Explorations In Theology:

Explorations in Theology, Vol. 3 Hans Urs von Balthasar, 1989-01-01 *Explorations in Theology* Hans Urs Von Balthasar, 2011-10-20 The first of four volumes of von Balthasar's many essays and conferences Each focuses on a specific aspect of theology or spirituality and presents it with all the richness which comes from his immense erudition but in a style that is directed and intelligible since few of these essays were intended for scholarly audiences These volumes present a rare opportunity to experience Balthasar's synthetic and comprehensive treatment of major themes in theology without having to make one's way through much more extensive works which cover a much wider scope These volumes will provide an excellent introduction to the thought of von Balthasar for those unfamiliar with him and their chapters will focus on specific themes treated throughout his works for those who are familiar with him An excellent overview of the writings and thought of one of the outstanding theologians of this century *Explorations in Theology, Vol. 4* Hans Urs von Balthasar, 1995-01-01 The fourth volume in von Balthasar's essays is built around the theme of Spirit and Institution the two central features of the Church which Balthasar approaches from different angles The third volume is built around the theme of the Holy Spirit as the Creator Spirit The first volume was constructed around the mid point of the Word become man and the second volume around the Church which becomes configured to him The first part of the book looks at who man is and then examines the distinctively Christian experience of God Part two is a whole section on the Church which includes topics like celibacy and the priesthood today how we should love the Church and understanding Christian mysticism The third and final part is an eschatology in which Balthasar gives a brilliant summary of heaven hell and purgatory *Multiple Echo* Cornelius Ernst, 2007-01-01 Ultimately I cannot accept the framework of experience demanded and presupposed by the orthodox ecclesiastical tradition I think I must face this with consequences I can't foretell I have another tradition to which I am almost equally respectful in some ways more so the tradition of the human heart novels art music tragedy I cannot allow that God can only be adored in spirit and in truth by the individual introverted upon himself and detached from all that might disturb and solicit his heart It must be possible to find and adore God in the complexity of human experience from the Introduction *Explorations in Theology, Vol. 1* Hans Urs von Balthasar, 1989-01-01 *New Explorations in Theology*, 2015-11-09 Theology is flourishing in dynamic and unexpected ways in the twenty first century Scholars are increasingly recognizing the global character of the church freely crossing old academic boundaries and challenging previously entrenched interpretations Despite living in a culture of uncertainty both young and senior scholars today are engaged in hopeful and creative work in the areas of systematic historical practical and philosophical theology *New Explorations in Theology* provides a platform for cutting edge research in these fields In an age of media proliferation and academic oversaturation there is a need to single out the best new monographs IVP Academic is committed to publishing constructive works that advance key theological conversations We look for projects that investigate new areas of research stimulate fruitful dialogue

and attend to the diverse array of contexts and audiences in our increasingly pluralistic world IVP Academic is excited to make this work available to scholars students and general readers who are seeking fresh new insights for the future of Christian theology

Paul Tillich and Psychology Terry D. Cooper, 2006 Paul Tillich more than any other theologian of the twentieth century maintained an energetic dialogue with psychology and especially psychotherapy This book explores what Tillich's theology has to offer psychologists and others working in the field of mental health spiritual development and pastoral counseling Tillich's interaction with Carl Rogers Erich Fromm Rollo May and other famous psychologists became an important part of his thinking Tillich frequently pushed psychologists to see the underlying philosophical assumptions of their work This investigation of the underpinnings of psychotherapy then encouraged psychotherapists to become more aware of the ultimate questions about meaning purpose and ethics that informed their work Perhaps the greatest contribution this book offers is a careful narrative and analysis of the meetings of the New York Psychology Group which involved such figures as Tillich Fromm May Rogers Seward Hiltner Ruth Benedict and David Roberts to name just a few This important group which met from 1941 to 1945 dealt with issues that are very much with us today such as whether faith can be psychologically explained the meaning of transcendence the relationship between psychotherapy and ethics the appropriateness of self love and whether human love is parallel with Divine love

Sanctification Kelly M. Kapic, 2014-10-30 Often treated like the younger sibling in theology the doctrine of sanctification has spent the last few decades waiting not so patiently behind ideas like election and justification by faith alone In this volume twelve theologians explore the meaning and significance of sanctification for contemporary evangelical theology and practice

Explorations in Anthropology and Theology American Anthropological Association. Meeting, 1997 The papers in this volume seek to map out the broad areas of anthropology and inspire others to follow with their own contributions

Music as Theology Maeve Louise Heaney, 2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a

somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney's ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If this is so it is incumbent on the theologian to listen Jeremy Begbie from the Foreword

Explorations in Theology J. L. Houlden, 1978 Christ and Modernity David J. Hawkin, Canadian Corporation for Studies in Religion, 1985 In this re examination of the roots of the relationship between religion and science David Hawkin focuses on the concept of autonomy as he explores the question Is there continuity and compatibility between the autonomy that underlies Christian faith and the role of individual freedom in the technological age What makes this work particularly valuable is Professor Hawkin's review of the theological philosophical political psychological and sociological works that have formed our ideas of the nature of both Christianity and modernity Reimarus Strauss Schweitzer and Bultmann on the quest for the historical Jesus Bauer and Turner on Christian faith and practice Machiavelli Nietzsche Darwin Freud and Marx on our historicity Gogarten Cox and Bonhoeffer who affirm our autonomy in the technological process Ellul and George who deny it

The Order of Things Alister E. McGrath, 2008-04-15 Provocative and immensely well informed *The Order of Things* represents a substantial and original contribution to the fields of systematic theology historical theology and the science and religion dialogue Leading theologian Alister E McGrath explores how the working methods and assumptions of the natural sciences can be used to inform and stimulate systematic theology Written by one of today's best known Christian writers Explores how the working methods and assumptions of the natural sciences can be used to inform and stimulate systematic theology Continues McGrath's acclaimed exploration of scientific theology begun with his groundbreaking three volume work *A Scientific Theology* Includes a landmark extended analysis of whether doctrinal development can be explained using Darwinian evolutionary models and exploration of how the transition from a scientific theology to a future scientific dogmatics might be made Supported by a published review of McGrath's scientific theology project which is currently the best brief introduction to his thought

The Philosophical Frontiers of Christian Theology Donald MacKenzie MacKinnon, 1982 This book charts some of the frontiers which are of most concern in contemporary discussion regarding the borderlands between theology and philosophy Hans Urs Von Balthasar and

Protestantism Rodney Howsare, 2005-09-15 This book examines Balthasar's engagement with Protestantism primarily in the persons of Martin Luther and Karl Barth a topic which has not yet been given the attention it deserves Furthermore instead of focusing on particular theological issues such as soteriology or ecclesiology the book examines the implications of this engagement for Fundamental Theology At the very root of Luther's confrontation with the Catholic Church of the Late Middle Ages lies his antipathy for Aristotle and for natural theology In other words the Protestant difference has as much to do with its suspicion of the treatment of faith and reason in Catholic thought as it does of the Catholic treatment of faith and works This is a suspicion that is only exacerbated in Barth's identification of the analogy of being with the Antichrist Balthasar takes these criticisms very seriously and in addressing them not only has much of relevance to say to the Catholic Protestant differences but also has much to say to the Yale Chicago differences In short this study treats primarily Balthasar's dialogue with Luther and Barth with the hope that this dialogue will shed light on the impasse that seems to have arisen between the so called correlation and revelocentric schools of contemporary theology If indeed Christ is the concrete universal then we shouldn't have to decide between the two Part of this proposal then is to emphasize the fact that Balthasar refuses to separate Fundamental and Dogmatic theology
