Explorations The Visual Arts Since 1945:

Explorations Katherine Hoffman, 1991-04-02 Each chapter includes discussion of painting printmaking photography sculpture architecture and multimedia and intermedia within a different era France and the Visual Arts Since 1945 Catherine Dossin, 2019-01-01 Taking on the myth of France's creative exhaustion following World War II this collection of essays brings together an international team of scholars whose research offers English readers a rich and complex overview of the place of France and French artists in the visual arts since 1945 Addressing a wide range of artistic practices spanning over seven decades and using different methodologies their contributions cover ground charted and unknown They introduce greater depth and specificity to familiar artists and movements such as Lettrism Situationist International or Nouveau Réalisme while bringing to the fore lesser known artists and groups including GRAPUS the Sociological Art Collective and Nicolas Schffer Collectively they stress the political dimensions and social ambitions of the art produced in France at the time deconstruct the traditional geography of the French art world and highlight the multiculturalism of the French art scene that resulted from its colonial past and the constant flux of artistic travels and migrations Ultimately the book contributes to a story of postwar art in which France can be inscribed not as a main or sub chapter but rather as a vector in the wider constellation of modern and contemporary art

Concepts Of Identity Katherine Hoffman, 2018-10-08 Concepts of identity are complex and changing and in this book Katherine Hoffman examines images of individuals and families from ancient Egypt to the present more than two thirds of the book covers the twentieth century Through a comprehensive study of paintings sculpture photography film television and other media Hoffman provides eye opening

When the Machine Made Art Grant D. Taylor, 2014-04-10 Considering how culturally indispensable digital technology is today it is ironic that computer generated art was attacked when it burst onto the scene in the early 1960s In fact no other twentieth century art form has elicited such a negative and hostile response When the Machine Made Art examines the cultural and critical response to computer art or what we refer to today as digital art Tracing the heated debates between art and science the societal anxiety over nascent computer technology and the myths and philosophies surrounding digital computation Taylor is able to identify the destabilizing forces that shape and eventually fragment the computer art movement

The Paintings of Joan Mitchell Jane Livingston, Joan Mitchell, Linda Nochlin, Yvette Y. Lee, 2002 This exquisitely illustrated volume and the exhibition that it accompanies restore Joan Mitchell to her rightful place in the history of American artists one of the few women among the first rank Abstract Expressionist painters 145 illustrations 85 in color

Henri Michaux Nina Parish, 2007 Henri Michaux is both a recognised poet and visual artist arguably one of the greatest double artists of the twentieth century This book presents the first detailed examination of a particular interdisciplinary aspect of his production namely the innovative experimentation with signs contained in four works *Mouvements Par la voie des rythmes Saisir* and *Par des traits* Questions arise concerning their literary and visual status as in their attempt to render interior rhythm and dynamism they

occupy an interstitial space between writing and drawing between the book and the canvas between the Western alphabet and Chinese characters This study addresses these questions by analysing the conception production and reception of Michaux's signs and the literary and artistic contexts in which they were produced

The World of Quantum Culture

Manuel J. Caro, 2002-07-30 Caro and Murphy introduce the philosophy of Quantum Aesthetics a theoretical framework developed by Spanish language theorists that has spread throughout the world in the last three years to an English speaking audience In order to achieve this writers from around the world were asked to either apply quantum aesthetics philosophy to their respective areas of study or write about their current work within this theoretical framework Chapters are devoted to the history of quantum aesthetics quantum art quantum literature quantum politics quantum anthropology and so forth In the end the general elements of a quantum culture are outlined and the differences that this culture shows with respect to old conceptualizations of this domain are explained With respect to the field of cultural studies this new approach to cultural analysis changes how societies can be investigated as well as provides cultural studies with a more comprehensive and integrated framework Specifically noteworthy is that quantum aesthetics is less reductionistic than research strategies of the past A provocative collection for scholars students and other researchers involved with the sociology of culture cultural studies social philosophy and sociological theory

Sculpture Off the Pedestal Joan B. Altabe, Joan B. Altabae, 2010-08

Sculpture Off the Pedestal is a behind the scenes look at the creative process of 25 leading sculptors from the Renaissance to the present through their own words or those who knew them Aiming to avoid dry as dust art histories *Sculpture Off the Pedestal* puts old and modern master sculptors by the reader's side emptying their heads about their work and their ways of thinking The book is intended not only for the art student or art lover but also for the untutored and those who think of art as a remote subject Most art histories focus on painting Chronicling the lives of sculptors in and out of their studios fills a gap

Moveable Feasts Sarah Murray, 2008-10-28 Today the average meal has traveled thousands of miles before reaching the dinner table How on earth did this happen In fact long distance food is nothing new and since the earliest times the things we eat and drink have crossed countries and continents Through delightful anecdotes and astonishing facts *Moveable Feasts* tells their stories

