Exploring Civil Society:

Exploring Civil Society Marlies Glasius, David Lewis, Hakan Seckinelgin, 2004-08-02 This volume explores how the idea of civil society has been translated in different cultural contexts and examines its impact on politics worldwide Comparing and contrasting civil society in Latin America and Eastern Europe Western Europe and the United States Africa and South Asia and the Middle East the contributors show that there are multiple interpretations of the concept that depend more on the particular political configuration in different parts of the world than on cultural predilections They also demonstrate that the power of civil society depends less on abstract definitions and more on the extent to which it is grounded in the context of actual experiences from around the world This book includes some of the biggest names in the area such as Mary Kaldor Ronnie Lipschutz and Helmut Anheier

Civil Society & Development Jude Howell, Jenny Pearce, 2001 Setting out to explore critically the way civil society has entered development thinking policy and practice as a paradigmatic concept of the 21st century Howell development studies U of Sussex and Pearce Latin American politics U of Bradford trace the historical path leading to the encounter between the ideas of development and civil society in the late 1980s and how donors have translated these into development policy and programs They find that there are competing normative visions which have deep roots in Western European political thought about the role of civil society in relation to the state and market both among donors and within the societies where donors are operating This leads to donors playing a major role in shaping the character of service provision They also argue that their study exposes the hitherto unexplored power of the market as opposed to solely the state to distort donor programs c Book News Inc
