Exploring The Labyrinth Making Sense Of The New Spirituality:

Exploring the Labyrinth Nevill Drury, 1999 For the initiated Exploring the Labyrinth provides a much needed context and history for their spiritual practices and beliefs for the novice it introduces a rich and exciting world of new spiritual research and experimentation for the sceptic it offers an overview of the respectable philosophical and scientific traditions that form the basis of the new spirituality Oxford Textbook of Spirituality in Healthcare Mark Cobb, Christina Puchalski, Bruce Rumbold, 2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource *Mary Magdalene from the New Testament to the New Age and Beyond* Edmondo F. Lupieri, 2019-10-14 An international team of twenty scholars under Edmondo F Lupieri s direction produced *Mary Magdalene from the New Testament to the New Age and Beyond* While the historical figure of the Magdalene may be lost forever the construction of her literary images and their transformations and adaptations over the centuries are a lively testimony to human creativity and faith Different pictures of Mary travelled through time and space from history to legend and mythology crossed religious boundaries going beyond the various Christianities to become a sign of contradiction for many This book describes a special case of biblical reception history that of the New Testament figure of a woman whose presence at the side of Jesus has been disturbing for some but proves to be inspiring for others **The Spirituality Revolution** David John Tacey, 2004 The Spirituality Revolution addresses the major social issue of spirituality which requires immediate attention if we are to creatively respond to spiralling outbreaks of depression suicide addiction and psychological suffering Rethinking Religion in the Theatre of Grotowski Catharine Christof, 2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski s work The central argument is that through an embodied materialist

approach to religion and through a critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be developed This is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski s work **The Dictionary of the Esoteric** Nevill Drury,2004-01-01 With over 3000 cross referenced entries this is an invaluable reference to the mystical and esoteric traditions It gives succinct definitions in the fields of magic hermeticism alchemy spiritualism parapsychology eastern and western mysticism mind and consciousness research divination tarot and a variety of less well known subjects It also features biographies of leading figures in the field with details of their lives philosophies and writings from astrologer Evangeline Adams to the prophet Zarathustra **False Dawn** Lee Penn,2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In *The Reign of Quantity and the Signs of the Times* French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left *False Dawn* painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of

Jung and the New Age David John Tacey, 2001 David Tacey offers a theoretical and philosophical account of the New Age phenomenon and the archetypal imperatives that have brought it about *Educating for Meaningful Lives* Scott Webster, 2009-01-01 Why are students becoming disengaged from schooling Many teachers administrators and designers of policy and curriculum are expressing concern over this issue Current approaches to schooling are dominated by a perceived need to enable learners to particulate in the knowledge economy Both knowledge and learning how to learn knowledge have become the primary discourses in schooling rather than education School curricula rarely offer any sense of personal significance and for many learners such an approach to the curriculum is meaningless Educating for meaningful lives must be a central aim for educative curricula This book offers curriculum designers and teachers a greater understanding of this relation that education has with living significantly meaningful lives and it does so through the notion of existential spirituality Spirituality is not to be reduced to something religious but rather pertains to how a life is lived An existential perspective enables the meaningfulness of life to provide the necessary significance which is required of a curriculum if it is to be understood as offering personal meaning for learners Approaching the design and teaching of curricula through this perspective of existential spirituality enables learners to live a meaningful life in an uncertain world **America's**

Refiguring Identity in Corporate Times David Vella, 2023-04-01 Refiguring Identity in Corporate Times is aimed as a

response to the narcissistic life strategies promoted by the marketplace It introduces an identity model that ensures a more inclusive ethical and authentic way of living ones own life script We live in a culture that requires us to create our own self interpretation Claiming to assist us in this mission are self professed experts and the public media that offer life strategies for adoption to which it is all too easy to conform to in hyper capitalized and consumerist societies Among the most popular are fashion entrepreneurship travel fitness and self spirituality which are designed by corporate companies for instant appeal and feelgood results expressing the consumerist religion of hedonistic narcissism and status The possibility of an alternative identity for todays society that is based on the experience of conscience sees our self realization as intimately related to care for others and the advancement of political and civic institutions To aspire for this identity model is to move from the distorted values of commercial life strategies to five virtues The virtues enable us to attune to what is singularly foreign in any experience signalling ways how our worldview can become more inclusive ethical and insightful in its comprehension of existence This key reading in Identity Studies provides insight into the psychology and behaviour endorsed by consumer culture charts out a new understanding of virtue ethics and promotes life choices that steers consumers away from conformity in its capacity to stimulate the creation of a personal and authentic vision of life that involves others and societal institutions

