Exploring Contemporary Migration:

Exploring Contemporary Migration Paul Boyle, Keith Halfacree, Vaughan Robinson, 2014-06-11 Exploring Contemporary Migration provides the first comprehensive introduction to the various aspects of population migration in both the developed and the developing worlds. Some of the most important quantitative and qualitative methods used for the description and analysis of migration are presented in a clearly structured and accessible way. The various theoretical approaches used to explain the complex patterns of migration are also summarised. These patterns are then explored through the use of specific migration related themes: employment stage in the life course, quality of life, societal engineering, violence and persecution, and the role of culture. Exploring Contemporary Migration is written in a user friendly, accessible style appealing to undergraduate students of population geography and social science students taking a population module. This text will also be valuable reading to those researchers and academics concerned with gaining a broad understanding of the dynamics and patterns of contemporary population.

Migration Michael Samers, Michael Collyer, 2016-12-08 While the subject of migration has received enormous attention in academic journals and books across the social sciences, introductory texts on the matter are few and far between. Even fewer books have explored migration through a critical and explicit engagement with spatial concepts. Now in its second edition, Migration remains the only text in more than a decade that emphasizes how geographical or spatial concepts can be used critically to understand migration. The multi-disciplinary text draws on insights from human geography, political science, social anthropology, sociology, and to a lesser extent, economics. All of the chapters focus on key terms, theories, concepts, and issues concerning migration and immigration. The book argues that in the context of migration, two opposing spatial positions have emerged in the wake of the critique of methodological nationalism. On one hand is the significance of transnationalism, and on the other, the importance of sub-national or local processes. Both require more nuance and integration, while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re-written with space in mind. Pedagogically, the text combines a carefully defined structure, accessible language, boxes that explore case studies of migrant related experiences in particular places, annotated suggestions for further reading, useful websites, and relevant films, and summary questions for student learning at the end of each chapter. Migration provides a critical, multi-disciplinary, advanced, and theoretically informed introduction to migration and immigration. Revised and updated with new material, new maps, and illustrations, and an accompanying website (<https://migration2ndedition.wordpress.com>), it continues to be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration.

Cultures of Transnationality in European Migration Karolina Bargłowski, 2019-06-05 Transnational mobility in the EU has become a key factor for supranational integration, equal life chances, and socioeconomic prosperity. This book explores the cultural and social patterns that shape people's migration, the historical and contemporary patterns of their movement, and the manifold consequences of their migration for themselves.

and their families Exploring the links between social and spatial mobility the book draws attention to the complexity of moving and staying as ways in which social inequalities are shaped and reinforced Grounded in research conducted in Germany and Poland the book develops the concept of cultures of transnationality to analytically frame the variety of expectations involved in migration and how they shape migration dispositions opportunities and outcomes Cultures of Transnationality in European Migration will be of broad interest to scholars and students of transnational migration European development cultural sociology intersectionality and subjectivity Specifically it will appeal to scholars interested in the cultural ramifications of moving and staying as well as those interested in the interplay of gender ethnicity and class in the making of social inequality

Migration, Transnationalism and Development in South-East Europe and the Black Sea Region Russell King, Maja Povrzanović Frykman, Julie Vullnetari, 2018-04-19 The Southeast Europe and Black Sea region presents fertile terrain for examining recent international migration trends The contributions to this book cover a range of examples from Ukraine and Moldova in the north to Greece and Albania in the south By intersecting the three key concepts of migration transnationalism and development they offer new insights based on original empirical research A wide range of types of migration can be observed in this region large scale emigration in many countries recent mass immigration in the case of Greece return migration internal migration internal and external forced migration irregular migration brain drain etc These migratory phenomena occur within the context of EU migration policies and EU accession for some countries Yet within this shifting migration landscape of migrant stocks and flows the fundamental economic geography of different wealth levels and work opportunities is what drives most migration now as in the past This book was previously published as a special issue of Southeast European and Black Sea Studies

Routledge International Handbook of Rural Studies Mark Shucksmith, David L. Brown, 2016-05-20 Rural societies around the world are changing in fundamental ways both at their own initiative and in response to external forces The Routledge International Handbook of Rural Studies examines the organisation and transformation of rural society in more developed regions of the world taking an interdisciplinary and problem focused approach Written by leading social scientists from many countries it addresses emerging issues and challenges in innovative and provocative ways to inform future policy This volume is organised around eight emerging social economic and environmental challenges Demographic change Economic transformations Food systems and land Environment and resources Changing configurations of gender and rural society Social and economic equality Social dynamics and institutional capacity Power and governance Cross cutting these challenges are the growing interdependence of rural and urban the rise in inequality within and between places the impact of fiscal crisis on rural societies neoliberalism power and agency and rural areas as potential sites of resistance The Routledge International Handbook of Rural Studies is required reading for anyone concerned with the future of rural areas

