Yeping Li, Rongjin Huang, 2013 *How Chinese Teach Mathematics and Improve Teaching* builds upon existing studies to
examine mathematics classroom instruction in China. It combines contributions from Chinese scholars with commentary from
key Western scholars to offer a truly systematic examination of some important and distinctive features of mathematics
classroom instruction. Viewing classroom instruction as part of teachers' instructional practices, this book goes beyond
teachers in classroom instructional practice by also examining Chinese teachers' approaches and practices in developing and
improving teaching. Through this unique approach, *How Chinese Teach Mathematics and Improve Teaching* expands and
unpacks the otherwise fragmented knowledge about Chinese practices in developing and carrying out mathematics
classroom instruction. **Becoming Literate in Mathematics and Science**, 2001 *Report of the 1977 National Survey
