Exploring Music As Worship And Theology An Interdisciplinary Method For Studying Liturgical Practice:

Exploring Music as Worship and Theology Mary E. McGann, 2002 *Exploring Music as Worship and Theology* invites greater attention to the diverse cultural music emerging in our Christian assemblies and underscores the need for more dialogue between our theories of liturgy music and the actual practice of local communities **BOOK JACKET** *Sonic Liturgy* Guy L. Beck, 2012-12-12 *Sonic Liturgy* Ritual and Music in Hindu Tradition builds on the foundation of Guy L. Beck's earlier work which described the theoretical role of sound in Hindu thought *Sonic Liturgy* continues the discussion of sound into the realm of Hindu ritual and musical traditions of worship Beginning with the chanting of the Sama Veda alongside the fire sacrifices of the ancient Indo Aryans and with the classical Gandharva music as outlined in the musicological texts of Bharata and Dattila Beck establishes a historical foundation for an in depth understanding of the role of music in the early Puja rituals and Indian theater in the vernacular poetry of the Bhakti movements in medieval temple worship of Siva and Vishnu in southern India and later in the worship of Krishna in the northern Braj region By surveying a multitude of worship traditions Beck reveals a continuous template of interwoven ritual and music in Hindu tradition that he terms sonic liturgy a structure of religious worship and experience that incorporates sound and music on many levels In developing the concept and methods for understanding the phenomenon of sonic liturgy Beck draws from liturgical studies and ritual studies broadening the dimensions of each as well as from recent work in the fields of Indian religion and music As he maps the evolution of sonic liturgy in Hindu culture Beck shows how parallel to the development of religious ritual from ancient times to the present there is a less understood progression of musical form beginning with Vedic chants of two to three notes to complicated genres of devotional temple music employing ragas with up to a dozen notes *Sonic liturgy* in its maturity is manifest as a complex interactive worship experience of the Vaishnava sects presented here in Beck's final chapters

Evangelical Worship Melanie C. Ross, 2021 Say the words evangelical worship to anyone in the United States even if they are not particularly religious and a picture will likely spring to mind unbidden a mass of white middle class worshippers with eyes closed faces tilted upward and hands raised to the sky Yet despite the centrality of this image many scholars have underestimated evangelical worship as little more than a manipulative effort to arouse devotional exhilaration It is frequently dismissed as a reiteration of nineteenth century revivalism or a derivative imitation of secular entertainment three Christian rock songs and a spiritual TED talk But by failing to engage this worship seriously we miss vital insights into a form of Protestantism that exerts widespread influence in the United States and around the world *Evangelical Worship* offers a new way forward in the study of American evangelical Christianity Weaving together insights from American religious history and liturgical studies and drawing on extensive fieldwork in seven congregations Melanie C. Ross brings contemporary evangelical worship to life She argues that corporate worship is not a peripheral extra tacked on to a fully formed spiritual political and cultural movement but rather the crucible through which congregations forge argue over and enact their unique

contributions to the American mosaic known as evangelicalism *Decolonial Horizons* Raimundo C. Barreto,Vladimir Latinovic,2023-12-10 This is the second of two volumes of essays from the Ecclesiological Investigations International Research Network s 14th International Conference focused on decolonizing churches and theology addressing oppressions based on gender racial and ethnic identities economic inequality social vulnerabilities climate change and global challenges such as pandemics neoliberalism and the role of information technology in modern society all connected with the topic of decolonization The essays in this volume focus on decoloniality in empire family and mission written from historical dogmatic social scientific and liturgical perspectives **Glimpses of the New Creation** W. David O. Taylor,Jeremy Begbie,2019-09-03 How do the arts in worship form individuals and communities Every choice of art in worship opens up and closes down possibilities for the formation of our humanity Every practice of music every decision about language every use of our bodies every approach to visual media or church buildings forms our desires shapes our imaginations habituates our emotional instincts and reconfigures our identity as Christians in contextually meaningful ways generating thereby a sense of the triune God and of our place in the world *Glimpses of the New Creation* argues that the arts form us in worship by bringing us into intentional and intensive participation in the aesthetic aspect of our humanity that is our physical emotional imaginative and metaphorical capacities In so doing they invite the people of God to be conformed to Christ and to participate in the praise of Christ and in the praise of creation which by the Spirit s power raises its peculiar voice to the Father in heaven for the sake of the world that God so loves **Symbol, Service, and Song** J. Nathan Clayton,2021-11-09 In the Old Testament the Levites stand as key ministry leaders for the worship of the people of God from their origins with Moses and the tabernacle to their service at the Jerusalem temple to their roles in the postexilic period This study proposes a multidimensional reading of the texts centered on the Levites in the Davidic narratives of 1 Chronicles 10 29 From a literary point of view the notion that the Levites are closely associated with the symbol of God s presence is explored From a historical perspective the roles of the Levites in expanding the service to God and his people is examined And from a theological perspective the means by which the Levites facilitate the song of God s people is studied Overall this work seeks to defend the idea that these texts contribute significantly to the rhetorical argumentation the historiographic method and the biblical theological meaning of the canonical books of Chronicles generally and of the Davidic narratives of 1 Chronicles 10 29 specifically as they emphasize the central role played by proper Levitical worship leadership at the time of David and during the challenging situation of the Chronicler s Yehudite postexilic audience **A Precious Fountain** Mary E. McGann,2015-11-20 *A Precious Fountain* is a work of liturgical ethnography that probes the rich liturgical life of one worshipping community whose roots and practices are at once Black and Catholic using music as a primary lens through which to explore the community s liturgy and embodied theology Our Lady of Lourdes community in San Francisco is part of a larger event in the American church the emergence of a new paradigm of Catholic worship one that is authentically Black

and truly Catholic Mary E McGann RSCJ describes how the music worship of Our Lady of Lourdes in San Francisco not only enriches that community but also is an example of how a theology of music is practiced in that parish She offers this new genre of liturgical literature that brings to light how God's Spirit is working in the churches through the idioms perceptions and insights of specific ethno cultural communities in this time of massive cultural change and globalization An

Annotated Bibliography of Church Music Jason M. Runnels, 2003 The purpose and scope of this bibliography is to survey the literature concerning church music primarily in publications from 1980 to the present while including materials that have been published and serve as primary resources earlier than that The emphasis is on Protestant church music largely those published in the English language The selected lists include over 700 titles and contain citations with annotations of reference works and bibliographies The annotations offer an indication of the scope content and special features of each work This study will fill the research and reference needs of music students scholars and church musicians as well as providing research and college libraries with a reference for building their church music collections **Crossing**

Lemley, 2021-01-07 Contemporary worship music is ubiquitous in many Protestant Christian communities today Rather than debating or decrying this post worship wars reality David Lemley accepts it as a premise and examines what it means for us to be singing along with songs that aren't so different from the pop genre How do we cope with the consumerism embedded

in the mentality that catchy is good How do we stay committed to subverting cultural norms as Christians are called to do when our music is modeled after those cultural norms How do we ensure that the way we participate in the liturgy of contemporary worship music rehearses a cruciform identity Becoming What We Sing draws on cultural criticism ethnomusicology and liturgical and sacramental theology to process the deluge of the contemporary in today s worship music Lemley probes the thought of historical figures such as Augustine Hildegard of Bingen Martin Luther and the Wesleys while also staying situated in the current moment by engaging with cultural philosophers such as James K A Smith and popular artists such as U2 The result is a thorough assessment of contemporary worship music s cultural economy that will guide readers toward greater consciousness of who we are becoming as we sing our way into selves societies and cosmic perspectives
