Creationism USA Adam Laats, 2020-09-24 Who are America s creationists What do they want Do they truly believe Jesus rode around on dinosaurs as sometimes depicted Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution not about the actual science behind it and not in ways that truly matter to public policy Laats asserts that Americans do however have significant disagreements about creationism By describing the history of creationism and its many variations Laats demonstrates that the real conflict about evolution is not between creationists and evolution The true landscape of American creationism is far

more complicated than headlines suggest Creationism USA digs beyond those headlines to prove two fundamental facts about American creationism First almost all Americans can be classified as creationists of one type or another Second nearly all Americans including self identified creationists want their children to learn mainstream evolutionary science Taken together these truths about American creationism point to a large and productive middle ground a widely shared public vision of the proper relationship between schools science and religion Creationism USA both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them *The Well-Trained Mind: A Guide to Classical Education at Home (Third Edition)* Susan Wise Bauer, Jessie Wise, 2009-05-04 You do have control over what and how your child learns The Well Trained Mind will give you the tools you ll need to teach your child with confidence and success BOOK JACKET **Exploring Creation with Advanced Biology** Marilyn M.
