Exploring Participation:

Costa Rica John A Booth, 2018-02-19 How did Costa Rica become Central America's first successful democracy? How does Costa Rican democracy work? How does democracy survive despite regional turmoil, foreign intervention, and economic crisis? Beginning with Costa Rica's history within the Central American context, John Booth traces democratic development in Costa Rica through its institutions, rules of the political game, parties, elections, and interest groups. After a review of socioeconomic and political forces, the author examines political participation and culture, political economy, and foreign affairs. The book's overview of Costa Rican politics is accessible and useful for students, scholars, and general readers. *The Seeking Heart* Ian Mobsby, 2025-01-28 In the contemporary church, the word mission has become synonymous with pace, expansion, and results. Yet such an approach can often leave those with responsibilities in mission or ministry feeling exhausted and overwhelmed. Not only that, but mission which focuses on the rapid and the growing fails to recognise the rich resources the more contemplative Christian traditions can offer our post-secular society, and especially those who would call themselves spiritual but not religious. Participatory Practice Ledwith, Margaret, Springett, Jane, 2022-04-04 This unique holistic and radical perspective on participatory practice has been updated to reflect on advances made in the past decade and the impact of austerity. The innovative text bridges the divide between community development ideas and practice and considers how to bring about transformative social change. The Antidote Peter Beresford, 2025-05-28 The gap between personal and formal politics has been widening globally and locally. As personal politics have become more inclusive and egalitarian, inspired by new social movements, neoliberal ideologies have undermined democracy, increasing isolation, inequality, poverty, disease, and environmental threat. Yet this paradox may also offer a path to transformation. Using international evidence and examples, *The Antidote* explores what we can learn from the equalisation of personal roles and relationships that's been taking place to help us reconnect with ourselves and each other and make possible more participatory and liberatory policy and politics. It sets out the barriers we face and offers a route map to bring an end to the destructive effects of unfettered neoliberal ideology, economics, policy, and politics. Europe from Below Tuuli Lähdesmäki, Katja Mäkinen, Viktorija Linda Aldona Čeginskas, Sigrid Kaasik-Krogerus, 2021-03-15 In this book, Tuuli Lähdesmäki, Katja Mäkinen, Viktorija Lähdesmäki, and Sigrid Kaasik-Krogerus scrutinize how people who participate in cultural initiatives funded and governed by the European Union understand the idea of Europe. The book focuses on three cultural initiatives: the European Capital of Culture, the European Heritage Label, and a European Citizen Campus project funded through the Creative Europe programme. These initiatives are examined through field studies conducted in 12 countries between 2010 and 2018. The authors describe their approach as ethnography of Europeanization and conceptualize the attempts at Europeanization in the European Union's cultural policy as politics of belonging. **Disability and Social Theory** D.