Gods in America Charles L. Cohen, Ronald L. Numbers, 2013-09-19 Religious pluralism has characterized America almost from its seventeenth century inception but the past half century or so has witnessed wholesale changes in the religious landscape Gods in America brings together leading scholars from a variety of disciplines to explain the historical roots of these phenomena and assess their impact on modern American society

Cultural Perspectives on Globalisation and Ireland Eamon Maher, 2009 In the space of a few short decades Ireland has become one of the most globalised societies in the Western world The full ramifications of this transformation for traditional Irish communities religious practice economic activity as well as literature and the arts are as yet unknown What is known is that Ireland s largely unthinking embrace of globalisation has at times had negative consequences Unlike some other European countries Ireland has eagerly and sometimes recklessly grasped the opportunities for material advancement afforded by the global project This collection of essays largely the fruit of two workshops organised under the auspices of the Humanities Institute of Ireland at University College Dublin and the National Centre for Franco Irish Studies in the Institute of Technology Tallaght explores how globalisation has taken such a firm hold on Irish society and provides a cultural perspective on the phenomenon The book is divided into two sections The first examines various manifestations of globalisation in Irish society whereas the second focuses on literary representations of globalisation The contributors acknowledged experts in the areas of cultural theory religion sociology and literature offer a panoply of viewpoints of Ireland s interaction with globalisation

Ireland's New Religious Movements Olivia Cosgrove, Laurence Cox, Carmen Kuhling, 2010-10-12 Until recently Irish religion has been seen as defined by Catholic power in the South and sectarianism in the North In recent years however both

have been shaken by widespread changes in religious practice and belief the rise of new religious movements the revival of magical devotionalism the arrival of migrant religion and the spread of New Age and alternative spirituality This book is the first to bring together researchers exploring all these areas in a wide ranging overview of new religion in Ireland Chapters explore the role of feminism Ireland as global Celtic homeland the growth of Islam understanding the New Age evangelicals in the Republic alternative healing Irish interest in Buddhism channelled teachings and religious visions This book will be an indispensable handbook for professionals in many fields seeking to understand Ireland's increasingly diverse and multicultural religious landscape as well as for students of religion sociology psychology anthropology and Irish Studies Giving an overview of the shape of new religion in Ireland today and models of the best work in the field it is likely to remain a standard text for many years to come

Hidden Gospels Philip Jenkins, 2002-12-05 This incisive critique thoroughly and convincingly debunks the claims that recently discovered texts such as the Gospel of Thomas the Gospel of Mary and even the Dead Sea Scrolls undermine the historical validity of the New Testament Jenkins places the recent controversies surrounding the hidden gospels in a broad historical context and argues that far from being revolutionary such attempts to find an alternative Christianity date back at least to the Enlightenment By employing the appropriate scholarly and historical methodologies he demonstrates that the texts purported to represent pristine Christianity were in fact composed long after the canonical gospels found in the Bible Produced by obscure heretical movements these texts have attracted much media attention chiefly because they seem to support radical feminist and post modern positions in the modern church Indeed Jenkins shows how best selling books on the hidden gospels have been taken up by an uncritical drama hungry media as the basis for a social movement that could have powerful effects on the faith and practice of contemporary Christianity

