Explorings With Children:

Exploring Children's Literature Nikki Gamble, Sally Yates, 2008-02-20 This book is based on the belief that deep subject knowledge of language and literature provides a foundation for effective teaching and learning It provides a comprehensive guide to the range of genres and characteristic features of English language fiction written for children It will help readers to o develop their understanding of literature within social cultural and political reading practices o extend their knowledge of language features and conventions of different genres o develop skills in analytical and critical reading The scope of the first edition has been expanded from solely fiction to cover a range of contemporary literature including poetry plays and picture books The case study material investigative activities and practical exercises promote an active approach to learning The second edition focuses on a range of fiction relevant to the National Curriculum for England and the National Literacy Strategy It provides examples from a range of world literature written in English Examples from work in translation are also included It also addresses the requirements of the primary curriculum for ITT English This book is essential reading for student teachers on PGCE and undergraduate teacher education courses and for teachers undertaking CPD in English literacy or children s literature It provides useful support material for language coordinators SCITT coordinators and literacy consultants

Exploring Children's Creative Narratives Dorothy Faulkner, Elizabeth Coates, 2011-04-04 How should we understand children s creativity This fascinating collection of international research offers fresh perspectives on children s creative processes and the expression of their creative imagination through dramatic play stories artwork dance music and conversation Drawing on a range of research evidence from innovative educational initiatives in a wide variety of countries *Exploring Children s Creative Narratives* develops new theoretical and practical insights that challenge traditional thinking about children s creativity The chapters written by well respected international contributors offer new conceptual and interpretive frameworks for understanding children s creativity contest conventional discourses about the origins and nature of creativity challenge the view that young children s creativity can only be judged in terms of their creative output explore the significance children themselves attribute to their creative activity argue the need for a radical reappraisal of the influence of the sociocultural context on children s creative expression discuss the implications of this research in relation to teacher education and curriculum design This broad yet coherent compilation of research on creativity in childhood is essential reading for students researchers and policy makers in early childhood as well as for Early Years professionals with a particular interest in creativity

Exploring Children's Rights Rolf Gollob, Peter Krapf, 2007-01-01 Children should know what rights they have but they should also learn how to appreciate and to use them To achieve this schools must allow for a wide range of learning experiences in children s rights education Children understand and appreciate their rights by using them both in school and in everyday life To encourage children to do so the challenge for the teacher is to create a setting that is governed by the spirit of democracy and human rights This manual has been designed for teachers who are looking

for tools to teach children's rights to students at primary schools The features of this manual include nine small projects of four lessons each for students in their first nine years of school detailed lesson instructions that can be followed by beginners or used in teacher training a lesson plan including the key questions and key tasks in each at the beginning of each project description an approach of task based learning focusing on problem solving and learning by example which supports the pupils in conceptual learning skills training and the development of values and attitudes *Exploring Children's Learning* Christine Ritchie, 2016-12-08 *Exploring Children's Learning* 3-11 years is essential reading for those passionate about supporting children's learning environments from Early Years to Key Stage 2 By combining learning with important aspects of a broad curriculum content it will inspire and enhance an interest in supporting children's learning Individual chapters focus on key areas of the curriculum such as literacy and history numeracy and science as well as more general topics such as creativity assessment and the emotional and behavioural aspects of learning The book takes an objective view on control over curriculum and offers practical insights into how supportive learning opportunities can create enjoyable and satisfying lifelong learning habits preparing children for the challenges they may face in their adult working life Whether you dip into chapters or read through the book as a whole you will develop your understanding of the complexity of learning and the lifelong effects implicit in this not only from the individual basis that each child faces in terms of learning how to learn but also concerning the differences in learning strategies required to successfully negotiate subject knowledge across a range of disciplines This book is a must read for students of Childhood and Education Studies programmes those undertaking Initial Teacher Training as well as general readers with an interest in supporting children's learning *Exploring Children's Suffrage* John Wall, 2023-01-01 This edited volume offers a critical thorough and interdisciplinary examination of arguments for eliminating the minimum democratic voting age As children and youth increasingly assert their political voices on issues such as climate change gun legislation Black Lives Matter and education reform calls for youth enfranchisement merit further academic conversation Leading scholars in childhood studies political science philosophy history law medicine and economics come together in this collection to explore the diverse assumptions behind excluding children from voting rights and why these are open to question While arriving at different and sometimes competing conclusions each chapter deconstructs the idea of voting as necessarily tied to age while reconstructing a more democratic imagination able to enfranchise the third of humanity made up by children and youth Thus this book defines and establishes a new field of academic study and public debate around children's suffrage Chapter The Reform that never happened a history of children's suffrage restrictions is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) **Exploring Your Mind with the Psychologists** Albert Edward Wiggam, 1928 **Exploring Life** Thomas Augustus Watson, 1926 *Exploring the Manual Arts* John Frank Friese, 1926 *The Horn Book Magazine*, 1926 **Trading and Exploring** Agnes Vinton Luther, 1912 *Exploring Music with Children* Robert Evans Nye, Vernice
