Exploring Confrontations Sri Lanka Politics Culture And History:

Exploring Confrontation Michael Roberts, 2021-09-01 Sri Lanka has been the meeting point of many ideologies and ways of being. This has spelt heterogeneity, syncretism and conflict. In drawing upon the practices of empirical research promoted by Western intellectual traditions, the author demonstrates the strengths of these practices through his contextualised engagement with the pogroms of 1915 and 1983 as well as other incidents. At the same time, he delineates some of the limits of empiricist rationality. This book is replete with rich ethnographic detail and serves as an exercise in historical anthropology which illuminates Sri Lanka's political culture. It not only opens out the contrast between Western and Indian world views but also explores the human condition by bringing out the immediacy surrounding acts of victimisation and human beings in conflict.

Constitutional Foundings in South Asia Kevin YL Tan, Ridwanul Hoque, 2021-01-28 This volume addresses the idea of origins: how things are formed and how they relate to their present and future in terms of constitution making, which is a continuous process in South Asian states. It examines the drafting, nature, core values and roles of the first modern constitutions during the founding of the eight modern nation states in South Asia. The book looks at the constitutions of Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka. It provides an explanatory description of the process and substantive inputs in the making of the first constitutions of these nations; it sets out to analyse the internal and external, including intra-regional forces surrounding the making of these constitutions and it sets out theoretical constructions of models to conceptualise the nature and role of the first constitutions, including constituent documents in the founding of the modern nation states and their subsequent impact on state building in the region.

The Magical Body Richard Eves, 2014-01-09 An intriguing exploration of the role and significance of the body in the world of a Pacific Islands People, the Lelet of New Ireland, Papua New Guinea. In vivid ethnographic detail, the monograph captures the fluidity and complexity of Lelet conceptions of corporeality and their significance to identity as they encounter the influences of modernity in the form of colonialism, Christianity and cash cropping. The author examines the importance of the body to constructions of identity and difference and its role in the constitution of place and space. The book provides a richly detailed ethnographic study of magical belief and the body whilst paying particular attention to the polyvalent meanings of bodily images and metaphors as they are used in numerous contexts of magic.

Androgynous Objects Maureen A. MacKenzie, 2019-01-25 *Androgynous Objects* explores the way meaning is encoded in material culture by focusing on the androgynous symbolism of the looped string bag or bilum of the Telefola people of Central New Guinea. The web of meanings woven into the bag is shown to extend beyond women's lives and bodies. It is open to manipulation and reformation in a variety of contexts and is used by both Telefola women and men to explore and so explain the complexities and ambiguities inherent in their social life.

Inhabiting an Embattled Body Jani de Silva, 2023-04-06 This book offers an anthropological account of Sri Lanka's Eelam Wars III and IV. It is based on the life narratives of ex-servicemen who fought on the frontlines.

The volume approaches militarism as a practice of masculinity. It explores the sense of embattlement that young recruits feel which stems from the inner war between notions of bodily deference instilled in childhood and having to conduct offensives on the battlefield. Thus though they wish to move smoothly into the assault techniques learnt in combat training they sometimes find their bodies are acting out a different trajectory engaging in acts of spectacular violence or simply running away. It traverses themes such as masculinity and Sinhala society, British martial masculinity vs the composed body in Sinhala discourse, combat training and the battlefield. The author traces the ways in which troops tried to negotiate the thin line between valour and violence in a context in which the enemy's suicide fighters engaged in the more extreme code of sacrificing the body which derided the very manliness of soldiers who couldn't prevail against them. She argues that the Sri Lankan experience has resonance for soldiers on battlefields everywhere who become embattled when confronted by adversaries whose practice seems to diminish their own manliness. Rich in ethnographical narratives, this book will be of interest to scholars and researchers of war studies, gender studies, masculinity studies, peace and conflict studies, ethnic studies, political science, international relations, sociology, social anthropology, cultural studies and South Asian studies, especially those concerned with Sri Lanka.

Religious Offences in Common Law Asia Li-ann Thio, Jaclyn L Neo, 2021-02-25. This book provides in depth comparative analysis of how religious penal clauses have been developed and employed within Asian common law states and the impact of such developments on constitutional rights. By examining the theoretical and conceptual underpinnings of religious offences as well as interrogating the nature and impact of religious penal clauses within the region, it contributes to the broader dialogue in relation to religious penal clauses globally, whether in countries which practise forms of secular or religious constitutionalism. Asian practice is significant in this respect given the centrality of religion to social life and indeed in some jurisdictions to constitutional or national identity. Providing rigorous studies of common law jurisdictions that have adopted similar provisions in their penal code, the contributors provide an original examination and analysis of the use and development of these religious clauses in their respective jurisdictions. They draw upon their insights into the background sociopolitical and constitutional contexts to consider how the inter-relationship of religion and state may determine the rationale and scope of religious offences. These country-by-country chapters inform the conceptual examination of religious views and sentiments as a basis for criminality and the forms of harm that attract legal safeguards. Several chapters examine these questions from a historical and comparative perspective, considering the underlying bases and scope as well as evolving objectives of these provisions. Through these examinations, the book critically interrogates the legacy of colonialism on the criminal law and constitutional practice of various Asian states.

