Exploring Unification Theology:

Exploring Unification Theology M. Darrol Bryant, Susan Hodges, 1978 **The Future of New Religious Movements** David G. Bromley, Phillip E. Hammond, New Ecumenical Research Association (Unification Theological Seminary), 1987 **A Historical Introduction to the Study of New Religious Movements** W. Michael Ashcraft, 2018-02-02

The American public's perception of New Religious Movements (NRMs) as fundamentally harmful cults stems from the anticult movement of the 1970s which gave a sometimes hysterical and often distorted image of NRMs to the media. At the same time academics pioneered a new field studying these same NRMs from sociological and historical perspectives. They offered an interpretation that ran counter to that of the anticult movement. For these scholars in the new field of NRM studies NRMs were legitimate religions deserving of those freedoms granted to established religions. Those scholars in NRM studies continued to evolve methods and theories to study NRMs. This book tells their story. Each chapter begins with a biography of a key person involved in studying NRMs. The narrative unfolds chronologically beginning with late nineteenth and early twentieth century perceptions of religions alternative to the mainstream. Then the focus shifts to those early efforts in the 1960s and 1970s to comprehend the growing phenomena of cults or NRMs using the tools of academic disciplines. The book's midpoint is a chapter that looks closely at the scholarship of the anticult movement and from there moves forward in time to the present highlighting themes in the study of NRMs like violence, gender, and reflexive ethnography. No other book has used the scholars of NRMs as the focus for a study in this way. The material in this volume is therefore a fascinating viewpoint from which to explore the origins of this vibrant academic community as well as analyse the practice of Religious Studies more generally.

New Religions and the Theological Imagination in America Mary Farrell Bednarowski, 1989-11-22

Bednarowski is especially good at elucidating the theological daring of these new American religions. She demonstrates in a very few pages how theology and group adherence made the individual count a configuration simultaneously American, un-American, and important. Jon Butler: The cultural confrontation with these new religions is very real and usually very misinformed. Bednarowski has gone to great lengths to dispel the ignorance. *The Christian Century*: A groundbreaking study. *Syzygy Journal of Alternative Religion and Culture*: Organized as a series of theological conversations about ultimate questions, this book offers a guide to the answers these six religions offer. Drawing heavily on sources from the movements themselves, it presents a balanced comparative account of the emerging theological systems of America's new religions.

Passport to Heaven (RLE Women and Religion) Kathleen S. Lowney, 2014-10-03

This book focuses on the gender roles within the Unification Church and on particularly the gender roles as expressed through the vows of marriage. It examines the more widely shared patriarchal assumptions about women in a circumscribed socio-religious environment with the Church's gender role system being investigated largely on the level of its theological explanations for gender roles. The Church's ethos, its lived reality, is also examined and for this many interviews have been conducted with the blessed the