Household Mobility in America Brian Joseph Gillespie, 2016-12-22 This book provides an interdisciplinary analysis of the correlates and consequences of residential

relocation Drawing on multiple nationally representative data sets the book explores historic patterns and current trends in household mobility individuals mobility related decisions and the individual family and community outcomes associated with moving These sections inform later discussions of mobility related policy practice and directions for future research

Migration Culture Vilmantė Kumpikaitė -Valiūnienė,Vilmantė Liubinienė,Ineta Žičkutė,Jurga Duobienė,Audra I. Mockaitis,Antonio Mihi-Ramirez,2021-05-17 This book examines the emergence of a culture of migration through outward migration as a country specific phenomenon and analyzes it from different perspectives covering various aspects such as the history of a country its migration flows migration push factors social economic and political issues as well as individual values In the first part the authors present a theoretical background on migration culture formation This is followed by an in depth analysis of migration culture in Lithuania in the second part The presented case study is based on a quantitative survey study of almost 5 400 respondents Further the results of this case study are compared and adapted to other classical migration countries in the European Union such as Spain or Portugal The book therefore is a must read for everybody interested in a better understanding of migration and the emergence of a culture of migration in different countries

Dynamics of Indian Migration S. Irudaya Rajan,Marie Percot,2020-11-29 This volume is a multidisciplinary approach to the subject of Indian international emigration and comprises contributions by demographers economists sociologists geographers anthropologists and historians The book highlights emerging issues such as the political economy of international migration skilled and unskilled migration body shopping return migration immigration policies in the Gulf and experiences of emigrants from the states of Kerala and Punjab It focuses on the current dimensions like skilled migrants in the IT sector of Malaysia the entrepreneurial ventures of Keralites in the UAE household remittances inequality and poverty in Kerala the gender dimension of Indian migration with focus on nurses and housemaids in the Gulf and cross border migratory movements connected to the European Union with an overview of the migration of Sikhs and Tamils to France Finally it carries a discussion of the evolution of India s public policies towards its diaspora

Rural Aging in 21st Century America Nina Glasgow, E. Helen Berry, 2012-12-14 This book investigates sociological demographic and geographic aspects of aging in rural and nonmetropolitan areas of the United States Population aging is one of the most important trends of the 20th and 21st centuries and it is occurring worldwide especially in more developed countries such as the United States Population aging is more rapid in rural than urban areas of the U S In 2010 15 percent of the nonmetropolitan compared to 12 percent of the metropolitan population were 65 years of age and older By definition rural communities have smaller sized populations and more limited healthcare transportation and other aging relevant services than do urban areas It is thus especially important to study and understand aging in rural environments Rural Aging in 21st Century America contributes evidence based policy relevant information on rural aging in the U S A primary objective of the book is to improve understanding of what makes the experience of rural aging different from aging in urban areas and to increase understanding of the aged change the nature of rural places The book addresses unique features of rural aging across economic racial ethnic migration and other structures and patterns all with a focus on debunking myths about rural aging and to emphasize opportunities and challenges that rural

places and older people experience **The Dispersal and Social Exclusion of Asylum Seekers** Patricia Hynes,2011
 Establishing asylum seekers in the UK as a socially excluded group this book provides readers with an understanding of how they experience the dispersal system and gives an insight into how this impacts on their lives *A Companion to Health and Medical Geography* Tim Brown,Sara McLafferty,Graham Moon,2009-12-21 A COMPANION TO HEALTH AND MEDICAL GEOGRAPHY A Companion to Health and Medical Geography provides an essential starting point for anyone interested in studying the role of geography and of geographers both past and present in promoting an understanding of issues relating to health and illness Whilst thoroughly mapping out the territory covered by the sub discipline and examining changes in focus and terminology this book offers a discussion of the major themes from differing methodological and theoretical perspectives Questions of class ethnicity gender age and sexuality are covered throughout the text and case studies within chapters draw upon scholarship from around the globe in order to illuminate key points Organized to promote dialogue and encourage health and medical geographers to rethink sub disciplinary boundaries this Companion provides a unique account of the history of the field and its future potential and possibilities *Immigration and the Current Social, Political, and Economic Climate: Breakthroughs in Research and Practice* Management Association, Information Resources,2018-08-03 Unstable social climates are causing the displacement of large numbers of people around the world In consequence the issue of safe relocation arises leading to the need for new policies and strategies regarding immigration Immigration and the Current Social Political and Economic Climate Breakthroughs in Research and Practice is a timely reference source on the challenges risks and policies of current relocation and refugee flows and addresses the social political and economic problems in relation to these aspects of immigration Highlighting a range of pertinent topics such as political refugees human rights and economic equity this publication is an ideal reference source for policymakers managers academicians practitioners and graduate level students interested in the current state of immigration from social political and economic perspectives

