Qualitative Studies of Exploration in Childhood Education Marilyn Fleer, Mariane Hedegaard, Elin Eriksen Ødegaard, Hanne Værum Sørensen, 2021-10-07 This book uses the concept of exploration as a way of understanding transitions in children between the ages of 5 to 18 years old Written by an international group of scholars from Australia Brazil China Denmark Finland Greenland India Norway and the UK the chapters offer a diverse set of case studies The topics and themes covered include transitions in outdoor playtime the transition to daycare compassion in kindergarten learning with fathers transitions of Chinese traditional culture and disability The chapters are organised into two parts the first part covering macro transitions and the second covering micro genetic transitions The contributors show how both macro and micro genetic transitions influence children s everyday lives and how these different transitions open up new possibilities for play learning and development The contributors draw on Vygotsky s cultural historical theory and the understanding that children s cultural formation takes form in a dialectic relation between children s interests and motives and the institutional settings they participate in

The Exploration of Multilingualism Larissa Aronin, Britta Hufeisen, 2009-10-22 This volume offers an ontogenetic perspective on research on L3 multilingualism and multiple languages acquisition and a conceptually updated picture of multilingualism studies and third multiple language acquisition studies The contributions by prominent scholars of multilingualism present state of the art accounts of the significant aspects in this field This unique collection of articles adopts a broad spectrum and synthesized view on the topic The volume largely theoretical and classificatory features main theories prominent researchers and important research trends The articles also contain factual and historical material from previous and current decades of research and offer practical information on research resources For lecturers students educators researchers and social workers operating in multilingual contexts The Exploration of Multilingualism is manifestly relevant

Data Mining and Exploration Chong Ho Alex Yu, 2022-10-27 This book introduces both conceptual and procedural aspects of cutting edge data science methods such as dynamic data visualization artificial neural networks ensemble methods and text mining There are at least two unique elements that can set the book apart from its rivals First most students in social sciences engineering and business took at least one class in introductory statistics before learning data science However usually these courses do not discuss the similarities and differences between traditional statistics and modern data science as a result learners are disoriented by this seemingly drastic paradigm shift In reaction some traditionalists reject data science altogether while some beginning data analysts employ data mining tools as a black box without a comprehensive view of the foundational differences between traditional and modern methods e g dichotomous thinking vs pattern recognition confirmation vs exploration single method vs triangulation single sample vs cross validation etc This book delineates the transition between classical methods and data science e g from p value to Log Worth from

resampling to ensemble methods from content analysis to text mining etc Second this book aims to widen the learner's horizon by covering a plethora of software tools When a technician has a hammer every problem seems to be a nail By the same token many textbooks focus on a single software package only and consequently the learner tends to fit the problem with the tool but not the other way around To rectify the situation a competent analyst should be equipped with a tool set rather than a single tool For example when the analyst works with crucial data in a highly regulated industry such as pharmaceutical and banking commercial software modules e g SAS are indispensable For a mid size and small company open source packages such as Python would come in handy If the research goal is to create an executive summary quickly the logical choice is rapid model comparison If the analyst would like to explore the data by asking what if questions then dynamic graphing in JMP Pro is a better option This book uses concrete examples to explain the pros and cons of various software applications

The Top Books of the Year Explorations In Social Psychology Readings And Research The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Explorations In Social Psychology Readings And Research : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
