[Exporting American Architecture 1870-2000](#) Jeffrey W. Cody, 2005-06-27 The export of American architecture began in the nineteenth century as a disjointed set of personal adventures and commercial initiatives It continues today alongside the transfer of other aspects of American life and culture to most regions of the world Jeffrey Cody explains how why and where American architects planners building contractors and other actors have marketed American architecture overseas In so doing he provides a historical perspective on the diffusion of American building technologies architectural standards construction methods and planning paradigms Using previously undocumented examples and illustrations he shows how steel frame manufacturers shipped their products abroad enabling the erection of American style skyscrapers worldwide by 1900 and how this phase was followed by similar initiatives by companies manufacturing concrete components

The New Pan-Americanism and the Structuring of Inter-American Relations Juan Pablo Scarfi, David M. K. Sheinin, 2022-03-16 What is Pan Americanism People have been struggling with that problem for over a century Pan Americanism is and has been an amalgam of diplomatic political economic and cultural projects under the umbrella of hemispheric cooperation and housed institutionally in the Pan American Union and later the Organization of American States But what made Pan Americanism exceptional The chapters in this volume suggest that Pan Americanism played a central and lasting role in structuring inter American relations because of the ways in which the movement was reinvented over time and because the actors who shaped it often redefined and redeployed the term Through the twentieth century new appropriations of Pan Americanism structured restructured and redefined inter American relations Taken together these chapters underscore two exciting new shifts in how scholars and others have come to understand Pan Americanism and inter American relations First Pan Americanism is increasingly understood not simply as a diplomatic commercial and economic forum but a movement that has included cultural exchange Second researchers political leaders and the media in several countries have traditionally conceived of Pan Americanism as a mechanism of US expansionism This volume reimagines Pan Americanism as a movement built by actors from all corners of the Americas

Civic Buildings after the Spanish-American War Maria Eugenia Achurra G., 2023-11-27 Following the 1898 Spanish American War the United States constructed federal buildings in its newly acquired territories including Cuba Puerto Rico and the Philippines Over a

century later many of these grand Beaux Arts style edifices are still in use In Civic Buildings after the Spanish American War Maria Eugenia Achurra G examines this architecture and urban design as a backdrop for US exceptionalism and expansionism The book defines exceptionalism and its role in US Beaux Arts federal architecture Subsequent chapters compare specific examples of Beaux Arts civic architecture in the continental US and Latin America The book also studies architectural and urban design from other US possessions of the Progressive Era such as the former Panama Canal Zone and occupied territories like the Dominican Republic Reviewing the work of relevant designers and architects Achurra G argues that architectural examples epitomize the rich expansionist intentions of twentieth century Progressive America These lingering buildings function as intriguing material evidence of the United States geopolitical historical and commercial meddling in the internal affairs of the Americas and elsewhere

Covert Capital Andrew Friedman,2013-08-02 The capital of the U S Empire after World War II was not a city It was an American suburb In this innovative and timely history Andrew Friedman chronicles how the CIA and other national security institutions created a U S imperial home front in the suburbs of Northern Virginia In this covert capital the suburban landscape provided a cover for the workings of U S imperial power which shaped domestic suburban life The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U S expanded its power abroad by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U S foreign policy Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D C Friedman tells the story of a place that recasts ideas about U S immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new

window onto the intertwined history of the American suburbs and U S foreign policy Covert Capital will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales American Crossroads 37 Michigan Modern Amy Arnold,Brian Conway,2016-10-04 Michigan Modern Design That Shaped America is an impressive collection of important essays touching on all aspects of Michigan s architecture and design heritage The Great Lakes State has always been known for its contributions to twentieth century manufacturing but it s only beginning to receive wide attention for its contributions to Modern design and architecture Brian D Conway Michigan s State Historic Preservation Officer and Amy L Arnold project manager for Michigan Modern have curated nearly thirty essays and interviews from a number of prominent architects academics architectural historians journalists and designers including historian Alan Hess designers Mira Nakashima Ruth Adler Schnee and Todd Oldham and architect Gunnar Birkerts describing Michigan s contributions to Modern design in architecture automobiles furniture and education *Modern Middle-Class Housing in Tehran* Rana Habibi,2020-11-16 In Modern Middle Class Housing in Tehran Reproduction of an Archetype Rana Habibi offers an engaging analysis of the modern urban history of Tehran during the Cold War period 1945 1979 The book while arguing about the institutionalism of modernity in the form of modern middle class housing in Tehran shows how vernacular archetypes found their way into the construction of new neighborhoods The trajectory of ideal modernism towards popular modernism the introduction of modern taste to traditional society through architects while tracing the path of transnational models in local projects are all subjects extensively expounded by Rana Habibi through engaging graphical analyses and appealing theoretical interpretations involving five modern Tehran neighborhoods **Rooted Cosmopolitanism, Heritage and the Question of Belonging** Lennart Wouter Kruijer,Miguel John Versluys,Ian Lilley,2024-03-21 This book explores the analytical and practical value of the notion of rooted cosmopolitanism for the field of cultural heritage Many concepts of present day heritage discourses such as World Heritage local heritage practices or indigenous heritage tend to elide the complex interplay between the local and the global entanglements that are investigated as glocalisation in Globalisation Studies However no human group ever creates more than a part of its heritage by itself This book explores an exciting new alternative in scholarly critical heritage discourse the notion of rooted cosmopolitanism a way of making manifestations of globalised phenomena comprehensible and relevant at local levels It develops a critical perspective on heritage and heritage practices bringing together a highly varied yet conceptually focused set of stimulating contributions by senior and emerging scholars working on the heritage of localities across the globe A contextualising introduction is followed by three strongly theoretical and methodological chapters which complement the second part of the book six concrete empirical chapters written in response to the more theoretical chapters Two final reflective conclusions bring together these different levels of analysis This book will appeal primarily to archaeologists anthropologists heritage professionals and museum curators who are ready to be confronted with innovative

and exciting new approaches to the complexities of cultural heritage in a globalising world The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Cities and Sovereignty Diane E. Davis,Nora Libertun de Duren,2011-02-01 Cities have long been associated with diversity and tolerance but from Jerusalem to Belfast to the Basque Country many of the most intractable conflicts of the past century have

played out in urban spaces The contributors to this interdisciplinary volume examine the interrelationships of ethnic racial religious or other identity conflicts and larger battles over sovereignty and governance Under what conditions do identity conflicts undermine the legitimacy and power of nation states empires or urban authorities Does the urban built environment play a role in remedying or exacerbating such conflicts Employing comparative analysis these case studies from the Middle East Europe and South and Southeast Asia advance our understanding of the origins and nature of urban conflict

Alternative Globalizations James Mark,Artemy M. Kalinovsky,Steffi Marung,2020-02-11 Globalization has become synonymous with the seemingly unfettered spread of capitalist multinationals but this focus on the West and western economies ignores the wide variety of globalizing projects that sprang up in the socialist world as a consequence of the end of the European empires This collection is the first to explore alternative forms of globalization across the socialist world during the Cold War Gathering the work of established and upcoming scholars of the Soviet Union Eastern Europe and China *Alternative Globalizations* addresses the new relationships and interconnections which emerged between a decolonizing world in the postwar period and an increasingly internationalist eastern bloc after the death of Stalin In many cases the legacies of these former globalizing impulses from the socialist world still exist today Divided into four sections the works gathered examine the economic political developmental and cultural aspects of this exchange In doing so the authors break new ground in exploring this understudied history of globalization and provide a multifaceted study of an increasing postwar interconnectedness across a socialist world
