*Smokin' Rockets* Patrick Lucanio, Gary Coville, 2002-06-25 Science and technology had a significant influence on American culture and thought in the years immediately following World War II The new wonders of science and the threat of the Soviet Union as a powerful new enemy made science fiction a popular genre in radio television and film Mutant creatures spawned by radioactive energy and intergalactic dictators unleashing horrific weapons upon Earth were characteristic of science fiction at the time and served as warnings to the very real dangers posed by the atomic age This work examines science and science fiction in American culture beginning in the year World War II ended and going to 1962 the year of John Glenn s orbital flight and the Cuban Missile Crisis The radio work of

Arch Oboler and the significance of his *Rocket from Manhattan* which aired only one month after the dropping of the first atomic bomb and asked serious questions about the use of atomic energy are examined Other topics are the conflict between the free world and the Communist world in the context of science fiction plot lines the dangers of science as shown in films like *Godzilla* *Them* *The Day the Earth Stood Still* and radio and television programs the flying saucer phenomenon and the treatment of such stories in the media with special attention given to the 1956 documentary *UFO* the changing and more positive depictions of scientists television programs like *Flash Gordon* and *Space Patrol* the shift in the balance of world power due to the successful launching of *Sputnik I* by the Russians in 1957 the end of the world theme in science fiction and the American journey into space

**Science Fiction** Ratnakar D. Bhelkar, 2009 *Liminality in Fantastic Fiction* Sandor Klapcsik, 2012-01-09 This critical work diversifies Victor Turner's concept of liminality a basic category of postmodernism in which distinct categories and hierarchies are questioned and limits erode Liminality involves an oscillation between cultural institutions genre conventions narrative perspectives and thematic binary oppositions Grounded on this notion the text investigates the liminality in Agatha Christie's detective fiction Neil Gaiman's fantasy stories and Stanislaw Lem's and Philip K Dick's science fiction Through an examination of destabilized norms this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts

*Olaf Stapledon* Robert Crossley, 1994-07-01 William Olaf Stapledon is best remembered for the extraordinary works of speculative fiction he published between 1930 and 1950 As a novelist he was known as the spokesman for the Age of Einstein and has influenced writers as diverse as Virginia Woolf Arthur C Clarke and Doris Lessing This biography is the first to draw on a vast body of unpublished and private documents interviews correspondence archival material and papers in private hands to reveal fully the internal struggles that shaped Stapledon's life and reclaim for public attention a distinctive voice of the modern era Late in his life in an unpublished letter to the future Stapledon unwittingly provided the rationale for his biography It is just possible that my very obscurity may fit me to speak more faithfully for my period than any of its great unique personalities A pacifist in World War I an advocate of European unity and world government one of the first teachers in the Workers Educational Association and an early protestor against apartheid Stapledon turned utopian beliefs into practical politics With roots in the shipping worlds of Devon Liverpool and the Suez Canal he was transformed from a self-described provincial on the margins of English literary and political life into a visionary idealist who attracted the attention of scientists journalists and novelists and given his left wing political affiliations even the F B I Stapledon's novels *Last and First Men* *Star Maker* *Odd John* and *Sirius* have gathered a passionate following and they have seldom been out of print in the last twenty five years But the personal experiences and political commitments that

shaped this creative work have until now barely been known Robert Crossley's work reveals how in public and in private in his social activism as in his fiction Olaf Stapledon embodied many of the modern era's anxieties and hopes that allow his works to continue to speak to and for the future

**Ralph 124C 41+** Hugo Gernsback,2000-01-01 Science fiction roman      *The Palgrave Handbook of Steam Age Gothic* Clive Bloom,2021-02-03 By the early 1830s the old school of Gothic literature was exhausted Late Romanticism emphasising as it did the uncertainties of personality and imagination gave it a new lease of life Gothic the literature of disturbance and uncertainty now produced works that reflected domestic fears sexual crimes drug filled hallucinations the terrible secrets of middle class marriage imperial horror at alien invasion occult demonism and the insanity of psychopaths It was from the 1830s onwards that the old gothic castle gave way to the country house drawing room the dungeon was displaced by the sewers of the city and the villains of early novels became the familiar figures of Dr Jekyll and Mr Hyde Dracula Dorian Grey and Jack the Ripper After the death of Prince Albert 1861 the Gothic became darker more morbid obsessed with demonic lovers blood sucking ghouls blood stained murderers and deranged doctors Whilst the gothic architecture of the Houses of

Parliament and the new Puginesque churches upheld a Victorian ideal of sobriety Christianity and imperial destiny Gothic literature filed these new spaces with a dread that spread like a plague to America France Germany and even Russia From 1830 to 1914 the period covered by this volume we saw the emergence of the greats of Gothic literature and the supernatural from Edgar Allan Poe to Emily Bronte from Sheridan Le Fanu to Bram Stoker and Robert Louis Stevenson Contributors also examine the fin de si cle dreamers of decadence such as Arthur Machen M P Shiel and Vernon Lee and their obsession with the occult folklore spiritualism revenants ghostly apparitions and cosmic annihilation This volume explores the period through the prism of architectural history urban studies feminism hauntology and much more Horror as Poe teaches us is the soul of the plot
