Explaining Illness Research Theory And Strategies Leas Communication Series:

Explaining Illness Bryan B. Whaley, 1999-11 This volume studies the explanation of illness in various cultural and social contexts It is essential reading for scholars and practitioners in health communication and health care fields including nursing public health and medicine **Group Communication in Context** Larry R. Frey, 2005-05-18 The study of group communication has never been more critical as recent national and international events point to the fragility of group life An emerging perspective the bona fide group perspective offers hope for improving group communication for it recognizes that any group a family community group expedition team social support group organizational work group interorganizational collaboration or international team must be studied and understood within the multiple contexts in which it is embedded and that significantly affects who is considered to be part of a group what occurs within that group and how that group interacts with other groups In the second edition of his award winning volume editor Lawrence R Frey showcases original research studies conducted on and about communication in bona fide groups demonstrating the conceptual promise of the bona fide group perspective as realized in research practice Divided into six sections the chapters cover a wide range of new or relatively understudied groups including youth community groups Internet support groups climbing expedition groups families neighborhoods and school boards and demonstrate the wealth of methodological approaches that can be used to study bona fide group communication including survey methods interviews textual analysis content analysis participant observation and discourse analysis **Group Communication in Context Studies of Bona Fide Groups Second Edition** shows that the bona fide group perspective has the power to transform our thinking about groups and group communication and in time the practices in which groups and group members engage The volume is intended for use in group communication courses as well as a reference for group scholars It is also appropriate for classes in psychology social work counseling sociology anthropology and related disciplines **Tailoring Health Messages** Matthew W. Kreuter, David W. Farrell, Laura R. Olevitch, Laura K. Brennan, 2013-07-04 Through the use of new technologies researchers and practitioners in health education and health communication can now provide health information and behavior change strategies that are customized based on the unique needs interests and concerns of different individuals These tailored health messages can be highly effective in assisting individuals in understanding and responding to health concerns In this volume Matthew Kreuter David Farrell and their colleagues define the process of tailoring and describe its uses in health communication programs They present a theoretical and public health rationale for tailoring and support their position with empirical evidence They also lay out the steps involved in creating and delivering tailored health communication programs which can then be applied in practice Practitioners researchers and students in health communication health psychology public health and related areas will find this book to be a vital and invaluable resource for improving communication about health issues *Introduction to Health Care Delivery* Robert L. McCarthy, Kenneth W. Schafermeyer, 2007 This revised edition of *Introduction to Health Care*

Delivery A Primer for Pharmacists Fourth Edition offers a current and comprehensive picture of the U S healthcare delivery system while emphasizing the perspective of the pharmacy profession Each thoroughly updated chapter in the new edition of this practical text includes real world case studies learning objectives chapter questions questions for further discussion and updated key topics and terms New to the Fourth Edition is an updated Medicare Medicaid chapter that reflects current regulations a comprehensive glossary and online instructor resources including case response scenarios Privacy and Disclosure of Hiv in Interpersonal Relationships Kathryn Greene,Valerian J. Derlega,Gust A. Yep,Sandra Petronio,2003-06-20 As the HIV epidemic enters its third decade it remains one of the most pressing health issues of our time Many aspects of the disease remain under researched and inadequate attention has been given to the implications for the relationships and daily lives of those affected by HIV Disclosing an HIV diagnosis remains a decision process fraught with difficulty and despite encouraging medical advances an HIV diagnosis creates significant anxiety and distress about one s health self identity and close relationships This book provides an overarching view of existing research on privacy and disclosure while bringing together two significant areas self disclosure as a communication process and the social relational consequences of HIV AIDS The unifying framework is communication privacy management and the focus of this volume is on private voluntary relational disclosure as opposed to forced or public disclosure Utilizing numerous interviews with HIV patients and their families the authors examine disclosure in a variety of social contexts including relationships with intimate partners families friends health workers and coworkers Of note are the examinations of predictors of willingness to disclose HIV infection the message features of disclosure and the consequences of both disclosure and non disclosure This volume with its personal exercises and sources of additional information offers an invaluable resource for individuals living with HIV and their significant others as well as for professionals in the fields of health communication social and health psychology family therapy clinical and counseling psychology relationship research infectious disease and social service **The British National Bibliography** Arthur James Wells,2000 **Understanding Communication Theory** Stephen M. Croucher,2015-08-20 This book offers students a comprehensive theoretical and practical guide to communication theory Croucher defines the various perspectives on communication theory the social scientific interpretive and critical approaches and then takes on the theories themselves with topics including interpersonal communication organizational communication intercultural communication persuasion critical and rhetorical theory and other key concepts Each theory chapter includes a sample undergraduate written paper that applies the described theory along with edits and commentary by Croucher giving students an insider s glimpse of the way communication theory can be written about and applied in the classroom and in real life Featuring exercises case studies and keywords that illustrate and fully explain the various communication theories Understanding Communication Theory gives students all the tools they need to understand and apply prominent communication theories *Health Communication for Social Justice* Vinita Agarwal,2023-10-24 This textbook combines whole person and social justice perspectives to educate

