James G. Moore, 2000-03-01 Written for the general reader with an interest in geology natural history and the early explorations of the highest part of California s Sierra Nevada range this book is also an indispensable guide for visitors to Sequoia and Kings Canyon National Parks and adjacent areas Maps photographs and geologic guides help visitors understand the formation of the awesome natural features before them The region was one of the last parts of the United States to be explored and it was only during the Civil War that the first scientific party attempted a reconnaissance map of the region They discovered in the process that it included the highest mountain then in the United States Mount Whitney The book describes the arduous travels of the early explorers including John C Fremont and John Muir and weaves the history of exploration together with modern geologic concepts to show the early naturalists contributions to geologic thought Throughout all terms that may be unfamiliar to non geologists are simply and succinctly defined and the book is richly punctuated with anecdotes tales myths and biographical sketches of colorful characters associated with the region The book is illustrated with some 224 early etchings and maps modern photographs and diagrams including 44 maps that incorporate 12 historical charts dating back to the earliest explorations A series of 15 maps in color of the region encompassing the parks

all at the same scale feature such diverse aspects as the trails pioneered by John Muir the extent of glacial ice during the Ice Age and the location of geologic faults and epicenters Geologic guides for the region s principal roads and trails define the mileage of all lookouts and points of interest so that the visitor can examine the described features at first hand The southern half more than 100 miles of the John Muir trail lies within the region and the book includes a geologic guide to this high altitude wilderness trail

David Brower Tom Turner,2015-10-01 In this first comprehensive authorized biography of David Brower a dynamic leader in the environmental movement over the last half of the twentieth century Tom Turner explores Brower s impact on the movement from its beginnings until his death in 2000 Frequently compared to John Muir David Brower was the first executive director of the Sierra Club founded Friends of the Earth and helped secure passage of the Wilderness Act among other key achievements Tapping his passion for wilderness and for the mountains he scaled in his youth he was a central figure in the creation of the Point Reyes National Seashore and of the North Cascades and Redwood national parks In addition Brower worked tirelessly in successful efforts to keep dams from being built in Dinosaur National Monument and the Grand Canyon Tom Turner began working with David Brower in 1968 and remained close to him until Brower s death As an insider Turner creates an intimate portrait of Brower the man and the decisive role he played in the development of the environmental movement Culling material from Brower s diaries notebooks articles books and published interviews and conducting his own interviews with many of Brower s admirers opponents and colleagues Turner brings to life one of the movement s most controversial and complex figures
