## **Explorations In Theology 1:**

**Explorations in Theology** Dennis E.. Nineham,1977      *Dante in Conversation with Contemporary Theorists* Blaise Cirelli,2024-12-09 Dante's Divine Comedy appears on the reading list of almost every university's Humanities Studies department But often it is thought of as a relic from the past What if instead of considering the Divine Comedy as a historical artifact one engaged the text as a work pertinent to the moment Can we learn anything about our present situation by reading the Divine Comedy Blaise Cirelli brings the Divine Comedy to life by challenging readers to consider how contemporary theorists might question Dante about his work Where would Dante and the theorists agree and where might they disagree And which side might the reader of this text choose This book will both enrich our understanding of Dante's Divine Comedy and challenge us to think afresh about our own beliefs      **Music as Theology** Maeve Louise Heaney,2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney's ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If this is so it is incumbent on the theologian to listen Jeremy Begbie from the Foreword      **Christ and Modernity** David J. Hawkin,Canadian Corporation for Studies in Religion,1985 In this re examination of the roots of the relationship between religion and science David Hawkin focuses on the concept of autonomy as he explores the question Is there continuity and compatibility between the autonomy that underlies Christian faith and the role of individual freedom in the technological age What makes this work particularly valuable is Professor Hawkin's review of the theological philosophical political psychological and sociological works that have formed our ideas of the nature of both Christianity and modernity Reimarus Strauss Schweitzer and Bultmann on the quest for the historical Jesus Bauer and Turner on Christian faith and practice Machiavelli Nietzsche Darwin Freud and Marx on our historicity Gogarten Cox and Bonhoeffer who affirm our autonomy in the technological process Ellul and George who deny it      *The Authority of the Saints* Pauline Dimech,2017-05-18 Pauline Dimech explores whether and to what extent we may attribute authority to the saints but also how we may ensure that it is

the saints and not the scoundrels whose influence persists and whose memory endures The thing that drives her research is the thought that history is full of examples of individuals who held positions of official authority that they did not deserve Dimech is convinced that Hans Urs von Balthasar can help us clarify the issues surrounding the authority of the saints Besides establishing Balthasar's involvement with the enterprise this book tries to establish the theological foundations upon which the authority of the saints would have to be based in theory and possibly already however implicitly based in practice

*My Work* Hans Urs von Balthasar, 1993-01-01 Hans Urs von Balthasar made detailed statements about his work on five occasions mostly on the birthdays that marked the end of a decade of his life as a young author in his desire to lift out of the jumble of history the four or five figures which represent for me the constellation of my idea and my mission as publisher and writer out of concern for the reader and in order to equip this reader with a guide to his own books Then in the midst of the transformations connected with the Council he wrote an Account for himself and his readers about what had been done and what was still required Finally in a kind of pause as one already looking toward the close of his life he gave once again an account of what had been achieved and what could no longer be achieved in a clear shift of emphasis away from his authorship in favor of the pastoral work in the communities which he had founded This present volume is a helpful guide to his many sided work

**Theology and the Social Sciences** Michael Barnes, 2018-05-16 Original essays demonstrate that sociology history anthropology and psychology all leave their mark on theology and open new paths to understanding and that theology in turn provides significant questions and perspectives for the social sciences By providing archeological data sociological theory demographics and economic data psychological insights and new methods of historical interpretation the social sciences can open the way for a more sophisticated understanding of the social nature of human existence Theology challenges the social sciences through moral and transcendental questions as well as informs the social sciences through its larger and deeper perspectives The symbiotic nature of this relationship is described in the lead off essays by John Coleman and Gregory Baum The rich conversation between theologians and sociologists that follows moves from Von Balthasar's use of the social sciences and Rahner's approach to ecumenism to the roles of psychology and neuropsychology in understanding religious events

*Explorations in Anthropology and Theology* American Anthropological Association. Meeting, 1997 The papers in this volume seek to map out the broad areas of anthropology and inspire others to follow with their own contributions

*The Philosophical Frontiers of Christian Theology* Donald MacKenzie MacKinnon, 1982 This book charts some of the frontiers which are of most concern in contemporary discussion regarding the borderlands between theology and philosophy

**Hans Urs von Balthasar and the Critical Appropriation of Russian Religious Thought** Jennifer Newsome Martin, 2015-09-15 In *Hans Urs von Balthasar and the Critical Appropriation of Russian Religious Thought* Jennifer Newsome Martin offers the first systematic treatment and evaluation of the Swiss Catholic theologian's complex relation to modern speculative Russian religious philosophy Her constructive analysis proceeds through Balthasar's critical reception of

Vladimir Soloviev, Nikolai Berdyaev and Sergei Bulgakov with respect to theological aesthetics, myth, eschatology and Trinitarian discourse and examines how Balthasar adjudicates both the possibilities and the limits of theological appropriation especially considering the degree to which these Russian thinkers have been influenced by German Idealism and Romanticism. Martin argues that Balthasar's creative reception and modulation of the thought of these Russian philosophers is indicative of a broad speculative tendency in his work that deserves further attention. In this respect, Martin consciously challenges the prevailing view of Balthasar as a fundamentally conservative or nostalgic thinker. In her discussion of the relation between tradition and theological speculation, Martin also draws upon the understudied relation between Balthasar and F. W. J. Schelling especially as Schelling's form of Idealism was passed down through the Russian thinkers. In doing so, she persuasively recasts Balthasar as an ecumenical, creatively anti-nostalgic theologian hospitable to the richness of contributions from extra-magisterial and non-Catholic sources.