students on the role of communication in promoting inclusive and person centered healthcare practices This book explores health inequities experienced by disadvantaged and marginalized populations and outlines the actions students can take to address these challenges The book demonstrates how physical mental and emotional health is connected to equitable understandings of individual community and environmental health It considers how social interpersonal and systemic factors such as personal relationships language literacy religion technology and the environment affect health equity To present strategies and invite action to support the goals of the whole person social justice activist approach the book provides contemporary examples interviews with communication scholars and case studies that examine local communities and the everyday contexts of health meaning making This textbook serves as a core or supplemental text for graduate and upper level undergraduate courses in health communication Online resources include PowerPoint slides and an instructor manual containing sample syllabi assignments and test questions They are available online at www.routledge.com 9781032081038

Forthcoming Books Rose Arny, 2003 *Bringing Bourdieu's Theory of Fields to Critical Policy Analysis* Vincent Dubois, 2024-01-18 Laying down the foundations of a critical sociological approach to the interdisciplinary domain of public policy this insightful book presents the first systematic reflection on the use of Bourdieu's theory of social fields to analyse policy processes Engaging with theoretical dimensions it provides innovative methodological tools both quantitative and qualitative in nature Bringing together an array of eminent contributors and case studies from across the globe it presents theoretical and methodological insights as well as empirical information on national cases and policy sectors *Handbook of Health Promotion and Disease Prevention* James M. Raczynski, Ralph J. DiClemente, 2013-11-11 The idea for this volume developed when we were co teaching our introductory master's level course in the Department of Health Behavior at the UAB School of Public Health a core course for all masters of public health students in the school regardless of the department in which they enrolled or the focus of their studies Hence in the course we sought to provide both students in our department as well as those who might not ever again take a health behavior course with an overview that would both truly represent the field and substantially provide educational research and public health practice benefits This was and continues to be a challenge with the diversity of students specializing in fields that include not only health behavior but also biostatistics environmental health sciences epidemiology health care organization and policy international health and maternal and child health The course that we taught attempted to provide the students with an overview of some of the important health promotion and disease prevention theories methods and policy issues while reviewing applications of these theories and methods to promoting health and preventing disease through a variety of channels for a variety of disease outcomes and among a variety of populations Since no one text provided this variety of readings we depended on readings and guest lectures *Understanding Research in Personal Relationships* William Dragon, Steve Duck, 2005-05-01 Understanding Research in Personal Relationships is a comprehensive introduction to the key readings on human and close relationships

Organized into twelve thematic chapters with editorial commentary throughout the editors offer a critical reading of the major research articles in the field of relationship studies published in the last few years Scholarly papers two per chapter are presented in an abridged form and critiqued in a carefully structured way that instructs students on the way to read research and to critically evaluate research in this field The book therefore has a thoroughly didactic focus as the student is given historical theoretical and methodological contexts to each article as well as an explanation of key terms and ideas

Coping and Complaining Simon R. Wilkinson, 2004-03-01 Good clinical practice is impossible without an understanding of the ways in which patients present their complaints Patients have their own styles of coping and of expressing their concerns and without a clear understanding of these the clinician may find successful and swift diagnosis and treatment much harder to achieve Coping and Complaining provides essential guidance for clinicians on how to identify various coping styles and how to improve the quality of discourse with people of different backgrounds and ages Drawing on a diverse range of evidence from such areas as developmental psychology and theories on learning and memory Coping and Complaining provides essential information on identification of patients coping styles focusing on such areas as The latest developments in attachment theory The neurobiology of emotional development and the biology of language development Primary processes in early development Communication role play the moral order of the consultation and emotional first aid Consequences for preventive medicine Coping and Complaining presents stimulating new approaches to consultations with patients and creative new ways of looking at health promotion

Coronavirus Disease (COVID-19): Psychological Reactions to the Pandemic Joanna Sokolowska, Peter Ayton, Eduard Brandstätter, 2021-10-14
