Exploring Arts Integration in Language Arts Instruction for Elementary Education Mary A. Dehner, 2020 The purpose of this thesis is to provide insight on how arts integration in English language arts education increases engagement and achievement in students and teachers alike Throughout my analysis of literature local field research in two Central Florida public elementary schools and my creation of a five day arts integrated writing unit I found that arts integration especially when utilizing Leonard Bernstein s Artful Learning Method was observed to show a positive impact on students Arts integration allowed for a child s natural curiosity and instinct to create to take over which created authentic learning experiences for the students The research also demonstrated that arts integration enabled teachers to utilize their creativity which in turn positively changed their perspectives on their career and teaching experience Observations and the research literature examined in this thesis showed that arts integration can be a valuable outlet for both students and teachers yet not always utilized due to high stakes testing budgetary concerns and time constraints in the elementary classroom

Crossroads of the Classroom Vicki Ross, Elaine Chan, Dixie K. Keyes, 2017-04-28 This book aims to explore and make visible the intersection of subject matter knowledge and teacher knowledge in the narratives of teachers This complicated interaction between these two bodies of knowledge is often studied and little understood

Connecting Visual Literacy to Theory Ricardo Lopez-León, Dana Statton Thompson, 2024-07-12 This volume seeks to close the gap between education systems across the world that remain systematically devoted to understanding our world through text rather than images. Through an exploration of the contributions of well and lesser known visual thinkers from across disciplines and geographies, the contributors offer contemporary appraisals and modern reconceptualizations of the subject. The book illuminates how experts from various disciplines ranging from art communication education and philosophy laid the foundations for what we know today as visual literacy. These foundations and innovative ways of thinking and understanding images have been disruptive but until now have been relatively understudied. As such, the chapters examine the context of individual thinkers expanding upon famous theories and providing new insight into why these visual and cognitive processes are imperative to learning and education and to disciplines spanning art history, museum studies, philosophy, photography and more. The authors, all members of the International Visual Literacy Association (IVLA), are committed to advancing the study of visual literacy by raising new questions and proposing new routes of inquiry. A unique and timely exploration of the way we derive meaning from what we see and how we interact with our visual environment, it will appeal to researchers, scholars and educators from a range of interdisciplinary backgrounds across art, art education, art history, design, information science, photography and visual communication.

Language Exploration and Awareness Larry Andrews, 2013-09-13 This book shows English teachers how they can expand their curriculum beyond the traditional emphases on grammar and syntax to help their students learn about the many aspects of the English language including general semantics, regional and social dialects, syntax, spelling, history of the English language, social language conventions, lexicography and word origins. The text reviews basic aspects of English language study in classrooms, then illustrates how teachers can create student-centered, inquiry-oriented activities for the learners in their classrooms. Written from a language-in-cultural-and-social-context perspective, this text stresses the uses of authentic language as it is used by real people for real purposes in diverse social contexts. Clear, practical and reader-accessible, the fully revised and updated second edition of this text emphasizes how language is a distinctly human activity and how successful language use is dependent on appropriate choices driven by social context. Demonstrates through numerous sample classroom activities, many of which have been prepared by classroom teachers, how language study can be more meaningful and enjoyable for students. Features two unique chapters: one on the languages of intolerance and discrimination and one on how teachers can help English as a Second Language learners in mainstream classrooms. Includes For Your Information and Practice activities in each chapter to help readers deepen and clarify their understandings of the content.

Adopting the Tune of Term: An Mental Symphony within **Exploring Language Arts In The Elementary Classroom**

In some sort of eaten by displays and the ceaseless chatter of fast interaction, the melodic splendor and mental symphony developed by the written term frequently fade into the back ground, eclipsed by the persistent noise and disruptions that permeate our lives. However, set within the pages of **Exploring Language Arts In The Elementary Classroom** an enchanting literary value brimming with fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that interesting masterpiece conducts visitors on a mental journey, skillfully unraveling the hidden tunes and profound impact resonating within each carefully crafted phrase. Within the depths of this touching review, we can examine the book is main harmonies, analyze its enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
