story of Wessex s roads in the early medieval period at the point at which they first emerge in the historical record This is the  
age of the Anglo Saxons and an era that witnessed the rise of a kingdom that was taken to the very brink of defeat by the  
Viking invasions of the ninth century It is a period that goes on to become one within which we can trace the beginnings of  
the political entity we have come to know today as England In a series of ten detailed case studies the reader is invited to  
consider historical and archaeological evidence alongside topographic information and ancient place names in the  
reconstruction of the networks of routeways and communications that served the people and places of the Anglo Saxon  
kingdom of Wessex Whether you were a peasant pilgrim drover trader warrior bishop king or queen travel would have been  
fundamental to life in the early middle ages and this book explores the physical means by which the landscape was  
constituted to facilitate and improve the movement of people goods and ideas from the seventh through to the eleventh  
centuries What emerges is a dynamic web of interconnecting routeways serving multiple functions and one perhaps even  
busier than that in our own working countryside A narrative of transition one of both of continuity and change provides a  
fresh and alternative window into the everyday workings of an early medieval landscape through the pathways trodden over

History of Criminal Justice in England and Wales traces for the first time the genesis and early evolution of two principal institutions in the criminal justice system the Crown Court and the Crown Prosecution Service This volume examines the origins and shaping of two critical institutions the Crown Court which rose from the ashes of the Courts of Assize and Quarter Sessions and the Crown Prosecution Service which replaced a rather haphazard system of police prosecuting solicitors The 1971 Courts Act and the 1985 Prosecution of Offences Act were to reconfigure the architecture of criminal justice transforming the procedures by which people were charged prosecuted and in the weightier cases demanding a judge and jury tried in the criminal courts of England and Wales One stemmed from a crisis in a medieval system of travelling justices that tried people in the wrong places and for inadequate lengths of time The other was precipitated by a scandal in which three men were wrongly convicted for the murder of a bisexual prostitute Theirs is an as yet untold history that can be explored in depth because it is recent enough in the words of Harold Wilson to have been written while the official records could still be supplemented by reference to the personal recollections of the public men who were involved This book will be of much interest to students of criminology and British history politics and law