After the New Age Steven H. Propp, 2008-12-16 Its 1976 and Janet Tanhurst is a teenager who feels stifled by life with her strict mother and the authoritarian church she must attend Once out of high school however Janet is initiated into a fascinating new world of Astrology Tarot cards and Spirit Mediums Next she encounters the mysterious world of UFOs a bewildering and sometimes frightening realm encompassing ancient astronauts alien abductions and shadowy government conspiracies As the 1980s arrive the Christian dominated Piscean Age seems to be giving way to a long anticipated Aquarian Age with its hope for a coming revolution in higher consciousness There are new paradigms in philosophy and science promoting a holographic conception of the universe as engaged in a Cosmic Dance along with the emergence of an introspective type of instrumental music known as New Age With the help of bookstore owner Whisper Wynn Janet investigates subjects such as reincarnation quartz crystals chakras and the human aura in addition to an exciting new form of spiritual teaching called channeling Following movement leaders including Shirley MacLaine and Marianne Williamson studying enigmatic teachers like G I Gurdjieff and Carlos Castaneda and inspired by medical doctors such as Deepak Chopra and Andrew Weil she learns about Alternative Medicine and Holistic Health as well as traditional health practices from China Japan and India She

assimilates wisdom from the ancient Celts along with rituals from contemporary Goddess worshippers in formulating her own unique concept of the Divine that is within us all Ascend with Light Amethyst Freeman, 2010-03-04 Ascend with Light is a culmination of 40 years of one woman's search for truth behind existence. It explains the physical and metaphysical importance of light in our lives for healing, anti-aging, ascension on a personal and planetary level, as well as discussing other spiritual and metaphysical topics such as prophecy, a new earth, and raising your light quotient. It has an extensive section on healing and co-operating with the Archangels and Angels in our everyday lives, and it explains some biblical sayings in a contemporary spiritual context. Its main purpose is for personal empowerment and to help people connect with their own source of light within.

The Sign of the Witch David Waldron, 2008 The witch is a uniquely powerful image in Western society. It is a symbol alternately vilified, ridiculed, and idealised by differing sectors of society and is a powerful symbol in Western mythology. This book traces the evolution of the modern representations of Witchcraft and Paganism from the popular imaginings of witchcraft in 16th century England to their contemporary manifestations amongst neo-Pagan and Wiccan religious movements in America, Australia, and Great Britain today. Tracing how this symbol is continually constructed and reconstructed by the neo-Pagan movement is indicative of broader social, political, and cultural issues arising out of the interaction of Romantic and Enlightenment epistemes in Western society. Central to this process is the locating of representations of witchcraft within the twin discourses of romanticism and enlightenment/modernity. Beginning with the aftermath of the English witch hunting craze of the 17th century, the book examines how the witch transformed from a symbol of ridicule during the enlightenment to an idealised symbol of romantic rebellion, which led to its systemic adoption by romantic religious and political movements. Along the path, it examines the development of the neo-Pagan movement from 19th century Romantic pagan revivals to Gardner's Wiccan movement, the sixties counter culture, the rise of eco-feminist neo-Paganism, and the contemporary phenomena of teen witches and pop commercialization. This book is part of the Ritual Studies Monograph Series, edited by Pamela J. Stewart and Andrew Strathern, Department of Anthropology, University of Pittsburgh. Modern Paganism is still in the process of finding its history. Dr. Waldron brings to the quest a very wide knowledge of all aspects of the subject and a good grasp of cultural theory. He is fair to all the players in a notoriously complex and fractious field and covers it deftly and evenly, deploying his learning and his intellectual models with a light but sure touch. Ronald Hutton, Professor of Historical Studies, Bristol University. Waldron's identification and critique of the core aspects of the modern Witch's identity provide what should be seen as an invitation for practitioners to remove our rose-coloured glasses, approach to our own history, and instead to take on board the results of rigorous investigation. For the general public, by whom Witches are so often misunderstood, an academic

examination of the movement can only enhance the likelihood of tolerance and understanding that are the essence of religious pluralism Caroline Tully Witchcraft Magazine David Waldron has done the scholarly community neo Pagans and anyone interested in the study of neo Paganism and Witchcraft a great service with this volume In addition to its historical cultural and social overview of the subject matter it makes for an interesting study in the construction of identities and symbolism within witchcraft I highly recommend this book John W Morehead Senior Editor Sacred Tribes Journal and Director Western Institute for Intercultural Studies Waldron does an excellent job of summarizing the history of the English witch trials their end and the development and commercialization of the witchcraft and Pagan movements The book will be useful for those who want to begin exploring that history as well as to scholars of ideas who want to consider and investigate his basic thesis of the relationship between the Romantic and the Enlightenment epistemes Helen A Berger West Chester University Journal for the Scientific Study of Religion
