burden on the parties to identify and instruct an appropriate expert and on the expert to ensure they discharge their duty in the correct manner The Expert Witness in Construction explains in practical terms the way in which experts work with particular reference to the construction industry Within this book the Expert's role is explained in legal and practical terms as a progression from understanding the basic principles by which Experts can be identified through appointment to giving evidence before a tribunal At every stage commentary is given to help and guide professionals new to the arena of expert evidence act as a resource for those already acting as Experts assist party representatives looking for best practice guidance on the instruction of Experts and provide parties to disputes information on what they should expect from the Expert they appoint to explain the issues in the case Covering all the implications of identifying appointing instructing and relying on experts it will help the reader to understand why experts are instructed in the way they are how to identify the expert that is right for a particular case and how evidence should be presented Written by a practicing lawyer and a consultant with extensive experience of acting as an expert witness the requirements of both the lawyer and expert are discussed As such it will help both parties to understand each other resulting in a closer more productive working relationship **Expert Testimony** Steven

Legal and Ethical Aspects of HIV-Related Research Emmanuelle E. Wollmann, 2005-11-24 The motivation and inspiration for this book come directly from experiences with clients during the years that I practiced HIV related law at the Legal Aid Society of San Diego Inc The issues discussed in this work reflect issues that arose on a recurring basis with clients participating in HIV research studies with investigators calling for guidance on the legal implications of particular aspects of their proposed studies and with research institutions and health care facilities struggling to make sense of legal maneuvers aimed at obtaining the records of their HIV infected patients It is impossible to thank each of these persons individually for their provocative questions and their insights The discussion of ethical and legal issues relating to the design of clinical trials reflects questions raised during discussions with Donald J Slymen Ph D Don was one of the first researchers in my realm of experience to pay close attention to ethical concerns and I am greatly appreciative of his contribution to both my professional growth and the development of various scenarios discussed in this text The portions of this text dealing with confidentiality are the result of many hours of thoughtful discussion and analysis with Penn Lerblance J D now deceased and still missed Penn and I often participated together as presenters of in service training programs for health professionals Penn addressed discrimination and I focused on confidentiality