Discursive Approaches to Populism Across Disciplines Michael Kranert, 2020-12-11. This edited book presents a cross-disciplinary and international conversation about the discursive nature of populist politics. Based on the idea that language and meaning-making are central to the political process, the authors present research originating from disciplines such as sociology,

political science linguistics gender studies and education giving credence to the variety and context dependence of both populist discourse and its analysis Using a variety of different theoretical frames the volume examines international case studies from Europe Africa Asia and the Americas looking at different modes of populism as well as the interaction of populism with other ideologies and belief systems The chapters draw on several disciplines and will be of interest to scholars working in linguistics political studies journalism rhetoric and discourse analysis

Consumption and Identity Jonathan Friedman, 2005-06-28 First published in 2004 Studies in Anthropology and History is a series that will develop new theoretical perspectives and combine comparative and ethnographic studies with historical research Volume fifteen and this is about the relation between consumption and broader cultural strategies The papers are the product of a workshop organized in Denmark under the aegis of the Center for Research in the Humanities which took place in 1989 While the majority of participants were anthropologists there were also sociologists and historians present

Post-war Dilemmas of Sri Lanka S. I. Keethaponcalan, 2019-03-14 By investigating Sri Lanka as a case study this book examines whether democracy compared to authoritarianism is conducive to post war reconciliation The research founded on primary as well as secondary data concludes that political systems have little to do with the success or failure of post war ethnic reconciliation The Sri Lankan case indicated that post war reconciliation is more contingent on the readiness of the former enemies to come together Readiness stems from for example satisfaction in the way issues have been resolved confidence in the other party's intentions and the compulsion to coexist If the level of satisfaction confidence and the compulsion to coexist are low the readiness to reconcile will also be low The end of the war had a profound impact on post war governance and ethnic relations in Sri Lanka Hence the volume provides an in depth analysis of the factors that led to the military victory of the Sri Lankan government over the Liberation Tigers of Tamil Eelam LTTE in 2009 The chapters delve into the nexus between governance and reconciliation under the first two post war governments Reconciliation did not materialize in this period Instead new fault lines emerged as attacks on the Muslim community escalated drastically This book provides a comprehensive analysis of the nature of relations between the Sinhalese and Muslims and the Tamils and Muslims as well as the nature and causes of post war anti Muslim riots

A History of Curiosity Justin Stagl, 2012-11-12 First Published in 2002 A History of Curiosity examines the early methodology of anthropological and social research from a critical historical perspective The three principal methods of research travel the survey and the collection of significant objects are studied in the context of the social conditions and intellectual trends of early modern times The author's grasp of the vast often obscure but highly interesting body of literature which emerged in the sixteenth to eighteenth centuries commands the attention of a wide readership outside purely academic boundaries He weaves together a series of separate studies emphasising links between the figures the philosophies and the literatures of early modern times links which have previously only been suspected In focussing on the ars apodemica or art of travelling a body of formal instructions on how to travel observe and

record the information gathered the author demonstrates the origins of the characteristic inquisitive and systematizing spirit of the modern West **The Hard People** Patrick Heady,2013-12-19 Heady draws on both participant observation and interviews with older informants to trace the effects of recent exogenous technological and institutional changes and the way local people have responded to them His findings relate to such themes of recent history as nationalism regionalism and anti clericalism and contribute to the theoretical debate on the relevance of structuralist anthropology to European societies

Unstructuring Chinese Society Allen Chun,2004-08-02 Unstructuring Chinese Society is a culmination of long term field work and archival research that challenges existing theories of social organisation and cultural change The book makes new sense of historical contradictions political conflicts and deep seated social transformations that have underlined the experience of colonial rule and the practices of local institutions in Hong Kong over the past century By focusing on the ongoing interactions of discourse practices and global local relations in cultural terms Unstructuring Chinese Society puts forth a fresh perspective in the field of historical anthropology while addressing ongoing critical concerns in postcolonial theory and our understanding of tradition and modernity *Buddhism, Politics and the Limits of Law* Benjamin

