Social Studies Materials and Resources Data Book ,1979 **God's Image and Global Cultures** Kenneth Nehrbass,2016-08-26 Globalization has raised numerous questions about theology and culture for Christians How should we respond to outsourcing and immigration How does anti Western sentiment affect the proclamation of the gospel What is the role of the church in society This book argues that Christians will be most fulfilled and most effective if they embrace their cultural activity rather than feel ambivalent about it The central question of this book is how does bearing God s image relate to cultural activity Nehrbass explains that spheres of culture such as political technological and social structures are systems that God has instilled in humans as his image bearers so that they can glorify and enjoy him forever Therefore a theology of culture involves recognizing that the kingdom of God encompasses heaven and Earth rather than pitting heaven against Earth The text surveys anthropological explanations for humanity s dependence on culture and shows that each explanation provides only partial explanatory scope The most satisfying explanation is that a major functional aspect of bearing God s image is engaging in culture since the Trinity has been eternally engaged in cultural functions like ruling communicating and creating Each chapter contains a summary and questions about what it means to be a world changer in the twenty first century

Literacy, Libraries and Learning Ray Doiron,Marlene Asselin,2005 The school library has changed dramatically Today it is a portal to a world of learning that includes traditional books digital resources and online environments As the importance of information and communication technologies grows teachers and teacher librarians hold the key to creating powerful learning opportunities that help students function more effectively This comprehensive guide discusses the changing responsibilities of classroom teachers and teacher librarians in helping students become better readers writers and researchers It offers suggestions for re inventing the school library by offering a better and more current selection of resources instilling students with the reading habit and supporting them in these key areas promoting reading for learning and pleasure improving critical literacy skills when using information from many sources encouraging research methods that respect copyright and lead to original work designing information tasks to help students work effectively with data developing better informational text structures that increase comprehension encouraging the integration of emerging technologies and traditional resources Literacy Libraries and Learning argues that using diverse learning resources can improve literacy achievement It shows teachers and teacher librarians how to turn their schools into first rate learning environments and their students into lifelong learners
