

Exploring the LUSITANIA

Among the Lusitania was the disproportionate British mourning period during the second part of the Great War. In May of 1915, a German torpedo sank the sleek Cunard liner Lusitania with the loss of 1,195 civilian lives. The sinking would spark outrage against Germany, and the deaths of US American passengers was the last step in helping the United States join World War I.

But almost from the moment the torpedo was fired, controversy has surrounded the Lusitania. Who did the sinking so quickly? Who was there a "sunk" explosion? And the last line carrying messages for the British? Did Winston Churchill, then First Sea Lord, allow the sinking in the hope that it might draw America into the war? Rumors of conspiracies and cover-ups surrounded the boat, and eight years later she is still a ship of mystery.

In August of 1995, Dr. Robert Ballard, the discoverer of the Titanic and the RMS Titanic, led an expedition to the wreck of the Lusitania, off the coast of Ireland, in search of answers. Using a small submarine and satellite-controlled camera vehicles, Ballard and his team studied the wreck like a team of underwater detectives, trying to solve the mystery. Their high-quality underwater images of the damaged wreck cast new doubt on the cause of the sinking that was lost in the hours of mystery. Ballard's findings are extraordinary and provide a fascinating, definitive account of what happened on that fateful day.

Exploring the Lusitania is also a glorious, illustrated history of one of the greatest tragedies of the age when luxury ruled the sea lanes. Featuring Ballard's exclusive underwater photography paired with high-quality archival material in the form of "then and now" photos. And paired together by noted marine writer Rex Weyler, who accompanied Ballard on his expedition and was able to peer the Lusitania's last moments from a submarine, capture the sea lane in all her dramatic splendor.

Manning, Clarence R. Wyatt, 2010-12-20 This fascinating compilation of reference entries documents the unique relationship between mass media propaganda and the U S military a relationship that began in the period before the American Revolution and continues to this day sometimes cooperative sometimes combative and always complex The Encyclopedia of Media and

Propaganda in Wartime America brings together a group of distinguished scholars to explore how war has been reported and interpreted by the media in the United States and what effects those reports and interpretations have had on the people at home and on the battlefield. Covering press U S military relationships from the early North American colonial wars to the present wars in Iraq and Afghanistan, this two volume encyclopedia focuses on the ways in which government and military leaders have used the media to support their actions and the ways in which the media has been used by other forces with different views and agendas. The volumes highlight major events and important military, political and cultural players, offering fresh perspectives on all of America's conflicts. Bringing these wars together in one source allows readers to see how media affected the conflicts individually but also understand how the use of the various forms of media: print, radio, television, film and electronic have developed and changed over the years.

Disaster At Sea William Flayhart, 2005-03-22 Flayhart delivers a gripping chronicle of mishap and mayhem filled with danger and heroism and rich with detail. Sea Power: A colorful and deadly history of ocean liner disasters from the mid nineteenth century to the present. Disaster at Sea is a chronicle of the most frightening episodes in the maritime history of the North Atlantic. From 1850 to the present day the Atlantic has been home to hundreds of ocean liners and cruise ships, each more lavish than the last, all of them symbols of wealth and luxury. Perhaps this is why readers have always been fascinated by the lives of these ships and their deaths. Many of us know the stories of the Titanic and the Lusitania. Both tragedies caused tremendous loss of life even as they made the ships immortal. But there are many little known accounts of extraordinary survivals at sea such as the Inman and International liner City of Chicago that jammed her bow into an Irish peninsula in 1892 but stayed afloat long enough for all to be rescued or the City of Richmond that survived a dangerous fire in 1891 and a year earlier the City of Paris whose starboard engine exploded at full speed in the mid Atlantic and yet miraculously still made port. Often such tales are forgotten even if the ship sank. In 1898 the Holland America liner Veendam hit a submerged wreck and sank at sea but all lives were saved so this vessel's dramatic story seemed less important in maritime history than incidents involving human loss. As recently as 2000 the Sea Breeze I sank off the East Coast of the United States while on a positioning voyage but all her crew members were rescued in a heroic effort by U S Coast Guard helicopters. These stories and many others are dramatic and acclaimed maritime scholar William Flayhart has spent much of the last forty years in search of material from which to create colorful narratives. Author of *The American Line 1871-1902* and coauthor of *Majesty at Sea* and the first edition of *QE2*, Flayhart retells classic ocean liner disaster stories while bringing to light never before published but compelling episodes in man's ongoing battle with the sea. Originally published in hardcover under the title *Perils of the Atlantic*.