Schonthal,2016-11-17 Examining Sri Lanka s religious and legal pasts this is the first extended study of Buddhism and constitutional law *Women and the Nation's Narrative* Neloufer De Mel,2001 This book explores the development of nationalism in Sri Lanka during the past century particularly within the dominant Sinhala Buddhist and militant Tamil movements Tracing the ways women from diverse backgrounds have engaged with nationalism Neloufer de Mel argues that gender is crucial to an understanding of nationalism and vice versa Traversing both the colonial and postcolonial periods in Sri Lanka s history the author assesses a range of writers activists political figures and movements almost completely unknown in the West With her rigorous historically located analyses de Mel makes a persuasive case for the connections between figures like actress Annie Boteju and art historian and journalist Anil de Silva poetry whether written by Jean Arasanayagam or Tamil revolutionary women and political movements like the LTTE the JVP the Mother s Front and contemporary feminist organizations Evaluating the colonial period in light of the violence that animates Sri Lanka today de Mel proposes what Bruce Robbins has termed a lateral cosmopolitanism that will allow coalitions to form and to practice an oppositional politics of peace In the process she examines the gendered forms through which the nation and the state both come together and pull apart The breadth of topics examined here will make this work a valuable resource for South Asianists as well as for scholars in a wide range of fields who choose to consider the ways in which gender inflects their areas of research and teaching **Historical Dictionary of Sri Lanka** S. Portland OR Across the Great Divide Bronwen Douglas, 2013-12-19 Across the Great Divide tracks a Pacific historian's fruitful ambivalent engagements with History and Anthropology anticipating experiments in each discipline with the other's theories and praxis. The revised and new essays comprising this collection provide systematic critiques of aspects of received scholarly wisdom about Oceania and are linked by reflexive commentaries addressing recent postcolonial concerns. A varied but coherent set of ethnographic and historical narratives about colonial encounters in Island Melanesia is informed by particular critical focus on the paradoxes and politics of knowing indigenous pasts through colonial texts **Dresden**

Elizabeth A. Ten Dyke, 2014-05-22 The collapse of the German Democratic Republic prompted the East Germans to confront their personal cultural and international past. This study of the Wende, the turn of events in 1989, is based on ethnographic and anthropological research conducted in the early 1990s. Liz Ten Dyke has developed a finely nuanced portrait of the city and its residents as they were caught up in the economic, political, and social turmoil that characterized the immediate post-socialist period. By weaving together scholarly research, oral history, and ethnographic excursions or narratives of salient experiences, this book makes an important contribution to the study of social aspects of the past. Moving beyond paradigms presently shaping the study of memory, it details the paradoxes and contradictions inherent in remembering, making manifest the link between such contradictions and larger symbolic and political-economic contexts. In this way, the author situates the study of memory in history and shows that it is the mutability of memory in conjunction with the uncertainty of history that render the past a dynamic and powerful force in human society **Constitutions and Religion**

Susanna Mancini, 2020-11-27 *Constitutions and Religion* is the first major reference work in the emerging field of comparative constitutional law and religion. It offers a nuanced array of perspectives on various models for the treatment of religion in domestic and supranational legal orders *An Uneasy Hegemony*

Shyamika Jayasundara-Smits, 2022-11-10 Sri Lanka has been regarded as a model democracy among former British colonies. It was lauded for its impressive achievement in terms of human development indicators. However, Sri Lanka's modern history can also be read as a tragic story of inter-ethnic inequalities and tensions resulting in years of violent conflicts. Two long spells of anti-state youth uprisings were followed by nearly three decades of civil war, and most recently, a renewed upsurge of events are examples of the on-going uneasy project of state building. This book discusses that state building in Sri Lanka is centred on the struggle for hegemony amidst a kind of politics that rejects individual and group equality, opposes the social integration of marginalised groups, and appeals to narrow, fearful, and xenophobic tendencies among the majority population and minorities alike. It answers the pressing questions of: How do the dynamics of intra-Sinhalese class relations and Sinhalese politics influence the trajectories of post-colonial state building? What tensions emerge over time between Sinhalese hegemony building and wider state building? How did these tensions manifest in majority and minority relationships **The Musical Gift**

Jim Sykes, 2018-08-31 *The Musical Gift* tells Sri Lanka's music history as a story of giving between humans and nonhumans and between populations defined by

difference Author Jim Sykes argues that in the recent past the genres we recognize today as Sri Lanka's esteemed traditional musics were not originally about ethnic or religious identity but were gifts to gods and people intended to foster protection and or healing Noting that the currently assumed link between music and identity helped produce the narratives of ethnic difference that drove Sri Lanka's civil war 1983 2009 Sykes argues that the promotion of connected music histories has a role to play in post war reconciliation The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka and it contains a theorization of the relations between musical gifts and commodities Eschewing a binary between the gift and identity Sykes claims the world's music history is largely a story of entanglement between both paradigms Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years including the first study of Sinhala Buddhist drumming in English and the first ethnography of music making in the former warzones of the north and east this book brings anthropology's canonic literature on the gift into music studies while drawing on anthropology's recent ontological turn and the new materialism in religious studies
