**Beyond the Pale** Marc Aronson, 2003 For nearly a decade Marc Aronson ran an imprint dedicated to international and multicultural literature for teens He was known in the industry for publishing edgy books and for his commitment to bringing the experiences of non dominant authors and illustrators to the world Yet in the summer of 2001 he wrote an essay that argued against awards such as the Pure Belpre and Coretta Scott King prizes for which you must be a member of a given ethnic group to win Not surprisingly his article was very controversial and the author and publisher Andrea Davis Pinkney who had created an imprint specifically designed to be of by and for African Americans published a thoughtful reply Here in *Beyond the Pale* Aronson explains the passionate convictions that led him to write his essay and outlines objections made by others then reprints the original alongside Pinkney's response As Aronson prepared a formal response to his critics the attacks of September 11th took place This tragedy simultaneously made a squabble among authors seem petty and the issues around art society and cultural diversity all the more important Throughout 2001 and 2002 Aronson wrote essays in which he weighed out how art history and books for younger readers could respond to the altered world As in his previous collection *Exploding the Myths the Truth About Teenagers and Reading* he exposes the mythologies and false beliefs that distort our understanding of books and their readers Provocative and informative this collection of essays will challenge those who know children's literature well to think in new ways while linking the debates within that industry to the wider intellectual currents of our time

*Chronic Youth* Julie Passanante Elman, 2014-10-20 The teenager has often appeared in culture as an anxious figure the repository for American dreams and worst nightmares at once on the brink of success and imminent failure Spot lighting the troubled teen as a site of pop cultural medical and governmental intervention *Chronic Youth* traces the teenager as a figure through which broad threats to the normative order have been negotiated and contained Examining television popular novels science journalism new media and public policy Julie Passanante Elman shows how the teenager became a cultural touchstone for shifting notions of able bodiedness heteronormativity and neoliberalism in the late twentieth century By the late 1970s media industries as well as policymakers began developing new problem driven edutainment prominently featuring narratives of disability from the immunocompromised *The Boy in the Plastic Bubble* to ABC's *After School Specials* and teen sick lit Although this conjoining of disability and adolescence began as a storytelling convention disability became much more than a metaphor as the process of medicalizing adolescence intensified by the 1990s with parenting books containing neuro scientific warnings about the incomplete and volatile teen brain Undertaking a cultural history of youth that combines disability queer feminist and comparative media studies Elman offers a provocative new account of how American cultural producers policymakers and medical professionals have mobilized discourses of disability to cast adolescence as a treatable condition By tracing the teen's uneven passage from postwar rebel to 21st century patient *Chronic Youth* shows how teenagers became a lynchpin for a culture of perpetual rehabilitation and neoliberal governmentality

Now is an opportune moment to consider the shifts in youth and popular culture that are signalled by texts that are being read and viewed by young people In a world seemingly compromised by climate change political and religious upheavals and economic irresponsibility and at a time of fundamental social change young people are devouring fictional texts that focus on the edges of identity the points of transition and rupture and the assumption of new and hybrid identities This book draws on a range of international texts to address these issues and to examine the ways in which key popular genres in the contemporary market for young people are being re defined and re positioned in the light of urgent questions about the environment identity one's place in the world and the fragile nature of the world itself The key questions are What are the shifts and changes in youth culture that are identified by the market and by what young people read and view How do these texts negotiate the addressing of significant questions relating to the world today Why are these texts so popular with young people What are the most popular genres in contemporary best sellers and films Do these texts have a global appeal and if so why These over arching themes and ideas are presented as a collection of inter related essays exploring a rich variety of forms and styles from graphic novels to urban realism from fantasy to dystopian writing from epic narratives to television musicals The subjects and themes discussed here reveal the quite remarkable diversity of issues that arise in youth fiction and the variety of fictional forms in which they are explored Once seen as not as important as adult fiction this book clearly demonstrates that youth fiction and the popular appeal of this fiction is complex durable and far reaching in its scope
