for Teaching Middle School Science Smithsonian Institution,National Academy of Engineering,National Science Resources

Center of the National Academy of Sciences,Institute of Medicine,1998-04-30 With age appropriate inquiry centered

curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them *Resources for Teaching Middle School Science* developed

by the National Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum

materials that will engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are

aligned with the National Science Education Standards This completely new guide follows on the success of *Resources for*

Teaching Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered

curriculum materials and other resources for science teachers The curriculum materials in the new guide are grouped in five

chapters by scientific area Physical Science Life Science Environmental Science Earth and Space Science and

Multidisciplinary and Applied Science They are also grouped by type core materials supplementary units and science activity

books Each annotation of curriculum material includes a recommended grade level a description of the activities involved

and of what students can be expected to learn a list of accompanying materials a reading level and ordering information The

curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria

developed for the guide The criteria reflect and incorporate goals and principles of the National Science Education Standards

The annotations designate the specific content standards on which these curriculum pieces focus In addition to the

curriculum chapters the guide contains six chapters of diverse resources that are directly relevant to middle school science

Among these is a chapter on educational software and multimedia programs chapters on books about science and teaching

directories and guides to science trade books and periodicals for teachers and students Another section features institutional resources One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science experiences Another chapter describes nearly 140 professional associations and U S government agencies that offer resources and assistance Authoritative extensive and thoroughly indexed and the only guide of its kind Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents
