**Exploring Zen** Hsueh-li Cheng,1991 This book is a philosophical and comparative exposition of Zen It first brings out the similarities between Zen values and those of Western philosophy then discusses how Zen perceptions of truth scriptural language and religious communication resemble those of Neo orthodox Christianity Zen education is then shown to be rooted in Confucianism and Zen liberation to have no one definite unified metaphysical system The book repudiates the view that Zen is illogical and amoral by displaying how Zen logic functions and in what way Zen is itself the practice of morality

Zen and the Art of Postmodern Philosophy Carl Olson, 2000-08-24 This book examines and compares the philosophical positions of various postmodern thinkers and Zen Buddhist philosophers on language and play modes of thinking skepticism and doubt self and other time and death nihilism and metaphysics and the conception of the end of philosophy The Zen thinkers dealt with are Dogen and Nishitani and the Western thinkers are Derrida Lacan Heidegger Lyotard Foucault Deleuze and Guatarri Kristeva and Levinas Although each share similar notions concerning the shortcomings of representational thinking major differences still exist By clarifying these differences Olson counters the tendency to overtly assert or covertly imply that postmodern and Zen philosophies are moving in the same direction Some postmodern thinkers and Zen Buddhist philosophers share common philosophical ground with regard to a mutual philosophical attack and attempt to overcome the perceived shortcomings of the representational mode of thinking that conceives of the mind like a mirror and assumes a correspondence between appearance and reality that is supported by a **Encyclopedia of Chinese Philosophy** Antonio S. analyzing their relevance to other disciplines and ideas The result shows how these words function as heterogeneous cultural contexts in the complexity of experience but also how they function within the context of Chinese culture as well as Chinese literature and criticism In this volume the editors focus on discourse text narrative literariness and irony from the perspectives of etymology documentation meanings and other core factors Students of literature and languages and especially Chinese literature will benefit from this two volume set The Open Access version of this book available at http www taylorfrancis com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Poetics of Emptiness Jonathan Stalling, 2011-10-03 The Poetics of Emptiness uncovers an important untold history by tracing the historically specific intertextual pathways of a single if polyvalent philosophical term emptiness as it is transformed within twentieth century American poetry and poetics This conceptual migration is detailed in two sections The first focuses on transpacific Buddhist poetics while the second maps the less well known terrain of transpacific Daoist poetics In Chapters 1 and 2 the author explores Ernest Fenollosa's The Chinese Written Character as a Medium for Poetry as an expression of Fenollosa's distinctly Buddhist poetics informed by a two decade long encounter with a culturally hybrid form of Buddhism known as Shin Bukkyo New Buddhism Chapter 2 explores the classical Chinese poetics that undergirds the lost half of Fenellosa's essay Chapter 3 concludes the first half of the book with an exploration of the didactic and soteriological function of emptiness in Gary Snyder's influential poetry and poetics. The second half begins with a critical exploration of the three decades long career of the poet translator critic Wai lim Yip whose transpacific Daoist poetics has been an important fixture in American poetic late modernism and has begun to gain wider notoriety in China The last chapter engages the intertextual weave of poststructural thought and Daoist and shamanistic discourses in Theresa Hak Kyung Cha s important body of heterocultural productions By formulating interpretive frames as hybrid as the texts being read this book makes available one of the most important yet still largely unknown stories of American poetry and poetics

Suzuki, Volume III Daisetsu Teitaro Suzuki,2016-08-02 Daisetsu Teitaro Suzuki was a key figure in the introduction of Buddhism to the non Asian world Many outside Japan encountered Buddhism for the first time through his writings and teaching and for nearly a

century his work and legacy have contributed to the ongoing religious and cultural interchange between Japan and the rest of the world particularly the United States and Europe This third volume of Selected Works of D T Suzuki brings together a diverse collection of Suzuki s letters essays and lectures about non Buddhist religions and his thoughts on their relation to Buddhism as well as his reflections on the nature of religion itself Some of these writings have been translated into English for the first time in this volume As a long term resident of the United States a world traveler and a voracious consumer of information about all forms of religion Suzuki was one of the foremost Japanese mediators of Eastern and Western religious cultures for nearly seven decades An introduction by Jeff Wilson and Tomoe Moriya analyzes Suzuki s frequent encounters with texts and practitioners of many religions considers how events in Suzuki s lifetime affected his interpretations of Christianity Shinto and other traditions and demonstrates that his legacy as a scholar extends well beyond Buddhism Brief History of the Relationship Between Confucianism, Daoism, and Buddhism Zhongjian Mou, 2023-01-01 Chinese traditions of Confucianism Daoism and Buddhism have a profoundly philosophical dimension The three traditions are frequently referred to as three paths of moral teachings In this book Mou provides a clear account of the textual corpus that emerges to define each of these traditions and how this canonical axis was augmented by a continuing commentarial tradition as each generation reauthorized the written core for their own time and place In his careful exegesis Mou lays out the differences between the more religious reading of these traditions with their defining practices that punctuate the human journey through life and the more intellectual and philosophical treatment of the texts that has and continues to produce a first order culture of annotation that become integral to the traditions themselves At the center of the alternative religious experience reflected throughout the teachings of Confucianism Daoism and Buddhism is the project of personal cultivation as it comes to be expressed as robust growth in family and communal relations For Mou these three highly distinctive and yet complementary ways of thinking and living constitute a kind of moral ecology wherein each of them complements the others as they stand in service to a different dimension of the human need for an educated spirituality Traditional Korean Philosophy Youngsun Back, Philip J Ivanhoe, 2016-11-08 This unique volume of original essays presents in depth analyses of representative periods problems and debates within the long and rich history of Korean philosophy It provides the reader with a sense of the problems that motivated thinkers within the tradition and the kinds of arguments that characterize their reflections With contributions from some of the best and most significant contemporary Korean philosophers this volume marks an important new stage in the Western language study and appreciation of Korean philosophy In order for philosophy to be understood and appreciated as philosophy it must at some point be presented and evaluated as the human effort to understand problems through a process of careful and sustained analysis and argument This anthology offers Western readers the first opportunity to meet and engage with traditional Korean Buddhist and Confucian philosophy on these terms Japan in Traditional and Postmodern Perspectives Charles Wei-hsun Fu, Steven Heine, 1995-07-01 In this book each of the

chapters offers an analysis of the origins and development of an important aspect of Japanese culture including religion Pure Land Buddhism and Zen Shinto and folk religions Confucianism and Tokugawa era ideology philosophy classical Buddhism and the contemporary Kyoto School literature and the arts medieval poetry and drama modern fiction and films and social behavior family system feminism nationalism and economic growth The central underlying theme is the uniqueness and creativity of Japan as seen from twentieth century perspectives One of the fascinating things about Japanese culture is that on the one hand it seems to have held onto its traditional foundations with a greater sense of determination and celebration than most societies and at the same time it appears to have attained a position at the forefront of international modernist and postmodernist developments The authors explore several approaches to this issue One school of thought is influenced by recent Japanese writers and intellectual historians such as Mishima Tanizaki Watsuji and Nakamura Another approach is influenced by Western poststructuralist commentators such as Barthes Derrida and Lyotard A third approach is to argue against the thesis known as nihonjinron Japanism or cultural exceptionalism by suggesting that the notion of Japanese uniqueness is itself a cultural myth generated by nationalist and particularist trends originating in the Tokugawa era The volume features an essay by Kenzaburo Oe winner of the Nobel Prize for Literature entitled Japan the Dubious and Myself