Mining and Community in South Africa Philippe Burger,Lochner Marais,Deirdre van Rooyen,2017-09-22 Mining has played a key role in the growth of many towns in South Africa This growth has been accompanied by a proliferation of informal settlements by pressure to provide basic services and by institutional pressures in local government to support mining Fragile municipal finance changing social attributes the pressures of shift work on mineworkers the impact on the physical environment and perceived new inequalities between mineworkers contract workers and original inhabitants have further complicated matters Mining growth has however also led to substantial local economic benefits to existing business and it has contributed to a mushrooming of new enterprises While the relationship between mining and economic development at the country level has received adequate attention in existing literature less is known about the consequences of mining at the local level This book investigates the local impacts of mining in South Africa focusing on employment inequality housing business development worker well being governance municipal finance planning and the environment

Taking an interdisciplinary approach Mining and Community in South Africa will be of interest to scholars of South Africa economic development labour and industry politics and planning

Routledge Handbook on Gender in Tourism Magdalena Petronella (Nellie) Swart, Wenjie Cai, Elaine Chiao Ling Yang, Albert Nsom Kimbu, 2024-02-20 This comprehensive handbook delves into the multifaceted dimensions of the role of gender in tourism spanning education research and practice With 40 international contributions from leading thinkers in the field this book brings together diverse themes such as entrepreneurship mobility sustainability and sexuality In doing so it shatters traditional boundaries and dissects how gender influences perceptions experiences and opportunities advocating for equality and challenging entrenched power dynamics Informed by the United Nations Gender Equality goals this handbook champions the potential of gender aware tourism to reshape the world by fostering inclusivity empowerment and understanding It adopts diverse insights encompassing feminist and queer perspectives challenging norms and exploring marginalised voices By dissecting gender in educational entrepreneurial and research contexts it unveils hidden dynamics This book empowers readers to grasp the breadth of gender's role and equips them with tools to foster equality and reshape the tourism landscape while making suggestions for future research agendas This book is intended for scholars educators researchers government officials and practitioners in the fields of gender studies tourism education entrepreneurship employment mobility research sustainability and sexuality

Afrodescendant Resistance to Deracination in Colombia Aurora Vergara-Figueroa, 2017-10-26 This book provides a socio historical analysis of the 2002 massacre at Bellavista Bojay Choc Colombia The author examines how the concepts of forced displacement and migration could be formulas for historical erasure These concepts are used to name populations such as the survivors of this massacre and are limited in their ability to contribute to the demands for reparation of the affected populations Instead based on an ethnographic study of the pain and suffering generated in the survivors the book proposes the concept of deracination as a tool to study land dispossession It captures both the complex local specificities the global linkages of this phenomenon and the strategies of resistance used by the people of this community to channel what seems as an impossible mourning

The Routledge Handbook of Tourism Geographies Julie Wilson, 2012-03-15 Geographical analysis of tourism spaces and places is advancing fast In terms of human geography the various recent academic turns have led to fresh examination of existing debates and have advanced new theoretical ideas in geography that are more salient than ever for tourism studies The Routledge Handbook of Tourism Geographies seeks to examine such recent developments by providing a state of the art review of the field documenting advances in research and evaluating different perspectives approaches techniques and contexts The Routledge Handbook of Tourism Geographies considers recent disciplinary developments including post disciplinarily in geography in relation to the study of tourism It also analyzes the fledgling relationships of the new mobilities paradigm critical tourism studies and cultural political economy to tourism spaces and places as well as acknowledging a spatial turn in poststructuralist social sciences more generally In addition it evaluates how

postcolonial feminist sensory performative and queer perspectives have diversified research in the tourism geographies field. Spatial analysis, time geography, placemaking and landscape concerns are addressed, and issues such as transport, environmental discourses and development are also analyzed. Finally, the volume's contributions highlight key areas for advancing research and map out the dimensions of future trajectories in tourism geographies in different theoretical and thematic contexts. Written by leading scholars in the tourism geographies field, this text will provide an invaluable resource for all those with an interest in tourism geographies, encouraging dialogue across disciplinary boundaries and areas of study.

Island Songs Godfrey Baldacchino, 2011. Through the close analysis of musical performance and tradition, the scholarly contributions to *Island Songs* provide a global review of how island songs, their lyrics and their singers engage with the challenges of modernity, migration and social change, uncovering common patterns despite the diversity and local character of their subjects.
