Experimenting With Democracy:

Vassar Quarterly, 1916 The Great Experiment Mart Grams, 2012-09-22 A free market text on the emergence in America of a Great Experiment Stemming from Alexander Hamilton's statement in Federalist 1 and stated two centuries later by Ronald Reagan Freedom is never more than one generation away from extinction We didn't pass it to our children in the bloodstream It must be fought for protected and handed on for them to do the same or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free Hamilton wondered if men were capable of ruling themselves This text deals with that hope and duty and my attempts over the years to express to my students a spark to relight that fire the Framers and Founders felt when creating the greatest experiment in freedom the world has seen **The Experiment with Democracy in Central Europe** Arnold John

Zurcher, 1933 **Reed College Bulletin** Reed College (Portland, Or.), 1927 Includes announcements catalogues and the Reed College alumnus **Exhibition Experiments** Sharon Macdonald, Paul Basu, 2008-04-30 Exhibition Experiments is a lively collection that considers experiments with museological form that challenge our understanding of and experience with museums Explores examples of museum experimentalism in light of cutting edge museum theory Draws on a range of global and topical examples including museum experimentation exhibitionary forms the fate of conventional notions of object and representation and the impact of these changes Brings together an international group of art historians anthropologists and sociologists to question traditional disciplinary boundaries Considers the impact of technology on the museum space tackles a range of examples of experimentalism from many different countries including Australia Austria Germany Israel Luxembourg Sweden the UK and the US Examines the changes and challenging new possibilities facing museum studies

Democratic Experimentalism Brian E. Butler, 2013 This volume focuses on democratic experimentalism gathering a collection of original and previously unpublished essays focusing upon its major outlines as well as specific aspects both promising and troublesome of this theoretical approach Together these essays offer conceptions of democracy and democratic governance that emphasize and highlight experimentalist aspects of pragmatic thought particularly Deweyan pragmatism and its relationship to instantiation in concrete social and political institutions Issues of democratic governance political organization and the relationship of law to democracy are analyzed **Introduction to Sociology** Thames

Williamson, 1926 **Democratic Experiments in Africa** Michael Bratton, Nicolas Van de Walle, 1997-08-13 Appendix The Data Set **Do Elections Always Motivate Incumbents? Experimentation vs. Career Concerns** Mr. Eric Le Borgne, Mr. Ben Lockwood, 2003-03-01 This paper studies a principal agent model of the relationship between an incumbent officeholder and the electorate where the officeholder is initially uninformed about her ability If officeholder effort and ability interact in the production function that determines performance in office then an officeholder has an incentive to experiment that is raise effort so that performance becomes a more accurate signal of her ability Elections reduce the experimentation

effect and the reduction in this effect may more than offset the positive career concerns effect of elections on effort Moreover when this occurs appointment of officeholders may Pareto dominate elections *Experiments with Empire* Justin Izzo,2019-05-06 In *Experiments with Empire* Justin Izzo examines how twentieth century writers artists and anthropologists from France West Africa and the Caribbean experimented with ethnography and fiction in order to explore new ways of knowing the colonial and postcolonial world Focusing on novels films and ethnographies that combine fictive elements and anthropological methods and modes of thought Izzo shows how empire gives ethnographic fictions the raw materials for thinking beyond empire s political and epistemological boundaries In works by French surrealist writer Michel Leiris and filmmaker Jean Rouch Malian writer Amadou Hamp t B Martinican author Patrick Chamoiseau and others anthropology no longer functions on behalf of imperialism as a way to understand and administer colonized peoples its relationship with imperialism gives writers and artists the opportunity for textual experimentation and political provocation It also Izzo contends helps readers to better make sense of the complicated legacy of imperialism and to imagine new democratic futures

Democracy's Double-Edged Sword Catie Snow Bailard,2014-09-22 As digital media becomes more omnipresent in our lives it becomes ever more important for political scientists and communication scholars to understand its influence on all aspects of the political process from campaigning to governance Catie Snow Bailard seeks to determine the Internet s influence on citizens evaluations of their governments performance particularly whether the Internet influences their satisfaction regarding the quality of democratic practices available in their nation While it is clearly important to understand how the Internet can streamline political organization once people are moved to action the discipline has afforded less attention to whether the Internet influences citizens at this more foundational antecedent stage of political action Bailard originates two theories for democratization specialists to consider mirror holding and window opening Mirror holding explores how accessing the Internet allows citizens to see a more detailed and nuanced view of their own government s performance dirty laundry and all Window opening on the other hand enables those same citizens to see how other governments perform in general particularly in comparison to their own The author offers a theory of the impact of Internet use on evaluations of government as well as tests of that theory at the country and individual levels based on survey data collected in 73 countries and two field experiments conducted in Bosnia Herzegovina and Tanzania *The Cristal Experiment* Armando Navarro,1998-07-15 Amidst the turbulence and militancy of the 1960s and early 1970s the Mexican population of the dusty agricultural town of Crystal City Texas Cristal in Spanish staged two electoral revolts each time winning control of the city council and school board The landmark city council victory in 1963 was a first for Mexican Americans in South Texas and Cristal the spinach capital of the world became for a time the political capital of the Chicano Movement In *The Cristal Experiment* Armando Navarro presents the most comprehensive examination to date of the rise of the Chicano political movement in Cristal its successes and conflicts both internal and external and its eventual decline He

looks particularly at the larger and more successful Second Revolt in 1970 and its aftermath up to 1981 examining the political economic educational and social changes for Mexicanos that resulted Drawing upon nearly 100 interviews a wealth of secondary materials and his own experiences as a political organizer in the Chicano Movement Navarro offers a shrewd and insightful analysis not only of the events in Cristal but also of the workings of local politics generally the politics of community control and the factors inherent in the American political system that lead to the self destruction of political movements As both a political scientist and an organizer he outlines important lessons to be learned from what happened in Cristal and to the Chicano Movement
