Rose, Dawn L. Best, 2005-09-07 This important resource investigates topics related to clinical education professional supervision and mentoring Beyond student supervision it discusses supervision of professionals in the work place and the emerging importance of professional mentoring for ongoing professional development Its broad perspective is relevant to a wide range of health professions including audiology dietetics nursing occupational therapy pharmacy physiotherapy podiatry prosthetics and orthotics radiography and speech language pathology Complex theoretical material is presented in a straightforward person centered approach that makes information easily accessible and applicable to practice Written by multidisciplinary experts with academic and research backgrounds who also possess extensive practical experience in a variety of professional health fields Reader friendly engaging material is grounded in current theory and evidence Three distinct but interrelated fields clinical education professional supervision and mentoring are addressed together in one book for the first time Supervision of professionals in their workplace is covered as well as professional mentoring for ongoing professional development Presents complex theoretical material in an engaging person centered approach Acknowledges the importance of psychological well being with chapters on the self in supervision and finding meaning and preventing burnout **Handbook of Teaching for Physical Therapists** Gail M. Jensen, Elizabeth Mostrom, 2012-06-18 Whether you are practicing in an in patient or an out patient facility academic institution or clinical

residency program this well respected handbook gives you the background and guidance you need to effectively educate individuals across the continuum of physical therapy practice Practical real life examples show you how to incorporate health literacy and needs of the learner assess and adapt to the various learning styles of patients use simulations in education facilitate the development of clinical reasoning skills and assess learning outcomes and the effectiveness of your teaching Plus four all new chapters and major revisions of all content throughout the book keep you on top of the latest research and best practices Coverage of the theory and application of educational principles across the continuum of PT practice provides the information you need to improve your skills in the educational process both in academic and clinical settings Two section format divides content into two parts designing academic and clinical education programs and teaching students in academic and clinical settings and teaching patients and families in clinical and community settings Variety of teaching and teaching assessment methods expands your teaching learning and assessment repertoires Case stories at the beginning of each chapter allow you to see the relevance of the information in the chapter Threshold concepts highlight key ideas that are important to know Annotated bibliography at end of each chapter provides resources for further study NEW Chapter on Authentic Assessment Simulation Based Education reflects the new ways to facilitate student learning through the use of human simulation models NEW Chapter on Strategies for Planning and Implementing Interprofessional Education covers the fundamental concepts of team based care and interprofessional learning NEW Chapter on What Makes a Good Clinical Teacher translates current research on clinical teaching into clinical education and practice NEW Chapter on Facilitating the Teaching and Learning of Clinical Reasoning helps you apply current research on clinical reasoning in rehabilitation to clinical education and teaching NEW Two combined chapters on Patient Education and Health Literacy previously chapters 8 and 12 and Applied Behavioral Theory and Adherence Models for Practice previously chapters 9 and 10 provide focused presentations on current thinking and practical strategies for addressing health literacy issues in the clinical environment NEW Expanded chapter on Post Professional Clinical Residency and Fellowship Education offers more information on models and trends in residency education and mentoring

Clinical Reasoning and Decision Making in Physical Therapy Gina Musolino, Gail Jensen, 2024-06-01 Clinical reasoning is an essential non negotiable element for all health professionals The ability of the health professional to demonstrate professional competence compassion and accountability depend on a foundation of sound clinical reasoning The clinical reasoning process needs to bring together knowledge experience and understanding of people the environment and organizations along with a strong moral compass in making sound decisions and taking necessary actions While clinical reasoning and the role of mentors has been a focus of the continued growth and development of residency programs in physical therapy there is a critical need to have a broader in depth look at how educators across academic and clinical settings intentionally facilitate the development of clinical reasoning skills across one's career Clinical Reasoning and Decision Making in Physical Therapy Facilitation Assessment and Implementation fills this

need by providing a comprehensive and in depth focus on development of the patient client management skills of clinical reasoning and clinical decision making It takes into account teaching and learning strategies assessment and technological applications across the continuum from novice to residents fellows in training along with academic and clinical faculty for both entry level and specialist practice Drs Gina Maria Musolino and Gail Jensen have designed this comprehensive resource with contributions from professional colleagues The text centers on life long learning by encouraging the development of clinical reasoning abilities from professional education through residency education The aim and scope of the text is directed for physical therapy education to enhance clinical reasoning and clinical decision making for developing professionals and post professionals in both clinical and academic realms and for the development of clinical and academic faculty Clinical Reasoning and Decision Making in Physical Therapy uniquely offers both evidence based approaches and pragmatic consultation from award winning authors with direct practice experiences developing and implementing clinical reasoning clinical decision making in practice applications for teaching students residents patients and clinical academic faculty in classrooms clinics and through simulation and telehealth Clinical Reasoning and Decision Making in Physical Therapy is the first of its kind to address this foundational element for practice that is key for real world practice and continuing competence as a health care professional Physical therapy and physical therapist assistant students faculty and clinicians will find this to be an invaluable resource to enhance their clinical reasoning and decision making abilities Educating Physical Therapists Gail Jensen, 2024-06-01 The Preparation for the Professions Program by the Carnegie Foundation for the Advancement of Teaching focused on education in five professions clergy law engineering nursing and medicine but its influence has been felt throughout higher education and has inspired other professions to turn a critical eye to their own pedagogy Modeled after the Carnegie Foundation s example Drs Gail Jensen Elizabeth Mostrom Laurita Hack Terrence Nordstrom and Jan Gwyer began an examination of the state of physical therapist education in the United States in their study Physical Therapist Education for the Twenty First Century PTE 21 Innovation and Excellence in Physical Therapist Academic and Clinical Education With the same team of authors Educating Physical Therapists documents this examination detailing the key findings of the study and expanding on its implications The text begins by looking at the current state of physical therapist education across the continuum from professional education through residency then continues by describing exemplars of excellence and best practices that were observed in academic and clinical settings Through this survey of the profession a conceptual model of excellence in physical therapist education is derived and presented with practical recommendations Areas addressed Elements that promote a culture of excellence Critical needs for advancing learning and the learning sciences Academic and clinical organizational imperatives The critical need for system based reform Finally after looking at the current state of physical therapy education Educating Physical Therapists looks to the future providing a reimagined vision for what professional education and the profession could be These recommendations for

growth come with commentary by international experts in physical therapy education providing a wide range of perspectives After an intensive examination of physical therapist education Educating Physical Therapists is designed to change the way educators and administrators across academic and clinical settings prepare physical therapists for the future From the Foreword The authors of this volume have much to teach us and they have taught us well We can accept their recommendations or we can argue with them To ignore them is impossible Lee S Shulman PhD President Emeritus The Carnegie Foundation for the Advancement of Teaching *Physical Rehabilitation* Susan B O'Sullivan,Thomas J Schmitz,George Fulk,2019-01-25 Rely on this comprehensive curriculum spanning text and reference now and throughout your career You ll find everything you need to know about the rehabilitation management of adult patients from integrating basic surgical medical and therapeutic interventions to how to select the most appropriate evaluation procedures develop rehabilitation goals and implement a treatment plan Online you ll find narrated full color video clips of patients in treatment including the initial examination interventions and outcomes for a variety of the conditions commonly seen in rehabilitation settings Geriatric Physical Therapy - eBook Andrew A.