The Gothic Image Emile Male, 2018-02-20 Emile Male's book aids understanding of medieval art and medieval symbolism and of the vision of the world which presided over the building of the French cathedrals It looks at French religious art in the Middle Ages its forms and especially the Eastern sources of sculptural iconography used in the cathedrals of France Fully illustrated with many footnotes it acts as a useful guide for the student of Western culture

American Artists On Art Ellen Johnson, 2018-02-20 From the Preface The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in but does not explain the increasing amount of writing and talking on the part of contemporary artists Rather the whole history of the changing role of art and artists in a democratic industrial and technological society stands behind the spate of artists' words and the public's hunger for them

even some of the general public out there beyond art's little circle. Statements by artists appeal somewhat the way drawings do; they bring us or at least they hold the promise of bringing us closer to the artist's thoughts and feelings and to an understanding of his or her *modus operandi*; they hold the keys to a mysterious realm. And sometimes they offer us the sheer pleasure of good reading. Such is the primary *raison d'être* of this book. Its other motivation is educational and stems from the frustrating lack in teaching contemporary art of any single compilation of statements by American artists from 1940 to the present. This anthology differs in several respects from those others that do include documents of American art since 1940. The selection I have made is devoted exclusively to statements of artists; it is limited to the last four decades; it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism and whenever possible it cites the first or among the very earliest documents signaling a shift in the definition, intent, or direction of art.

The Renaissance Artist At Work Bruce Cole, 2018-02-02. This book gives the necessary background for the study and appreciation of Italian painting and sculpture from about 1250 to 1550. It tells how the artists learned their craft, the organization of their workshops and the guilds they belonged to, how their customers or patrons treated them, and where their work was displayed: churches, civic buildings, or private homes. The book discusses how art was made: tempera, oil, panel, canvas, fresco. It surveys the characteristic types of Renaissance art: altarpieces, portraits, tombs, busts, doors, fountains, medals, etc.

Native Arts Of North America, Africa, And The South Pacific George A. Corbin, 2018-05-04. This introduction to the art of tribal peoples of North America, Africa, and the South Pacific does not briefly cover the hundreds of artistic traditions in these three vast areas but rather studies in depth thirty-six art styles within all three areas using the methods of art history, including stylistic analysis and iconographic interpretation. Emphasis is on the art in cultural context and as a system of visual communication within each tribal area. Where appropriate for a more complete understanding of the art, data from archaeology, ethnology, linguistics, religion, and other humanistic disciplines are included. Among the peoples and cultures whose art is studied are the Haida, Kwakiutl, and Tlingit; the Hohokam and Mogollon; the Anasazi and Hopi; the Dogon and Bamana of Mali; the Asante of Ghana; the Benin, Yoruba, and Ibo of Nigeria; the Fan; the Bamum; and the Kuba of Central Africa. Australian aboriginal and Island New Guinea art; Island Melanesia art; central and eastern Polynesia; Hawaii; and the Maori in Marginal Polynesia. The format of the text and selected illustrations is based on seventeen years of teaching African, North American, Indian, and South Pacific art to undergraduate and graduate students at Herbert H. Lehman College, CUNY New York University, and Columbia University. The book is intended for art history and anthropology students and the interested lay reader or collector. The detailed notes at the end of the book are for further study, research, and understanding of the tribal art style under discussion.

Renaissance And Renascences In Western Art Erwin Panofsky, 2018-05-04. Renaissance and Renascences in Western Art spans the period from the 10th to the 15th century, including discussion of the Carolingian Renaissance and the 12th-century proto-Renaissance. Erwin Panofsky posits that there

were renaissances prior to the widely known Renaissance that began in Italy in the 14th century Whereas earlier renaissances can be classified as revivals the Renaissance was a unique instance that led to a wider cultural transformation

Art And Architecture In Medieval France Whitney S. Stoddard,2018-02-20 This is an English language study on the architecture and art of medieval France of the Romanesque and Gothic periods between 1000 1500 In addition to essays on individual monuments there are general discussions of given periods and specific problems such as why did Gothic come into being Whitney Stoddard explores the interrelationship between all forms of medieval ecclesiastical art and characterization of the Gothic cathedral which he believes to have an almost metaphysical basis

Perspectives On Western Art Linnea Wren,2018-02-22 This anthology of readings related to Western art history explains specific works of art illustrated in Janson s History of Art and De la Croix and Tansey s Gardner s Art Through the Ages in terms of the ideas beliefs and concerns of the people and cultures who created the art It brings a new understanding of art because it shows the social and cultural basis of major works of art through history The ten sections are Ancient Near East Egyptian Aegean Greek Etruscan Roman early Christian Byzantine and Islamic early Medieval Romanesque and Gothic The readings have been drawn from many areas of intellectual and social history including religion philosophy literature science economics and law Each selection is preceded by an introductory note which discusses the readings in terms of its subject and theme its source and usage and its relevance to the study of the work of art