**An Exploration of Christian Theology** Don Thorsen, 2020-04-21 This introduction to Christian theology explores the whole Christian tradition in a simple and straightforward way. Leading Wesleyan theologian Don Thorsen surveys the theological views represented within historic Christianity and discusses the variety of positions held without favoring one over another. The book includes helpful end-of-chapter questions for further reflection and discussion, a convenient glossary of theological terms and sidebars. The second edition is marked by a thorough updating of the text and the addition of two new chapters on apologetics and the future of the unevangelized.

**The Eschatology of Hans Urs Von Balthasar** Nicholas J. Healy, 2005-06-09 A helpful guide to the writings of perhaps the greatest Catholic theologian of the twentieth century, Healy shows how, for Balthasar, the ultimate form of the end is given in Christ's eucharistic and pneumatic gift of himself, a gift that simultaneously lays bare the mystery of God's trinitarian life and enables Christ to return to the Father in communion with the whole of creation.

**Gathered on the Road to Zion** Daniel Lee Hill, 2021-04-26 Churches are filled with human beings. It is as a community of human creatures that the church gathers together on Sunday mornings to worship the triune God, and it is as a community of creatures that its members participate in the church's liturgical life. However, merely noting that the church and human beings are related to one another leaves the nature of this relationship unresolved and undefined. And this raises an important question: How should the doctrine of the church inform our understanding of what it means to be human? This project is an exercise in ecclesio-anthropology, albeit from a Free Church perspective. In it, Daniel Lee Hill seeks to discover how the nature, practices, mission, and telos of the church robustly inform our understanding of the human creature.

**Models for Scripture** John Goldingay, 2024-09-30

**Explorations in Analytic Ecclesiology** Joshua Cockayne, 2023-01-06 In the first book-length study of ecclesiology in analytic theology, Joshua Cockayne offers a vision of the Church according to which the Church is united as the body of Christ through the work of the Holy Spirit despite the apparent diversity of the Church in its gathered particular forms.

**Balthasar at End of Modernity**, 1999-01-01 With a Foreword by Fergus Kerr and an Afterword by Rowan Williams.

an age when theology appears fragmented as never before this volume intends to show how von Balthasar is one of the very few contemporary theologians to have demonstrated how the patterns and resources of the Christian tradition have extraordinary pertinence today The authors represent a new generation of Anglican theologians sympathetic to von Balthasar's thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues The authors represent the Radical Orthodoxy movement in Anglican theology and are sympathetic to von Balthasar's thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues

A Poor and Merciful Church Ilo, Stan Chu, 2018 This important text addresses three key questions which face modern Catholicism especially in Africa What is the ecclesiology of Pope Francis How does this ecclesiology meet the challenges facing the universal church in today's complex world And how can one translate the practices of this new approach into a theological aesthetics to meet the challenges and opportunities of the African social context

*The Primacy of God: The Virtue of Religion in Catholic Theology* R. Jared Staudt, 2022-02-08 To contemporary minds the notion of justice toward God is seldom considered and often foreign Far more discussed is how God might either undermine or motivate social justice The Primacy of God by R Jared Staudt offers an important intervention With the aid of St Thomas Aquinas Staudt argues that it is vital for both contemporary society and contemporary Catholic theology to return to the traditional view of God as the one to whom all human and social action must be ordered and to recover the virtue of religion as the virtue which orders all other virtues to God Not only does Staudt helpfully remind readers of the ancient philosophical and biblical notion of worship as a dictate of the natural law he also illuminates the way in which Christian liturgy as an enactment of Christ's high priesthood is the great fulfillment of natural and biblical worship Accordingly Staudt secures religion as essential for the virtue of love This brings Staudt to criticize modern theologians like Karl Barth who claimed that religion is inherently idolatrous as well as Karl Rahner who claimed that love of neighbor is the highest moral act Staudt also considers the question of religious truth in light of the plurality of religions soliciting the assistance of Hans Urs von Balthasar and Joseph Ratzinger as well as the way in which religion relates to the development of culture engaging the great Catholic social historian Christopher Dawson The Primacy of God is a much needed work that ought to set the agenda for Catholic theology in the twenty first century

*The Catholicity of Reason* D. C. Schindler, 2013-08-11 An original argument for the recovery of a robust notion of reason and truth in response to modern rationalism and postmodern skepticism The Catholicity of Reason explains the grandeur of reason the recollection of which Benedict XVI has presented as one of the primary tasks in Christian engagement with the contemporary world While postmodern thinkers religious and secular alike have generally sought to respond to the hubris of Western thought by humbling our presumptuous claims to knowledge D C Schindler shows in this book that only a robust confidence in reason can allow us to remain genuinely open both to God and to the deep mystery of things Drawing from both contemporary and classical theologians and philosophers Schindler explores the basic

philosophical questions concerning truth knowledge and being and proposes a new model for thinking about the relationship between faith and reason The reflections brought together in this book bring forth a dramatic conception of human knowing that both strengthens our trust in reason and opens our mind in faith     *Foundations for Sociorhetorical Exploration* Vernon K. Robbins, Robert H. von Thaden Jr., Bart B. Bruehler, 2016-09-02 Engaging resources for understanding the importance of bodies and spaces in producing and interpreting persuasive language This volume collects essays that represent intellectual milestones that are informing sociorhetorical interpretation during the twenty first century The essays are arranged into five parts 1 Topos 2 Cultural Geography and Critical Spatiality 3 Rhetorolects and Conceptual Blending 4 Rhetography and 5 Rhetorical Force Features Tools for integrating multiple approaches to biblical interpretation Resources that emphasize the importance of language that prompts mental pictures in effective rhetoric Essays from classicists rhetoricians and biblical scholars
