in Assessing the English of School-age Learners Szilvia Papp,Shelagh Rixon,2018 The proposed book on child second language L2 development and assessment will be a state of the art account of what we currently know about how children learn L2s in formal contexts and how that knowledge impacts on the design development and evaluation of language assessment products for young learners The uniqueness of child L2 development within the classroom is highlighted by considering children s L2 needs typical patterns of development and the role of instruction and assessment in how children learn Common issues shared in child L2 acquisition studies language testing and educational assessment are explored by linking research carried out within the educational academic and testing communities Several case studies are described

from different educational contexts around the world where teaching and assessment of young language learners takes place. In particular, the book presents the Cambridge English approach to assessing young learners of English and presents a framework for the development research and validation activities around the Cambridge English suite battery for children.

The Cambridge Handbook of Thinking and Reasoning Keith J. Holyoak, Robert G. Morrison, 2005-04-18 The Cambridge Handbook of Thinking and Reasoning is the first comprehensive and authoritative handbook covering all the core topics of the field of thinking and reasoning. Written by the foremost experts from cognitive psychology, cognitive science, and cognitive neuroscience, individual chapters summarize basic concepts and findings for a major topic, sketch its history, and give a sense of the directions in which research is currently heading. The volume also includes work related to developmental, social, and clinical psychology, philosophy, economics, artificial intelligence, linguistics, education, law, and medicine. Scholars and students in all these fields and others will find this to be a valuable collection. [The Cambridge Handbook of Literacy](#) David R. Olson, Nancy Torrance, 2009-02-09 This handbook marks the transformation of the topic of literacy from the narrower concerns with learning to read and write to an interdisciplinary enquiry into the various roles of writing and reading in the full range of social and psychological functions in both modern and developing societies. It does so by exploring the nature and development of writing systems, the relations between speech and writing, the history of the social uses of writing, the evolution of conventions of reading, the social and developmental dimensions of acquiring literate competencies, and more generally the conceptual and cognitive dimensions of literacy as a set of social practices. Contributors to the volume are leading scholars drawn from such disciplines as linguistics, literature, history, anthropology, psychology, the neurosciences, cultural psychology, and education. *Learning Theory and Classroom Practice in the Lifelong Learning Sector* Jim Gould, 2012-10-10 This book supports all trainee teachers in the Lifelong Learning Sector working towards QTLS in their understanding of the key learning theories and how these can be applied to their teaching.
